B Health screening

For most people, physical activity does not pose a hazard. The questions below have been designed to identify the small number of people for whom it would be wise to have medical advice before starting:

- | | |
|--|--|
| <p>1 Has your doctor ever said you have a heart conditions? Yes <input type="checkbox"/> No <input type="checkbox"/></p> <p>2 Do you feel pain in your chest when you do physical activity? Yes <input type="checkbox"/> No <input type="checkbox"/></p> <p>3 Do you ever lose balance because of dizziness or ever lose consciousness? Yes <input type="checkbox"/> No <input type="checkbox"/></p> | <p>4 In the past month, have you had pain in your chest when you were NOT doing physical activity? Yes <input type="checkbox"/> No <input type="checkbox"/></p> <p>5 Do you have a bone or joint problem that could be made worse by a change in your physical activity? Yes <input type="checkbox"/> No <input type="checkbox"/></p> |
|--|--|

Declaration

I understand that if I have answered 'Yes' to one or more of the above questions, I should seek medical advice before attending a walking programme. I agree to tell the walk leaders if there is a change in my medical condition. I understand that this information will be shared with other walk leaders and that I walk at my own risk.

Using and sharing your information

Your information will be held by Natural England and Heart and Sole, in accordance with the Data Protection Act 1998. It will be used by each of us to evaluate our health walks and show funders that we offer value for money. Summary information will also be used by Natural England to further its work on safeguarding and promoting the use of the natural environment to improve the health of the population. The information will be collected by walk leaders and passed on to walk coordinators for inputting into a central database. This will be used to draw anonymous reports for both the local scheme and the national programme. The results of any analysis will be used to influence and support further funding bids for the local and national schemes and help define the health value of the natural environment.

I have read and understood the above statement.
