# **Strategic Housing and Employment Land Availability Assessment (SHELAA) Autumn 2025**

Part 7 of 9  
List of Omitted Sites

November 2025

### **List of Omitted Sites from the SHELAA Assessment**

The list below sets out those sites which have been omitted entirely from the SHELAA subject to one of the following reasons (as also outlined within the methodology):

1. Site is considered to be identical or almost identical to another submission (Where a site is considered almost identical to another site, the assessing officer makes a judgement as to whether the discrepancy would likely impact the assessment outcome)
2. Subsequent to submission, site has commenced/completed development
3. If removal of site is requested by the landowner (In the case where a portion of a SHELAA site is owned, only this portion will be omitted from the submission)
4. If removal of site is requested by the person/organisation who submitted the site or if the promoter is no longer contactable.

| <b>Site Reference</b> | <b>Site Address</b>                                                                                           | <b>Site area (ha)</b> | <b>Reason for Omission</b>                         |
|-----------------------|---------------------------------------------------------------------------------------------------------------|-----------------------|----------------------------------------------------|
| CFS196                | Land South of Chelmer Village Way and North of the Chelmer and Blackwater Navigation, Springfield, Chelmsford | 32.78                 | 1. Considered to be a duplicate of 21SHELAAamend59 |
| CFS240                | Land between Windsor Road and Oak Road, Downham Road, Ramsden Heath Billericay                                | 0.38                  | 4. Site promoter no longer contactable.            |
| 21SHELAA75            | Land South East of 67 Priory Road, Bicknacre, Chelmsford, Essex                                               | 7.48                  | 1. Considered to be a duplicate of CFS158          |

# **Strategic Housing and Employment Land Availability Assessment (SHELAA) Autumn 2025**

Part 8 of 9

Glossary

November 2025

## GLOSSARY

**Affordable housing:** housing for sale or rent, for those whose needs are not met by the market (including housing that provides a subsidised route to home ownership and/or is for essential local workers). This may consist of affordable housing for rent, starter homes, discounted market sale housing, and other affordable home ownership models – as set out in the NPPF.

**Achievability:** A site is considered achievable for development where there is a reasonable prospect that the development will be developed on the site at a particular point in time. This is essentially a judgement about the economic viability of a site, and the capacity of the developer to complete and let or sell the development over a certain period.

**Annual position statement:** A document setting out the 5-year housing land supply position on 1st April each year, prepared by the local planning authority in consultation with developers and others who have an impact on delivery.

**Ancient woodland:** An area that has been wooded continuously since at least 1600 AD. It includes ancient semi-natural woodland and plantations on ancient woodland sites.

**Ancient or veteran tree:** A tree which, because of its age, size and condition, is of exceptional biodiversity, cultural or heritage value. All ancient trees are veteran trees. Not all veteran trees are old enough to be ancient, but are old relative to other trees of the same species. Very few trees of any species reach the ancient life-stage.

**Availability:** A site can be considered available for development, when, on the best information available (confirmed by the call for sites and information from land owners and legal searches where appropriate), there is confidence that there are no legal or ownership impediments to development. For example, land controlled by a developer or landowner who has expressed an intention to develop may be considered available.

**Best and most versatile agricultural land:** Land in grades 1, 2 and 3a of the Agricultural Land Classification.

**Brownfield land:** See Previously developed land.

**Brownfield land registers:** Registers of previously developed land that local planning authorities consider to be appropriate for residential development, having regard to criteria in the Town and Country Planning (Brownfield Land Registers) Regulations 2017. Local planning authorities will be able to trigger a grant of permission in principle for residential development on suitable sites in their registers where they follow the required procedures.

**Conservation** (for heritage policy): The process of maintaining and managing change to a heritage asset in a way that sustains and, where appropriate, enhances its significance.

**Deliverable:** To be considered deliverable, sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years.

**Designated Heritage Asset:** A World Heritage Site, Scheduled Monument, Listed Building, Protected Wreck Site, Registered Park and Garden, Registered Battlefield or Conservation Area designated under the relevant legislation.

**Developable:** To be considered developable, sites should be in a suitable location for housing development with a reasonable prospect that they will be available and could be viably developed at the point envisaged.

**Development plan:** Is defined in section 38 of the Planning and Compulsory Purchase Act 2004, and includes adopted local plans, neighbourhood plans that have been made and published spatial development strategies, together with any regional strategy policies that remain in force. Neighbourhood plans that have been approved at referendum are also part of the development plan, unless the local planning authority decides that the neighbourhood plan should not be made.

**Employment Area/Allocation:** Local planning designation to safeguard areas for employment uses

**Flood Zones:** Zones determined by the likelihood that flooding will occur in the area. Zone 3 represents the area at the greatest risk of flooding, whilst Zone 1 represents the area with the lowest risk of flooding

**Green Belt:** Statutory planning designations that prevent urban sprawl by keeping land permanently open. The essential characteristics of Green Belts are their openness and permanence.

**Green Wedge:** Local planning designation that protects the role and function of river valleys permeating into Chelmsford's Urban Area

**Greenfield Land:** Land which is not Previously Developed Land (see below)

**Green infrastructure:** A network of multi-functional green and blue spaces and other natural features, urban and rural, which is capable of delivering a wide range of environmental, economic, health and wellbeing benefits for nature, climate, local and wider communities and prosperity.

**Habitats Site:** Any site which would be included within the definition at regulation 8 of the Conservation of Habitats and Species Regulations 2017 for the purpose of those regulations, including candidate Special Areas of Conservation, Sites of Community Importance, Special Areas of Conservation, Special Protection Areas and any relevant Marine Sites.

**Heritage Asset:** A building, monument, site, place, area or landscape identified as having a degree of significance meriting consideration in planning decisions, because of its heritage interest. It includes designated heritage assets and assets identified by the local planning authority (including local listing).

**International, national, and locally designated sites of importance for biodiversity:** All international sites (Special Areas of Conservation, Special Protection Areas, and Ramsar sites), national sites (Sites of Special Scientific Interest) and locally designated sites including Local Wildlife Sites.

**Local housing need:** The number of homes identified as being needed through the application of the standard method set out in national planning guidance (or, in the context of

preparing strategic policies only, this may be calculated using a justified alternative approach as provided for in paragraph 62 of this Framework).

**Local planning authority:** The public authority whose duty it is to carry out specific planning functions for a particular area.

**Local Plan:** A plan for the future development of a local area, drawn up by the local planning authority in consultation with the community. In law this is described as the development plan documents adopted under the Planning and Compulsory Purchase Act 2004. A local plan can consist of either strategic or non-strategic policies, or a combination of the two.

**Major development:** For housing, development where 10 or more homes will be provided, or the site has an area of 0.5 hectares or more. For non-residential development it means additional floorspace of 1,000m<sup>2</sup> or more, or a site of 1 hectare or more, or as otherwise provided in the Town and Country Planning (Development Management Procedure) (England) Order 2015.

**Major hazard sites, installations and pipelines:** Sites and infrastructure, including licensed explosive sites and nuclear installations, around which Health and Safety Executive (and Office for Nuclear Regulation) consultation distances to mitigate the consequences to public safety of major accidents may apply.

**Mineral Consultation Area:** a geographical area based on a Mineral Safeguarding Area, where the district or borough council should consult the Mineral Planning Authority for any proposals for non-minerals development.

**Mineral Safeguarding Area:** An area designated by minerals planning authorities which covers known deposits of minerals which are desired to be kept safeguarded from unnecessary sterilisation by non-mineral development.

**Nature Recovery Network:** An expanding, increasingly connected, network of wildlife-rich habitats supporting species recovery, alongside wider benefits such as carbon capture, water quality improvements, natural flood risk management and recreation. It includes the existing network of protected sites and other wildlife rich habitats as well as and landscape or catchment scale recovery areas where there is coordinated action for species and habitats.

**Neighbourhood plan:** A plan prepared by a parish council or neighbourhood forum for a designated neighbourhood area. In law this is described as a neighbourhood development plan in the Planning and Compulsory Purchase Act 2004.

**Neighbourhood Centre:** local planning designation of an area of amenity providing an important retail, business and community role

**Open space:** All open space of public value, including not just land, but also areas of water (such as rivers, canals, lakes and reservoirs) which offer important opportunities for sport and recreation and can act as a visual amenity

**Planning obligation:** A legal agreement entered into under section 106 of the Town and Country Planning Act 1990 to mitigate the impacts of a development proposal.

**Previously developed land:** Land which is or was occupied by a permanent structure, including the curtilage of the developed land (although it should not be assumed that the whole of the curtilage should be developed) and any associated fixed surface infrastructure. This excludes: land that is or was last occupied by agricultural or forestry buildings; land that has been developed for minerals extraction or waste disposal by landfill, where provision for restoration has been made through development management procedures; land in built-up areas such as residential gardens, parks, recreation grounds and allotments; and land that was previously developed but where the remains of the permanent structure or fixed surface structure have blended into the landscape.

**Primary shopping area:** Defined area where retail development is concentrated.

**Ramsar sites:** Wetlands of international importance, designated under the 1971 Ramsar Convention

**Renewable and low carbon energy:** Includes energy for heating and cooling as well as generating electricity. Renewable energy covers those energy flows that occur naturally and repeatedly in the environment – from the wind, the fall of water, the movement of the oceans, from the sun and also from biomass and deep geothermal heat. Low carbon technologies are those that can help reduce emissions (compared to conventional use of fossil fuels).

**Self-build and custom-build housing:** Housing built by an individual, a group of individuals, or persons working with or for them, to be occupied by that individual. Such housing can be either market or affordable housing. A legal definition, for the purpose of applying the Self-build and Custom Housebuilding Act 2015 (as amended), is contained in section 1(A1) and (A2) of that Act.

**SHELAA:** Strategic Housing and Employment Land Availability Assessment. This is the assessment Chelmsford City Council have developed to adhere to NPPF requirement that strategic policy-making authorities prepare housing land availability assessments to identify land for development.

**Special Areas of Conservation:** Areas defined by regulation 3 of the Conservation of Habitats and Species Regulations 2017 which have been given special protection as important conservation sites

**Special Protection Areas:** Areas classified under regulation 15 of the Conservation of Habitats and Species Regulations 2017 which have been identified as being of international importance for the breeding, feeding, wintering or the migration of rare and vulnerable species of birds

**Site of Special Scientific Interest:** Sites designated by Natural England under the Wildlife and Countryside Act 1981

**Suitability:** A site or broad location can be considered suitable if it would provide an appropriate location for development when considered against relevant constraints and their potential to be mitigated.

**Town centre:** Area defined on the local authority's policies map, including the primary shopping area and areas predominantly occupied by main town centre uses within or

adjacent to the primary shopping area. References to town centres or centres apply to city centres, town centres, district centres and local centres but exclude small parades of shops of purely neighbourhood significance. Unless they are identified as centres in the development plan, existing out-of-centre developments, comprising or including main town centre uses, do not constitute town centres.

**Viability:** A site is considered viable if it is economically feasible to be delivered in accordance with national and local planning policy.

**Yield:** The number of dwellings that could be delivered on a site.

# **Strategic Housing and Employment Land Availability Assessment (SHELAA) Autumn 2025**

Part 9 of 9  
Frequently Asked  
Questions

November 2025

## **FREQUENTLY ASKED QUESTIONS**

**Q: What is a 'Call-for Sites' and what is the SHELAA?**

A: To meet housing and employment needs of the future, the Council must find land that can be allocated for development. As a starting point, we reach out to the public, to landowners, to land promoters and all other interested bodies to ask for suggestions of sites that we could use. This process is known as a 'Call for Sites'.

The Council must then look to see which of these sites may be suitable, available, and achievable for development. The Strategic Housing and Employment Land Availability Assessment (SHELAA) is the assessment we use to determine this.

**Q: How do I submit a site to be included within the SHELAA?**

A: Sites can be submitted to Chelmsford City Council via the SHELAA site submission facility which can be found on our website. The facility is open all year round, and there are cut-off points (pauses) to allow the assessment to take place.

Site promoters can either:

- [Submit a new site](#) that has not previously been included within a call for sites or SHELAA submission, or
- [Update or amend a site](#) that is already on our SHELAA database

Amendments can include adding or removing land, providing additional details to the proposal, or notifying us of change of ownership).

**Q: When will the next assessment take place?**

A: We aim to undertake assessments yearly. The cut-off point usually falls on 31<sup>st</sup> December of that year. Occasionally, cut-off points are changed to reflect a review of the Local Plan.

When you make a submission through our [Consultation Portal](#), you will be able to see when the next cut-off point is.

**Q: What happens if I submit a site after the cut-off point?**

A: If you submit a new site or propose an amendment to an existing site through our [Consultation Portal](#) after a cut-off point, your submission will not be considered until the next cut-off point. The submission will be considered in the following assessment, which will normally be held the following year.

**Q: When will the outcomes of the assessment be published and how can I view them?**

A: The assessment usually takes around three months to complete but this can vary depending on the number of new sites or amendments that have been submitted. It is then published on our [SHELAA webpage](#).

Upon publication, we will contact everyone who has made submissions to let them know that the assessment outcomes are now viewable.

**Q: How do the SHELAA outputs feed into the Local Plan?**

A: The assessment outcomes help the Council to decide where to allocate future development within the Local Plan.

The SHELAA does not allocate sites for future development. The sites submitted within the SHELAA are considered together with other documents in the Local Plan evidence base to help the Council allocate sites within the Local Plan.

**Q: How are sites assessed and how are they categorised?**

A: Sites are assessed against a range of criteria according to their proposed use. The Criteria Note explains what criterion is used and why. The proposed uses considered are as follows:

- Residential
- Employment
- Retail
- Community Facility
- Mixed Use
- Renewable Energy Generation.

The criteria consider the Suitability, Availability and Accessibility of each site to come up with a score. The site is then RAG (Red, Amber, Yellow and Green) rated to see if the site may be developable or deliverable. The RAG rating is shown below:

|        |                                                                                                                                                                                      |
|--------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Red    | Site is contrary to national policy and/or faces significant constraints or adverse impacts that cannot be mitigated.                                                                |
| Amber  | Site scores less well against criteria or has some characteristics contrary to local policy and faces moderate constraints that would require mitigation.                            |
| Yellow | Site scores well against criteria but has some characteristics contrary to local policy. Site faces minor constraints that would require mitigation. Site is considered developable. |
| Green  | Site scores highly against criteria and demonstrates compliance with national and local policy. Site faces minimal constraints and is considered deliverable.                        |

Sites need to fall within Yellow and Green categories to be considered developable or deliverable, respectively.

**Q: My site has been categorised as Green, does that mean it will be:**

- a) allocated for development?
- b) granted planning permission?
- c) is eligible for entry on the Brownfield Register?

A: a) No. The SHELAA does not allocate sites for development. Sites are allocated for development in the Local Plan and are subject to public consultation and consideration within the Local Plan review and examination.

The SHELAA is one of many evidence-based documents that are considered by the Council when making informed decisions on where to allocate future development.

b) No. The SHELAA is a desk-based assessment that assesses promoted sites against a range of criteria (see Criteria Note) to see if they are suitable, available, and achievable for development.

Planning permission will need to be applied for and granted for development to take place. As part of the planning application, the proposal will be considered by a team of Officers to see if the site is suitable for development.

c) Not necessarily. Whilst the SHELAA provides a high-level overview of sites, [The Town and Country Planning \(Brownfield Land Register\) Regulations 2017](#) sets out specific criteria that a site must meet to be eligible for entry onto the Brownfield Register. Sites that perform well within the SHELAA will be assessed by Officers to see if they are also eligible for entry on the Brownfield Register.

**Q: My site has a scored well but is still categorised as Amber/Red. Why is this?**

A: The score does not determine if a site is suitable for development. A site needs to fall within Yellow and Green categories (see above) to be considered developable or deliverable.

Some criteria carry greater weight than others. These criteria are identified within the 'Capped Constraints' section of the Criteria Note. Where a score of '0' is received against one of these criteria, this means that it is not able to comply with National and/or Local Planning Policy and the site cannot be considered deliverable (Green) nor developable (Yellow).

**Q: My site has been categorised at Amber/Red, does that mean it can never be developed?**

A: No. An Amber/Red rating indicates that the site has moderate/significant constraints that at the time of the Assessment could prevent the delivery of the proposed use in accordance with Local and/or National Planning Policy.

Where there is potential to mitigate / reduce the harm of these constraints to comply with planning policy, development of the site may be feasible.

**Q: The site performance summary says my site has a potential yield of X number of dwellings. What does this mean?**

A: The Yield means the number of dwellings that could be delivered on a site.

The potential yield of the site provides an estimate of how much housing could be delivered on the site. The yield is calculated from the assumptions in the Viability Study that supports the Achievability element of the SHELAA.

The potential yields of all the SHELAA sites are added together to work out how much housing could be provided if all of the sites were to be developed. It helps us to understand how much land we need to allocate for development and the possible locations for it.

The yield is used as a guide only. The actual number of dwellings that will be allocated / developed will be considered within the Local Plan Review or as part of a planning application.

**Q: I believe an error has been made in the assessment of my site. How do I arrange to have this amended?**

A: If you believe an error has been made in the assessment of your site, please contact the Spatial Planning Team at: [planning.policy@chelmsford.gov.uk](mailto:planning.policy@chelmsford.gov.uk)

**Q: I do not agree with the criteria that has been used to assess the sites. How can I provide feedback to Officers?**

A: Feedback can be provided to us at any time. Please email this to Spatial Planning at: [planning.policy@chelmsford.gov.uk](mailto:planning.policy@chelmsford.gov.uk) to ensure this is considered.

As set out in the SHELAA Methodology, the first stage of the assessment is for officers to undertake a review of existing SHELAA criteria. At this point, all feedback and comments received to the Spatial Planning inbox or have been provided in response to any dedicated formal consultation, will be considered.

For any other questions that have not been addressed here, please contact the Spatial Planning Team at [planning.policy@chelmsford.gov.uk](mailto:planning.policy@chelmsford.gov.uk)

| Regulation 19 SHELAA Comments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | Consultee               | SHELAA Ref                                                | Response                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------|-----------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>It is noted that when totalling the site's performance against the 16 strands of suitability criteria the site scores 78%. This score on its own would usually result in the site being rated as 'Green' in respect of its suitability. However, the site has scored zero in respect of 'Proximity to Key Services' and 'Protected Natural Features'.</p> <p>There is no commentary provided to explain or justify the assigned scores of zero - it is not clear why the site scored a zero in respect of 'Protected Natural Features'. Bloor Homes acknowledge that Tree Preservation Order TPO/2009/044 runs along circa 60m of the northern tip of the site boundary; however, the presence of this constraint is not significant. Indeed, a Framework Plan/Vision Document submitted in June 2024 to the Council in the promotion of the site through the SHELAA update, demonstrated that the TPO area can be retained, and a significant development set back delivered to ensure the amenity and integrity of these trees are not affected. This is not a constraint which warrants a score of zero in a SHELAA site appraisal. It is also noted that the proposed site allocations for Great Leighs are similarly adjacent or within TPO areas. This demonstrates that the presence of a TPO does not render the site unsuitable for development.</p> <p>The 'Proximity to Key Services' is also a capped 'Amber' criteria, with the site currently rated as zero due to it being located more than 2km walking distance of one or more key services (defined as a GP Surgery, primary school, secondary school and convenience store) and or the city centre or Woodham Ferrers Town Centre. In our assessment the site is within 2km walking distance of Great Leighs Post Office &amp; convenience store and Great Leighs primary school. It is acknowledged that the site is in excess of 2km away from proposed site access, provide excellent links to the city centre, Great Notley and</p> | Bloor<br>PSQ25-<br>6144 | 15SLAA28<br><br>Land East of<br>Main Road<br>Great Leighs | <p>Section 5.14 of Criteria Note details that a site that is partially comprising of one or more natural features scores a zero. The TPO in this case comprises part of the site. It is noted in the comments of this section on our database the TPO would be retained according to submitted documents. However, the SHELAA assessment is of current constraints without regard to proposals.</p> <p>As noted in the Criteria Note, if the site is in excess of 2km walking distance from one or more services the score would be zero. This is the case (GP surgery) justifying the score of zero.</p> <p>According to the Criteria Note on land classification any grade 1, 2, or 3 is a zero rating which is the case for this site.</p> <p>Strategic road access only applies to mixed use developments not residential – hence the N/A.</p> |

| Regulation 19 SHELAA Comments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Consultee | SHELAA Ref | Response                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

| <p>Braintree which provide this infrastructure. The NHS website confirms that there are three GP surgeries covering the site and accepting new patients; all three practices are within 3 miles of the site. The Great Notley Surgery and the Little Waltham &amp; GT Notley Surgery are both accessible within a 10-20min bus journey departing from the Main Road stops adjacent to the site access. In respect of secondary education, the catchment school is Chelmer Valley High School. The Main Road bus stops also provide a service which links to the High School with a journey time of circa 20 minutes when allowing for a short walk when alighting at the Butlers Farm stop.</p> <p>It is strongly contended that the site performs well in terms of its access to the local service provision at Great Leighs and at neighbouring higher order settlements. The SHELAA scoring criteria should be amended to recognise the ability to access services and infrastructure via public transport. Whilst the site's 'Amber' rating is in accordance with the SHELAA methodology, it is contended that the methodology is flawed and unduly restrictive. The capped nature of this criteria should be removed and a new score of one or two introduced to capture those sites which benefit from excellent proximity to public transport links which serve key infrastructure and higher order settlements. It is noted that Great Leighs has been afforded three residential allocations via the new Local Plan despite these sites not being within a 2km walk of a GP Surgery and Secondary School. Thus, the consistency in approach from the Council and or the influence of the SHELAA conclusions in selecting sites for allocation is not clear.</p> <p>Land Classification: Currently the site is assessed as being either Grade 1, 2 or 3 agricultural land. However, the site has not been subject to any specific intrusive surveys; thus, the Grade and quality</p> |           |            | <p>The score of land ownership is accurate relating to the Criteria Note.</p> <p>The Criteria Note and Methodology have been approved following consultation. The Planning Advisory Service have been involved in this process.</p> <p>The SHELAA helps the Council to gain an understanding of the potential developability of sites proposed for future development. It forms part of the evidence base for the preparation and review of the Local Plan and provides a guide to the potential strengths and weaknesses of sites.</p> <p>The SHELAA is not conducive to the outcome of planning applications.</p> |

| Regulation 19 SHELAA Comments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | Consultee | SHELAA Ref | Response |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|------------|----------|
| <p>of the land is not known. Regional indicative Natural England mapping identifies the site as Grade 3 land. Grade 3 is split into 3a and 3b, with only 3a being classed as Best and Most Versatile by the NPPF. Bloor Homes believe that this element of the SHELAA methodology is fundamentally flawed as there is no distinction between Grade 3a and 3b land. Given the above information it is unfair to score the site a zero as the grade of the land is unknown and could well not be best and most versatile land.</p> <p>Strategic Road Access: The site scored N/A on this criterion. In Bloor Homes' view whilst the site does not connect to a strategic road, its proximity to the future route of the CNEB should be acknowledged by the SHELAA. The CNEB will significantly enhance the connectivity and sustainability credentials of the site and Great Leighs.</p> <p>Land Ownership: The site is scored a three as it is being promoted by a Site Promoter who has "an option to purchase the site or collaborate with the existing owner". Sites score a five if they are "held by a developer/willing owner/public sector". In this case the site should be scored a five as the site is being promoted by Bloor Homes (Eastern) in the full agreement and support of a willing landowner. The very nature of an Option Agreement demonstrates a positive willingness and commitment to bring the site forward by all parties.</p> <p>In light of the above analysis, it is clear that the site should be assigned a 'Green' suitability rating to sit alongside its existing 'Green' ratings relating to achievability and availability. This would result in an overall 'Green' RAG rating. The site's suitability % should rise to a minimum of 83% (with no capped scores) and the total RAG score should rise to 108, plus any additional points awarded in respect of</p> |           |            |          |

| Regulation 19 SHELAA Comments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | Consultee               | SHELAA Ref                                                                     | Response                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

| 'Proximity to Key Services' and 'Land Classification' following a review of the SHELAA methodology and scoring criteria.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                         |                                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <p>The Site has the lowest possible score in relation to public transport; public right of way and cycle connectivity, strategic road access; land classification; and protected natural features. The SHELAA's assessment of the Site in relation to each of these criteria is considered in turn below.</p> <p>In respect of public transport, as set out in the Vision Document prepared in respect of the Site's development and submitted alongside representations at the Regulation 18 (Preferred Options) stage, there are existing bus services which run along Roxwell Road, between Writtle and the City Centre. Development of the Site would be of sufficient scale to warrant diverting some of these services into the Site and provision of additional connections for the relatively short distance into the City Centre. An extract from our previously submitted vision document is shown in Appendix C figure 1.</p> <p>With regards to foot and cycle connectivity, and more generally, it appears the assessment by the Council has failed to properly take into account the forthcoming development of the Warren Farm phase 1 site as is allocated in the existing adopted Chelmsford Local Plan. This will of course provide ample opportunity for connectivity on foot or cycle through to the existing community and the site is very well placed to benefit from this. Furthermore there are then excellent links further afield through the routes along Rainsford Road and through Admirals Park / Central Park to Chelmsford City Council. An extract from our previously submitted vision document is shown in Appendix C figure 2. In respect of strategic road access, the SHELAA reports that: "Site has no direct access to nor is adjacent to the strategic road network,</p> | Crest /Ceres PSQ25-6082 | CFS165<br><br>Land known as North West Quadrant, West of Avon Road, Chelmsford | <p>The scoring of public transport is in relation to existing links and is in keeping with the Criteria Note. It does not consider planned transport; this can be considered in further assessments when the infrastructure is in place.</p> <p>The assessment of connectivity is in relation to existing infrastructure – allocated sites adjacent are not a premise to increase this score.</p> <p>The site is not adjacent to nor has direct access to a strategic road. This justifies the score as noted in the Criteria Note.</p> <p>According to the Criteria Note on land classification any grade 1, 2, or 3 is a zero rating which is the case for this site.</p> <p>0.591ha of the site protected under TPO/1990/024.<br/>Therefore, the site is partially</p> |

| Regulation 19 SHELAA Comments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | Consultee | SHELAA Ref | Response                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>primary road network, a safeguarded trunk road or a B-road". The Site is c.2.7 miles from the A12 to the north-east; c.3.7 miles to the A12 to the south-west; and is located in close proximity to the A1060. This is not a case of a remote site, disconnected from the strategic highway network.</p> <p>In respect of land classification, the SHELAA states: "Site is predominantly Greenfield and primarily within the land classification/s: Grade 1, Grade 2 or Grade 3". This suggests the Site has been scored 0 in relation to this objective, despite not being able to say whether the Site is Grade 1, 2, 3a or even 3b, the latter not constituting best and most versatile agricultural land. This cannot be considered a robust assessment in relation to this criterion, and it is patently unjustified to, in effect, apply a 'worst case' scenario score to the Site, despite the SHELAA acknowledging it is an unknown.</p> <p>In the commentary on protection natural features, the SHELAA states site CFS165 is "partially or wholly comprises of one or more protected natural features". It does not specify what features, or how development may harm them. The SHELAA methodology simply refers to "Local Plan GIS map (viewable online*)" Having review the online Policies Map it remains unclear which designation / policy development of the Site is considered to offend in relation to protected natural features. As per the Vision Document, development of the Site can be delivered in a manner that does not have an undue impact in this regard. On the contrary, development of the Site has the potential to engender benefits in this regard. None of the zero scores of the Site stand up to scrutiny.</p> <p>Other criteria which the Site is scored relatively poorly against include flood risk constraint. However, for a Site of this scale it is eminently</p> |           |            | <p>comprising of one natural feature justifying the score.</p> <p>The score reflects the fact that a proportion of the sites lies within Flood Zone 2 and 3.</p> <p>The formula of assessment has rated this site amber based on the existing constraints of the site. An explanation of Capped Constraints is provided in the Criteria Note.</p> <p>The Criteria Note and Methodology have been approved following consultation. The Planning Advisory Service have been involved in this process.</p> <p>The SHELAA helps the Council to gain an understanding of the potential developability of sites proposed for future development. It forms part of the evidence base for the preparation and review of the Local Plan and provides a guide to the potential strengths and weaknesses of sites.</p> |

| Regulation 19 SHELAA Comments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | Consultee                          | SHELAA Ref                                                                                                  | Response                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------|-------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>feasible to deliver development without impinging on Flood Zone 2/3, a band of which runs through part of the Site.</p> <p>Overall, the Site's suitability is rated as 'amber', which the SHELAA methodology explains in Table 1 means it is considered as follows: "Site scores poorly against criteria, is contrary to local policy, and faces moderate constraints that would require mitigation".</p> <p>It is considered that the Site should have also been confirmed as being suitable for development, if information submitted as part of the plan-making process, at the previous consultation stage (i.e. the representations on the Regulation 18 (Preferred Options) with accompanying Vision Document) had been properly accounted for.</p>                                                                                                                                       |                                    |                                                                                                             | <p>The SHELAA is not conducive to the outcome of planning applications.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <p>IIA / SHELAA Inconsistencies</p> <p>The Site (20SHELAA3) scores 117 in the SHELAA, which is third highest of all sites in the document and more than most of the allocations.</p> <p>The site adjoins South Woodham Ferrer settlement boundary at the Northern End, which is where the main core of the village is located, including the station. Additionally, it is also adjacent to the allocation to the north of South Woodham Ferrers, which includes services and facilities. The SHELAA assessment of the site is evidently very positive with one of the highest scores from all sites assessed. However, the RAG rating in Appendix M of the IIA would appear to illustrate something different, with red and amber scores for matter such as proximity to shopping areas, which is at odds with the SHELAA. This is a concern, if it has formed part of the site justification.</p> | <p>Dandara<br/>PSQ25-<br/>6209</p> | <p>20SHELAA3</p> <p>Land At Ilgars Farm, West Of Willow Grove, South Woodham Ferrers, Chelmsford, Essex</p> | <p>The IIA assesses sites against the 14 IIA objectives so that the sustainability performance of the sites can be compared directly to one another. It includes all the SHELAA sites but does not replicate the CCC SHELAA as it only considers the sustainability aspect of the assessment with the criteria /distance thresholds set out in Appendix M of the report. The purpose of this is to inform the development and assessment of alternative spatial strategy options. The two outputs are not therefore directly comparable and serve</p> |

|                                                                                                                                                                                                                                                                                                                                                                                                      |                                 |                                                         | <p>different purposes as the SHELAA is also reviewing the potential availability and achievability of sites as required in the PPG. Where the sustainability aspects of the SHELAA relates to the IIA objectives it is set out in the Criteria Note.</p> <p>The comparison has highlighted that the site is within 100m of an Essex Local Wildlife site, so the SHELAA score has been adjusted down slightly but the overall Suitability RAG rating is unchanged.</p> <p>Both the IIA and the SHELAA are evidence base documents that alongside other documents and the Spatial Strategy inform but do not alone determine the allocation of sites during a local plan review.</p> |
| The SHELAA suggests that further assessment is required in the form of a Minerals Resource Assessment to inform the impact of development on the Minerals Safeguarding Area. Work has already been undertaken in this respect. A Preliminary Minerals Resource Assessment was submitted to the Council via email on 10th October 2023. The Assessment, which is also copied to these representations | Dandara /Bidwells<br>PSQ25-6011 | CFS182<br><br>Land North and South of Brick Barns Farm, | The desk-based Preliminary Resource Assessment submitted to the Council acknowledges that further information will need to be obtained as planning for the site                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

| Regulation 19 SHELAA Comments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | Consultee | SHELAA Ref                                                            | Response                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>at Appendix 7, confirmed that “should intrusive investigation within the Site produce similar results to those in the borehole records that have been reviewed, with resources of variable quality, thickness and depth, it would be unlikely that the resource would be economically viable, and given the depth of overburden, prior extraction would be unlikely to be practicable or viable”. Taking these findings into account, we suggest the site should be awarded a score of ‘4’ against this criterion, rather than ‘2’.</p> <p>The site is given a score of ‘0’ for Protected Natural Features, without any detailed explanation as to why. The summary simply suggests that the site ‘partially or wholly comprises of one or more protected natural features’. The Ecological Assessment copied at Appendix 6 confirms that there are no statutory designated sites for nature conservation value within 2 km of the site (the closest is Chelmer Valley Riverside, 1.91 km from the site). There are 18 non-statutory sites within a 2 km search radius of the site, the closest being Daffy Wood, 0.23 km southeast. The only Protected Natural Features believed to be withing the site boundary are trees subject to TPO designations. On a site of this scale, this is not a significant constraint. Overall, the site’s baseline ecological value is low given the arable land use currently in place.</p> <p>The site has been given a score of ‘2’ for flood risk constraints because up to 25% of the land is within Flood Zone 3. Whilst some areas are within the flood zone where they adjoin local ditches and brooks, they are considered to be an opportunity to create green corridors, biodiversity, recreation and active travel infrastructure rather than a constraint. It may not be possible to score the site differently under the methodology that has been adopted, but this should not be seen as a reason to not allocate the site.</p> |           | <p>Mashbury Road,<br/>Chignal St James,<br/>Chelmsford,<br/>Essex</p> | <p>progresses to inform a detailed Minerals Resource Assessment as there is very limited information available for the area within the site boundary. The SHELAA score is therefore appropriate.</p> <p>There are 19 trees on/within the boundary protected under TPO/2004/045. This comprises one natural feature within the site justifying the score of 0.</p> <p>Part of the site being within flood Zone 3 presents a planning constraint. The assessment of the site via SHELAA concerns the existing situation not the planned one. The assessment output is accurate with the Criteria Note.</p> <p>The site contains small areas of contaminated land according to Councils environmental restrictions mapping that will require a check on ground conditions in these parts of the site. The SHELAA assessment</p> |

| Regulation 19 SHELAA Comments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | Consultee        | SHELAA Ref | Response                                                                                                                   |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------|------------|----------------------------------------------------------------------------------------------------------------------------|
| <p>The SHELAA suggests that ground treatment is expected to be required for part of the site, but it is unclear what evidence this is based on. The site is wholly greenfield land and is not known to be contaminated. Dandara contents that a score of '5' would be more accurate, to reflect that ground treatment is not expected to be required.</p> <p>If the minerals and ground conditions criteria were scored in accordance with Dandara's recommendation above, the site would score 80 against the SHELAA's site suitability criteria and be classified 'green'. Even if it is not rescored as such, the site is clearly suitable for development given the opportunities that are available to integrate, address and create opportunities out of site constraints as part of a comprehensive masterplanning strategy.</p> <p>The site is scored as 'yellow' for achievability because it is deemed to take more than five years to come forward. Given the scale of the development opportunity it presents, this is inevitable, but Dandara can confirm that it is immediately available for development and earlier phases could come forward within five years due its location of on the edge of the existing urban area, reducing the amount of infrastructure that would be required before development commences compared. Dandara would be willing to work with the Council and other stakeholders to bring forward now if allocated in the final version of the draft Local Plan, to help boost housing supply, build a more resilient Plan and deliver a sustainable pattern of development for the long-term benefit of the City.</p> |                  |            | <p>is therefore correct to award the score of 3.</p> <p>The timescale for delivery has been updated to within 5 years.</p> |
| <p>The SHELAA identified the Site's yield of 2 units, which is substantially lower than the 181 co-living units (equivalent to 95 dwellings) that the submitted Full Application demonstrates could otherwise be acceptable</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Highgate Capital | 24SHELAA7  | <p>The yield is used as a guide only and is calculated from the assumptions in the Viability</p>                           |

| Regulation 19 SHELAA Comments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Consultee  | SHELAA Ref                                               | Response                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|----------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>here. The rationale noted in the methodology is the low unit yield was assigned because the site was smaller than the 0.16 hectares size threshold. However, this fails to account for a development that comprises multiple floors (the existing building is equivalent to 5-6 storey residential storeys in metres).</p> <p>The Site is located within the City Centre and the Primary Shopping Area. The SHELAA methodology assumes therefore that the redevelopment of the site for co-living uses would result in the loss of established shops and services. The site has therefore scored a 0 in this respect. However, it was confirmed in the methodology that the SHELAA assessment does not differentiate between ground and upper floor uses meaning the proposed ground floor active frontages included within the proposed development were never considered. Equally, the site does currently not contribute or have any function towards the City centre. The site has no active frontages and provides no shops or services</p> <p>The eastern portion of the site lies within the green wedge – much of which is to remain as open space and enhanced public realm with the Proposed Development. Nonetheless, the SHELAA methodology highlights this as a ‘capped constraint’, with the entire site being assigned an Amber rating accordingly.</p> <p>Our view is the Site should be scored more highly against the SHELAA criteria and is compliant with national and local policy on the basis it (i) faces minimal constraints that cannot otherwise be overcome by good design; and (ii) is considered available, suitable and achievable for residential development. This should therefore be reflected in the draft</p> | PSQ25-5332 | Land And Building Adjacent 9 Springfield Road Chelmsford | <p>Study that supports the achievability element of the SHELAA. The actual number of dwellings that could be allocated or developed will be considered within the Local Plan Review or as part of a planning application.</p> <p>As the site has no active frontages and provides no shops or services the assessment has been amended.</p> <p>The score and capped constraint are correct as part of the site lies within the Green Wedge. This is consistent with the Criteria Note.</p> <p>An explanation of Capped Constraints is provided in the Criteria Note.</p> <p>The Criteria Note and methodology have been approved following consultation. The Planning Advisory Service have been involved in this process.</p> |

| <p>LP by way of the Site's allocation (as noted in Appendix A of these Representations).</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                                                  |                                                                                                              | <p>The SHELAA helps the Council to gain an understanding of the potential developability of sites proposed for future development. It forms part of the evidence base for the preparation and review of the Local Plan and provides a guide to the potential strengths and weaknesses of sites.</p> <p>The SHELAA is not conducive to the outcome of planning applications.</p>                                                              |
| <p>Whilst the SHELAA has been further updated since our last (Regulation 18) submissions, (November 2024) we note that the two promoted Sites have again been only assessed individually, notwithstanding previous pre-application engagement with the Council by Wates on a combined Site proposal of the same scale and previous responses to the Local Plan, which demonstrate Wates's intended collaboration with Gladman to bring both sites forward as a single development, with resultant and significant scale benefits. This was set out in our previous Regulation 18 submissions by way of a Vision Document prepared by Mosaic, which is reproduced again at Appendix 1 of these submissions for reference. It is incumbent on the City Council to both evaluate Boreham as a sustainable growth option, as part of a further approach to the spatial strategy, and to assess the actual Site which is being promoted on Land to the East of Boreham in its proper development context, which is likely to produce an even higher assessment score than when the sites are only scored individually.</p> | <p>Wates Developments Limited<br/>PSQ25-5302</p> | <p>CFS52 (Wates) and CFS145 (Gladman)</p> <p>Briars Farm, Main Road, Boreham, Chelmsford, Essex, CM3 3AD</p> | <p>CFS52 (as amended by 21SHELAAamend4) and CFS145 (as amended by 21SHELAAamend55) have been assessed in accordance with the red line plans submitted with each SHELAA submission.</p> <p>Where the scores differ for both sites they have been checked. CFS145 has been reassessed to score 3 for Protected Natural Features as the TPOs are not within the site.</p> <p>CFS52 has a Neighbouring Site and whilst this can be mitigated</p> |

| Regulation 19 SHELAA Comments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Consultee | SHELAA Ref | Response                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>In our Reg 18 responses we also had some concerns with regard to the scoring methodology in the SHELAA (Incorporating March 2024 Amendments) in terms of the consistency of approach taken in the Site Performance Summaries between the two sites. For example, the western (Gladman) land parcel (SHELAA Reference CFS 145) achieved an overall RAG Rating of 'Green', with a total score of 111. In comparison, the eastern parcel, controlled by Wates (SHELAA Reference CFS 52) scored 107, notwithstanding that both Sites are essentially as sustainable as each other.</p> <p>This flaw in the assessment appears to have been repeated for the Site CFS 52 in the November 2024 update, with a continued RAG rating of Amber, notwithstanding that the Site only scored 4 points less than Site CFS 145. However, as previously identified in our Regulation 18 submissions, under the relevant assessment criteria, it is stated in the SHELAA that sites scoring 80% or over will be given a RAG Rating of 'Green', with sites falling into the 40% to 79% category being classified as 'Amber.' In this regard, the total score for suitability on Site CFS52 remains at 84% in the November 2024 update. Accordingly, we again reiterate that the Wates Site should be scored overall as a 'Green' Site in terms of suitability for development and not as an 'Amber' site.</p> <p>These representations confirm that Wates is working in collaboration with Gladman to bring forward a new strategic, residential led, mixed-use, development, with the capacity to deliver up to a 1,000 new market and affordable homes, a new primary school and other public benefits, on land east of Boreham, comprising 43.058 ha, which incorporates SHELAA Site references CFS 52 and CFS 145.</p> |           |            | <p>it was capping the Site Suitability Score to Amber (as per the Criteria Note). This has now been amended to reflect that the site can be mitigated, and the suitability outcome is now Green.</p> <p>Otherwise, CFS145 performs slightly better on Proximity to Key Services. These measures have been checked and are correct as CFS145 within 800m walking distance of a school, shop and GP surgery whilst CFS52 is within 2KM walking distance of these services.</p> |

| Regulation 19 SHELAA Comments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | Consultee                  | SHELAA Ref                                                                                      | Response                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------|-------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>As set out in detail within our Regulation 18 consultation response, it was recommended that site 19/SHELAA13 be re-scored to account for the proximity of the site to Chelmsford Garden Community. Although the total score of the Site has marginally improved with a total score of 92 rather than 89 as set out previously, it is not considered that our comments at Regulation 18 stage have been fully taken into account.</p> <p>The Site scored 0 out of 5 in respect of Public Transport, PROW and Cycling Connectivity and Proximity to key Services. As set out within our Regulation 18 response, this scoring does not take into account the delivery of Chelmsford Garden Community, which will substantially improve the connectivity of the Site in relation to all three of these categories. As shown on the CGC Movement and Access Parameter Plan, the proposed primary access travel route within the CGC is situated within 200 metres of the southern boundary of the Site, which will provide a new bus route. This bus route will in all likelihood be delivered prior to the commencement of development of the Site and therefore the score of the Site should be recategorised to 5 out of 5.</p> <p>In addition, it is proposed to provide a combined footpath/cycleway to the south of the Site as part of CGC which, as shown on figure 2 below, will directly connect to the Site.</p> <p>In respect of access to key services, the Site is also situated in very close proximity to the proposed local centre to be delivered within CGC Zone 2. It is also proposed that a new primary school and sports hub are delivered within Zone 2, in very close proximity to the Site. It is therefore considered that the Site should be recategorised to score 5 out of 5 under this criteria.</p> | Higgins Homes<br>PSQ25-365 | 19SHELAA13<br><br>Paddock Opposite Powers Farm, Cranham Road, Little Waltham, Chelmsford, Essex | <p>The SHELAA score has been re-assessed in relation to the nearest primary school in Little Waltham as 19SHELAA13 is more than 2km walking distance of facilities in Beaulieu.</p> <p>The site is scored accurately on walking distances from public transport and PROW/Cycle network currently.</p> <p>The score regarding minerals and waste is accurate currently and cannot consider a third-party strategy relating to another site.</p> <p>Higgins Homes should submit amendments through the website as advised in the Methodology if they wish to be linked to this SHELAA submission. This includes updating the developer/promoter/agent details.</p> |

| Regulation 19 SHELAA Comments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | Consultee                   | SHELAA Ref                                                                        | Response                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

| Lastly, the Site scored 0 out of 5 on the basis that it is situated within a Mineral Safeguarding Area. Whilst this is acknowledged, the Adopted DFD for CGC has a clear strategy on the reuse of minerals, which could also include the Site.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                             |                                                                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| <p>In this section, we respond to the SHELAA's assessment of the site with reference to the significant amount of development that is or will soon be taking place near to the site, and explain why, in this context, the site would be a sustainable location for a new residential development. Transport and Accessibility. The accompanying Transport Representation explains that the site can be accessed safely, and is well served by public transport, being only a 12 minute walk to Beaulieu Park Station and to Beaulieu Rydes bus stop. Giving this context, there is no reason to restrict the site's development on public transport or accessibility grounds.</p> <p>The accompanying Heritage Report acknowledges that the site is near to the Grade II listed Bulls Lodge Farmhouse, and reasonably near to the Grade 1 listed Newhall School. The Heritage Report defines five aspects of heritage significance, and concludes that the site's development would have no impact on these aspects. The Report also notes that the broader setting of Bulls Lodge Farmhouse has been altered significantly by the construction of the A131 bypass and sports pitches to the site's east. In that context, there is no reason to restrict the site's development on heritage grounds.</p> <p>The SHELAA4 explains that the "Site is wholly or partially within an identified Minerals Consultation Area..." The Essex Minerals Local Plan (adopted July 2014) explains that: "Mineral Consultation Areas (MCAs) apply to the safeguarded site itself and extend for a distance of 250 metres outwards from the site boundary of each of these safeguarded sites. MCAs ensure that, should mineral extraction have</p> | Sean Culleton<br>PSQ25-1587 | <p>CFS207</p> <p>Land to the East of Bulls Lodge Farm, Generals Lane, Boreham</p> | <p>The public transport assessment within the SHELAA has now been updated to reflect the fact that the site is now within 400m walking distance of a bus stop / train station.</p> <p>The SHELAA Criteria Note sets out a score based on proximity to heritage assets. It is not a detailed heritage assessment.</p> <p>The site lies in a Minerals and Waste Consultation Area therefore the assessment score reflects the Criteria Note.</p> <p>The land is assessed in relation to agricultural classification as set out in the Criteria Note. The assessment does not extend to planning permissions.</p> <p>The site is in excess of 400m to all services. The score is correct according to the Criteria Note methodology.</p> |

| Regulation 19 SHELAA Comments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | Consultee | SHELAA Ref | Response                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>to take place within and up to the site boundary, that development proposed on adjacent land beyond the site boundary would not prevent or compromise the possibility of mineral resources being extracted in future from land within the site itself..." Policy S8 explains that local planning authorities should consult the minerals planning authority in relation to specified developments, and "Proposals which would unnecessarily sterilise mineral resources or conflict with the effective workings of permitted minerals development, Preferred or Reserve Mineral Site allocation shall be opposed." However, the fact that land immediately to the east is now proposed for sports pitches, and land to the south and west is being landscaped and kept free from built development as part of the wider planning of East Chelmsford means that any opportunity to extract minerals from the area is now lost. The site we propose is too small to be extracted for minerals in isolation. For these reasons, there is no reason to exclude the site from development on this basis.</p> <p>Similar to the above, the fact that the site is surrounded by land that now cannot be farmed as a result of permissions relating to East Chelmsford means that the site itself cannot be farmed. It is too small to be farmed in isolation. Therefore, there is no reason to exclude the site from development on this basis.</p> <p>There is a good level of accessibility to a wide range of facilities locally already, and the proposed development of the Hawthorn and Park Farm Village Centres will improve that provision further</p> <p>Community facilities - the site assessment explains that "Development would put additional strain on but not result in the loss of on an existing/proposed school/healthcare facility/place of worship/sports, leisure, or recreation facility." It is not clear what existing facilities the</p> |           |            | <p>The site would yield more than 20 units and is therefore considered to add some strain on existing facilities as per the Criteria Note.</p> <p>The Criteria Note and Methodology have been approved following consultation. The Planning Advisory Service have been involved in this process.</p> <p>The SHELAA helps the Council to gain an understanding of the potential developability of sites proposed for future development. It forms part of the evidence base for the preparation and review of the Local Plan and provides a guide to the potential strengths and weaknesses of sites.</p> <p>The SHELAA is not conducive to the outcome of planning applications.</p> |

| Regulation 19 SHELAA Comments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | Consultee                         | SHELAA Ref                                                                              | Response                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

| development would put additional strain on, but Beaulieu Park already delivers good quality local community and the east of Chelmsford is subject to substantial additional development, with community facilities being delivered to support that development                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                                   |                                                                                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| <p>Land Classification: Currently the site is assessed as being either Grade 1, 2 or 3 agricultural land. However, the site has not been subject to any specific intrusive surveys; thus, the Grade and quality of the land is not known. Regional indicative Natural England mapping appears to roughly identify the site as being within an urban area, with neighbouring land indicatively classified as Grade 3. Grade 3 is split into 3a and 3b, with only 3a being classed as Best and Most Versatile by the NPPF. MGH believe that this element of the SHELAA methodology is fundamentally flawed as there is no distinction between Grade 3a and 3b land. Given the above information it is unfair to score the site a 0 as the grade of the land is unknown and could well not be best and most versatile land. Furthermore, it is noted that the SHELAA appraisal states that the site is historic landfill, thus this may affect its quality for agricultural purposes.</p> <p>Ground Conditions: The SHELAA continues to score the site a 0 as in the Council's assessment 90% or more of the site could need ground treatment. It is not uncommon for treatment to be required as part of delivering a development. This would likely be a constraint that can be overcome relatively easily. To score the site 0 is not a fair reflection of the level of the potential constraint. Furthermore, this score is not based on publicly available site-specific evidence.</p> <p>PRoW and Cycling Connectivity: This appears to be a new category with a site scoring a 5 if is located within 100m to either a PRoW or the cycle network. If a site does not meet this criteria, it is scored a 0. MGH contend that a further score of 3 should be introduced to this scoring to</p> | Martin Grant<br>Homes<br>PS25-150 | CFS226<br><br>Field Rear of Telephone Exchange, Church Street, Great Baddow, Chelmsford | <p>The land classification has been updated. The site remains greenfield while being located in an urbanised land classification.</p> <p>Mapping records show the site is entirely an area of historic landfill. According to the Criteria Note for SHELAA, this score is an accurate reflection of the ground conditions and likelihood of further treatment being required.</p> <p>The site is not within 100m of either a PROW or cycle network so has been scored correctly in accordance with the Criteria Note</p> <p>The Criteria Note and Methodology have been approved following consultation. The Planning Advisory Service have been involved in this process.</p> |

| Regulation 19 SHELAA Comments                                                                                                                                                                                                                                                                                                                                                                                                                                                    | Consultee                                          | SHELAA Ref                                                                               | Response                                                                                                                                                                                                                                                                                                                                                                       |

| capture those sites which are within 300m of the cycle network or PRow.                                                                                                                                                                                                                                                                                                                                                                                                          |                                                    |                                                                                          | <p>The SHELAA helps the Council to gain an understanding of the potential developability of sites proposed for future development. It forms part of the evidence base for the preparation and review of the Local Plan and provides a guide to the potential strengths and weaknesses of sites.</p> <p>The SHELAA is not conducive to the outcome of planning applications</p> |
| The scoring for the impact on listed buildings did not accurately reflect the site's limited impact. The council referenced Old Common Farmhouse (Grade II listed), nearly 500 meters from the site boundary, with views obstructed by fields, trees, and hedgerows. Given the negligible impact on this heritage asset, a more appropriate and favourable score should have been applied, but the council did not reconsider or amend it in the review.                         | Elteam Ltd / HGH<br>PSQ25-5466                     | 15SLAA34<br><br>Highwater Farm, Main Road, East Hanningfield, Chelmsford, Essex, CM3 8AH | The latest SHELAA score has been amended to recognise that there is a Grade II listed building nearby but not immediately adjacent to the site.                                                                                                                                                                                                                                |
| Conducted their own assessment with comparison outputs – see appendix 8. Arguing proximity to employment areas should score 5<br>‘There are several existing employment sites within and directly adjacent to the proposed development site. Notably, one of these is Whitbread Employment Centre, which is allocated in the extant local plan as an Existing Rural Employment Area (Policy S8). Alongside this existing employment allocation, the proposed masterplan includes | Strutt & Parker<br>Farms<br>PSQ25-5512/PSQ 25-5520 | 21SHELAA66<br><br>Field At Grid Reference 571030 215770, Hyde Hall                       | The site scores 5 in proximity to workplace. However, it scores 0 in a test of proximity to employment areas because the site takes up the entirety of the Whitbread employment                                                                                                                                                                                                |

| Regulation 19 SHELAA Comments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Consultee | SHELAA Ref                                    | Response                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>circa. 10,000sqm of town centre uses which will generate further employment opportunities for residents of the settlement.</p> <p>Arguing strategic road access is relevant (n/a) and should be awarded 5 as 'The site is directly adjacent to the A131. The proposed development will have direct access on to the A131 and the CNEB'</p> <p>Arguing non-designated heritage assets should be 3 as whilst the site includes some non-designated heritage assets, these have been carefully and sensitively incorporated into the proposed masterplan and will not be harmed by the development</p> <p>Arguing minerals should be 4 as A small part of the site appears to fall within the Minerals Safeguarding Area. The part of the site which does fall within the mineral designation is largely covered by trees and so would be unlikely to be developed. Technical work will be undertaken to examine if the extraction of these mineral deposits is feasible and viable. If appropriate, the minerals could be extracted from the affected part of the site.</p> <p>Arguing neighbouring constraints should be 4 as the amenity of neighbouring properties can be carefully and sensitively protected, with generous set backs accommodated within the masterplan.</p> <p>Arguing proximity to key services should be 4 because as demonstrated by the masterplan, the proposed development includes the provision of a school/healthcare facility/place of worship/sports, leisure, or recreation facility. The development will thereby have good access to services and facilities</p> |           | <p>Lane, Great Waltham, Chelmsford, Essex</p> | <p>allocation and is proposed for a Mixed Use development.</p> <p>The site has scored a 5 on connectivity to a strategic road.</p> <p>The scoring of heritage is not indicative of the quality of the proposal simply the proximity to a constraint.</p> <p>More than 5 hectares of the site is within a Minerals Safeguarding Area. Therefore, it scores 2 in accordance with the Criteria Note and requires further assessment to be undertaken in the form of a Minerals Resource Assessment.</p> <p>The site runs adjacent to the A131, in line with the Criteria Note is a neighbouring constraint that cannot be mitigated.</p> <p>The SHELAA assessment considers current access to services, not those that could be provided on the site.</p> |

|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>Arguing community facilities should be 5 because the proposed development includes the provision of a school/healthcare facility/place of worship/sports, leisure, or recreation facility. The development thereby has the potential to relieve strain on existing facilities locally. Arguing land condition should be 5 because the masterplan confirms that existing uses within the site will be retained as part of the development.</p> <p>In light of the above, the Site's score should increase to 118, and the overall RAG score changed to 'Green'. However, nonetheless, the Site already scores better than many proposed allocations.</p> |           |            | <p>As the yield of the site is greater than 20 units the site is considered to put some additional strain on existing facilities as per the Criteria Note.</p> <p>Ground conditions for this site scores 5 which is the maximum.</p> <p>The Criteria Note and Methodology have been approved following consultation. The Planning Advisory Service have been involved in this process.</p> <p>The SHELAA helps the Council to gain an understanding of the potential developability of sites proposed for future development. It forms part of the evidence base for the preparation and review of the Local Plan and provides a guide to the potential strengths and weaknesses of sites.</p> <p>The SHELAA is not conducive to the outcome of planning application.</p> |

| Regulation 19 SHELAA Comments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | Consultee                                     | SHELAA Ref                                                                       | Response                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

| <p>We continue to <b>OBJECT</b> to the rejection of CFS143 for residential allocation on the basis that its designation as part of the Green Wedge is unjustified here, and the SHELAA's negative score of the Site should therefore not apply; and, irrespective of the CFS143's designation as Green Wedge, it is not considered that this should outweigh the benefits of CFS143, particularly when one considers its lack of contribution to the purposes of the Green Wedge, as discussed further within this representation. We therefore maintain that CFS143 should be reassessed having regard to its actual contribution to the Green Wedge through a fine grain assessment of land within the Green Wedge.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | <p>Mr J Bolingbroke PSQ25-5524</p>            | <p>CFS143</p> <p>Land at Seven Ash Green</p>                                     | <p>Under current designation boundaries, this site is within the Green Wedge. This is a capped constraint within the SHELAA Criteria Note.</p>                                                                                                                                                                                                                                                                                                                                          |
| <p>It is important to recognise the size of the Site. Whilst the SHELAA notes the Site is adjacent to one or more designated / non-designated heritage assets, this does not undermine its overall suitability. There are listed buildings along the A131 and Longs Farmhouse is also listed (all Grade II). However, given the size of the Site, development can readily be accommodated without impinging on the setting of these.</p> <p>In respect of the Site being located within a Mineral Safeguarding Area, the extent of land submitted for the accommodation of a new settlement comprising 1,500 dwellings together with new supporting infrastructure is entirely outside of the Mineral Safeguarding Area.</p> <p>Turning to the loss of agricultural land, the Site is located within an area which Natural England's Agricultural Land Classification Map suggests is a mixture of Grade 2 and Grade 3. In this respect, it is similar to much of the greenfield land that surrounds Chelmsford. Whilst land to the south / south-west of the city is generally more Grade 3 and less Grade 2, this is designated as Green Belt and as such the NPPF does not allow for this to be allocated for development unless exceptional circumstances can be demonstrated.</p> | <p>Tritton Farming Partnership PSQ25-5679</p> | <p>21SHELAA65</p> <p>Land East Of Braintree Road, Little Waltham, Chelmsford</p> | <p>The heritage score is not a detailed assessment and simply scores on the proximity to heritage assets. The score within the SHELAA is correct.</p> <p>Over 5 hectares of the site submitted is within a mineral safeguarding area. This requires consultation with Essex County Council and the score in the SHELAA is correct.</p> <p>The site runs adjacent to the A131. This is considered under the Criteria Note for the SHELAA process as a constraint with no mitigation.</p> |

| Regulation 19 SHELAA Comments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | Consultee | SHELAA Ref | Response                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>It is unclear what neighbouring constraints the SHELAA refers to in the context of the Site, but there are no known constraints to the Site's development that cannot be suitably mitigated.</p> <p>In relation to criticisms of the Site's lack of proximity to certain services and facilities, these are considered misplaced, given that the proposed development is intended to comprise a new community that will be accompanied by the provision of new services and facilities to serve future residents. Furthermore, other existing / planned services and facilities in both Great Leighs to the north, as well as North Chelmsford to the south, are accessible from the Site.</p> <p>The following smaller sites are available for development and deliverable within the next 5 years:</p> <ul style="list-style-type: none"> <li>• Land North West of Longlands Farm, Boreham Road, Great Leighs, Chelmsford (Three sites assessed together as SHELAA Reference: CFS120);</li> <li>• Livery Stables, Fulbourne Farm, Boreham Road, Great Leighs, Chelmsford, CM3 1PR (SHELAA Reference: 17SLAA22); and</li> <li>• Land South East of 36 Castle Close and North West of 42 Catherines Close, Great Leighs (SHELAA Reference: CFS195).</li> </ul> |           |            | <p>The SHELAA assessment is based on existing facilities. It does not factor in planned services.</p> <p>The council assesses all site submissions on an ongoing basis with mind to the timescale of delivery among a host of other factors.</p> <p>The Criteria Note and Methodology have been approved following consultation. The Planning Advisory Service have been involved in this process.</p> <p>The SHELAA helps the Council to gain an understanding of the potential developability of sites proposed for future development. It forms part of the evidence base for the preparation and review of the Local Plan and provides a guide to the potential strengths and weaknesses of sites.</p> |

| Regulation 19 SHELAA Comments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | Consultee                                | SHELAA Ref                                                                                                                                                                                   | Response                                                                                                                                                                                                                                                                                                                                                                                                                  |

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |                                          |                                                                                                                                                                                              | The SHELAA is not conducive to the outcome of planning applications.                                                                                                                                                                                                                                                                                                                                                      |
| <p>Site CFS9 was considered Green in terms of suitability and achievability and Yellow for availability. The Yellow availability rating is inaccurate and incorrect. The Site is within our control, as developers and promoters, and representations were made to the Council in June 2024 confirming this was the case, in addition to the pre application enquiry and meeting that was carried out in 2024. We consider the rating for the site to be incorrect and should be Green.</p> <p>We consider that the assessment of the land parcels seem to ignore the large new public transport hub that will be at Beaulieu Park Station, making the site incredibly accessible and bolster it's already sustainable location status. The new station will include a bus station, taxi rank and large cycle store facilities, a footbridge is also being installed and will provide pedestrian access to the new transport hub. By December 2025 (later this year), the site will become incredibly sustainable, meeting the City Council's aspirations and the Government's aim for sustainable development.</p> | This Land Ltd<br>PSQ25-5759              | <p>CFS9</p> <p>Land South East of the Lion Inn, Main Road, Boreham, Chelmsford, Essex) and</p> <p>CFS59</p> <p>Field Adjacent Lionfield Cottages, Main Road, Boreham, Chelmsford, Essex)</p> | <p>This Land Ltd should submit amendments through the website as advised in the Methodology if they wish to be linked to these SHELAA submissions. This includes updating the developer/promoter details. The sites have been assessed based on the SHELAA submission form.</p> <p>The SHELAA assessment is of existing infrastructure and services. Neither site is within 400m walking distance of the new station.</p> |
| <p>The Site also scored 4 out of 5 in respect to access to the strategic road network.</p> <p>The Site only scores below 3 in respect of four of the criteria: land classification; flood risk constraints; neighbouring constraints; and proximity to key services. Each of these merit consideration, in turn, below.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Taylor Wimpey Strategic Land<br>PS25-318 | <p>Challenge scores for 21SHELAA41 and SHELAA methodology</p> <p>Land Adjacent</p>                                                                                                           | The land classification scoring differentiates land with agricultural value to those without. It is valuable within the SHELAA methodology to score land that would not result in loss of agricultural land above land which would. The score of 0 is                                                                                                                                                                     |

|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|---------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>In respect of land classification, we note that the Site has been scored 0, despite the SHELAA acknowledging that the Agricultural Land Classification could be anything from 1 (excellent) to 3 (good to moderate). Given the assessment is unable to differentiate between such a range, we question the value of considering this as part of the 'scoring' of sites.</p> <p>Regarding flood risk constraints, this was raised in the representations (dated June 2024) made on behalf of TWSL at the Preferred Options stage of the new Local Plan. At paragraph 4.33 of these representations, it is confirmed that the residential and other proposed commercial and community uses for the Site can all be accommodated within Flood Zone 1 – land least at risk of flooding from tidal or fluvial sources. The representation made in respect of the proposed development of the Site on this issue does not appear to have been given any consideration in the latest SHELAA's assessment, which we noted was updated in November 2024.</p> <p>Turning to the criterion on neighbouring constraints, the SHELAA appraisal suggests there are unspecified neighbouring constraints with no potential for mitigation. TWSL questioned what this related to in their response to consultation on the previous iteration of the new Local Plan. As previously explained in response to consultation on the previous iteration of the new Local Plan, the only identified constraint within the locality of the Site is the gas compressor installation c.600m to the west. A Landscape Designations Plan that was submitted as an appendix to these previous representations confirmed the Site falls outside the hazardous substance site safeguarding zone for this installation. Notwithstanding this, and to further confirm the lack of constraint this installation</p> |           | <p>Reeds Spring, Roxwell Road, Writtle, Chelmsford, Essex</p> | <p>correct in accordance with the Criteria Note produced for the SHELAA process.</p> <p>The scoring relating to flooding is accurate to the submission of this site. Part of the site is located within flood zones 2&amp;3. The SHELAA assessment is related to the constraints to the site independent from the detail of a proposal or application that may mitigate them.</p> <p>As detailed in the Criteria Note for the SHELAA process, the site has a constraint without possibility for mitigation if it runs adjacent to a major road. In this case the road is the A1060/Roxwell Road.</p> <p>The SHELAA assessment is of the existing infrastructure and services. It does not take into account outstanding permissions or planned services. This is set out in the Criteria Note published alongside each assessment.</p> |

|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>poses to development of the Site, TWSL undertook noise and air quality assessments in June 2024.</p> <p>These demonstrated that noise levels and odour generated by the gas compressor installation will not adversely impact on the health and safety of potential future residents should the Site be developed for housing. The Council was provided with these assessments as appendices to TWSL's previous Local Plan representations, but again it is far from clear that this evidence has been appropriately considered as part of the plan-making process.</p> <p>We are not aware of any other potential neighbouring constraints that could render the Site unsuitable for development. We note that the National Grid Electricity Transmission (NGET) consultation on the Norwich to Tilbury Powerline Project in 2022, presented 'consultation corridors'. These corridors were designed to provide stakeholders with an understanding of the potential paths for the overhead lines and associated infrastructure proposed to be provided. The 'consultation corridor' presented for the part of the proposed route to the west of Chelmsford suggested the possibility of some conflict between the proposed transmission route and the Site. However, it should be noted that, firstly, a number of stakeholders maintain strong objections to the proposals (including, we understand, Chelmsford City Council); and, perhaps more importantly vis-à-vis the Site and the DLP, the proposals have subsequently been refined and there is now absolutely no suggestion of any potential conflict between the Site and the potential transmission route.</p> <p>The SHELAA suggests the Site performs poorly in terms of proximity to key services, stating that it "is in excess of 2km walking distance of one or more services and the City Centre/South Woodham Ferrers Town</p> |           |            | <p>As detailed in the SHELAA Criteria Note, in assessing the Suitability of a site, if any part of the site certain criterion, the site's RAG rating will be capped at Red if the constraint is contrary with national policy, and Amber if the constraint goes against local policy. The purpose of this is to ensure that promoted sites that will not/cannot be compliant with national policy or Chelmsford's Local Plan policies are not identified as deliverable or developable sites. The explanation of the RAG rating further clarifies that a red rating is contrary to national policy and / or faces significant constraints or adverse impacts that cannot be mitigated. An amber rating score less well against the criteria or is contrary to local policy and faces moderate constraints that would require mitigation.</p> <p>The IIA assesses sites against the 14 IIA objectives so that the sustainability performance of the</p> |

|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>Centre". There are two points that we wish to raise in respect of this particular assessment.</p> <p>Firstly, the SHELAA does not appear to have taken appropriate account of next services and facilities that are being provided through new development on land immediately to the east of the Site, allocated in the current Development Plan. A masterplan has been approved by the Council on this adjacent site, which will provide the following in addition to c.800 new homes: a neighbourhood centre; primary school with co-located early years and childcare nursery; and sports pitches. Similarly, no account appears to have been taken of the potential for the Site itself to accommodate new services and facilities, as the Concept Masterplan demonstrates.</p> <p>Secondly, the SHELAA does not appear to have taken account of the findings of the Transport Sustainability and Access Appraisal previously provided to the Council alongside TWSL's representations at the Regulation 18 stage. As summarised at paragraph 4.36 of this appraisal, the Site is well-located to connect to the City. It is considered that the Site should have also been confirmed as being suitable for development through the SHELAA, and would have if information submitted as part of the plan-making process, at the previous consultation stage had been appropriately accounted for in the update to the SHELAA. When one considers all of the above it is clear that either a) the SHELAA needs to be updated and amended to reflect the above and the ability of mitigation measures to be delivered; or, if it is a case that mitigation measures are not considered within the SHELAA itself, b) a nuanced approach to the use of the SHELAA to inform plan-making must be undertaken.</p> |           |            | <p>sites can be compared directly to one another. It includes all the SHELAA sites but does not replicate the CCC SHELAA as it only considers the sustainability aspect of the assessment with the criteria /distance thresholds set out in Appendix M of the report. The purpose of this is to inform the development and assessment of alternative spatial strategy options.</p> <p>Where the sustainability aspects of the SHELAA relates to the IIA objectives it is set out in the Criteria Note. Responses to the <a href="#">Pre-Submission (Regulation 19) Integrated Impact Assessment – Feedback Report July 2025</a> have been published on the Local Plan Review website.</p> <p>The Criteria Note and Methodology have been approved following consultation. The Planning Advisory Service have been involved in this process.</p> <p>The SHELAA helps the Council to gain an understanding of the</p> |

| Regulation 19 SHELAA Comments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | Consultee | SHELAA Ref | Response                                                                                                                                                                                                                                                                                                           |

| <p>The SHELAA, this uses a scoring system, with sites rated out of 5 in respect of a number of suitability criteria. A total score is then attributed to each site based on this, and sites are rated as either:</p> <ul style="list-style-type: none"> <li>• red (is contrary to national policy and/or faces significant constraints or adverse impacts that cannot be mitigated);</li> <li>• orange (scores poorly against criteria, is contrary to local policy, and faces moderate constraints that would require mitigation);</li> <li>• yellow (scores well against criteria but has some characteristics contrary to local policy. Site faces minor constraints that would require mitigation. Site is considered developable); or</li> <li>• green (scores highly against criteria and demonstrates compliance with national and local policy. Site faces minimal constraints and is considered deliverable).</li> </ul> <p>The SHELAA Methodology states at paragraph 3.15 that the 'RAG' rating is "determined by their scores and compliance with national and local policy."</p> <p>Such an approach risks an overly simplistic approach, which seeks to quantify the suitability of sites against various objectives, and without considering whether certain objectives are more important than others. It certainly invites such an interpretation. Nevertheless, and notwithstanding the explanation of how the RAG ratings have been determined at paragraph 3.15 of the SHELAA methodology, there does not appear to be a direct relationship between the total overall score of the Site and its RAG rating. For example, site reference 21SHELAA41 scored a total of 100 by the SHELAA and was rated Amber. However, three sites (CFS102, CFS139, CFS181) achieved a lower total score, but were rated Yellow, i.e. the scoring suggested they were less deliverable, but the RAG rating suggested they were more deliverable.</p> |           |            | <p>potential developability of sites proposed for future development. It forms part of the evidence base for the preparation and review of the Local Plan and provides a guide to the potential strengths and weaknesses of sites.</p> <p>The SHELAA is not conducive to the outcome of planning applications.</p> |

| Regulation 19 SHELAA Comments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Consultee | SHELAA Ref | Response |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|------------|----------|
| <p>Furthermore, it is unclear what the relationship is between the SHELAA total score and / or RAG rating, and with the decision as to whether to propose allocation of the Site in the DLP. For example, taking 21SHELAA41, this site achieved a total score of 100, was rated Amber, and is not proposed to be allocated. Site CFS83's SHELAA score totalled 84, was also rated Amber, but is proposed for allocation in the DLP. On one hand, it would be hopelessly simplistic to select or reject sites for allocation based on a scoring system such as that set out in the SHELAA. However, it does beg the questions as to what the purpose of providing the total score is; and, if the SHELAA is not being used to inform the selection / rejection of sites, what is? In respect of this last question, one could expect to find the answer to this in the IIA.</p> <p>The Site was assessed as part of the DLP IIA. A 'traffic light' scoring of the Site is presented in the IIA against multiple SA objectives, presented in Appendix M of the IIA. We note that this appraisal identifies a number of positives against various sustainability objectives. Where negative impacts are identified, these are largely as per those identified in the SHELAA. As discussed earlier, these can be largely be mitigated and / or are not as significant as the SHELAA implied. However, despite the Site's appraisal within the IIA, the IAA does not attempt to explain why the Site is rejected and alternatives have been selected.</p> <p>Powered by Objective Online 4.2 - page 4. Whilst it does seek to explain why the Site in conjunction with multiple others, including potential employment land, is not selected, this is of course different to considering the merits of the Site as a potential relatively modest extension to an existing Strategic Growth Site.</p> |           |            |          |

| Regulation 19 SHELAA Comments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | Consultee                              | SHELAA Ref                                                                                        | Response                                                                                                                                                                                                                                     |

| It should be recognised that issues pertaining to the Environmental Report and compliance with the SEA Regulations are not necessarily fatal to the emerging new Local Plan's prospects. Case law (see Cogent) confirms that defects in the SEA process can be addressed, even at a very late stage in the process. However, an important aspect of Cogent was that in re-visiting the SEA at a very late stage in the plan-making process in that case, the Council kept an open mind and the exercise was not simply an ex post facto one that sought to confirm a decision already taken, i.e. if the additional SEA work in respect of the DLP suggests changes, such as additional allocations, are required to the DLP, it will be important to incorporate these. |                                        |                                                                                                   |                                                                                                                                                                                                                                              |
| SHELAA does not explain the site scores. "We have not addressed the specific scores that we disagree with, but wish to reserve our ability to revisit the scores and provide additional information, at the appropriate time, to help the Council undertake a more accurate assessment of the site's potential. By not commenting at this stage, it does not mean that we agree with the results of the Council's SHELAA                                                                                                                                                                                                                                                                                                                                                 | M Scott Properties (1380250)           | 17SLAA016<br><br>Land North West Of The Spread Eagle, Main Road, Margaretting, Ingatestone, Essex | The SHELAA documents include a Non-technical summary, Methodology, Criteria Note, as well as site performance summaries. | <p>been consistently underscored. For example, the 2024 SHELAA gives the site 0 for 'Public Transport' and 0 for 'Strategic Road Access' (SHELAA reference 21SHELAA11), despite being close to the Little Boyton employment area and sharing many characteristics.</p> <p>The Roxwell Quarry site has been scored 0 on 'Ground Contamination Constraints' and 4 on 'Timescale for Delivery'. Tarmac can confirm that the site is available immediately and as the site has been appropriately restored ground treatment is not expected to be required. As a result, the Little Boyton Hall Farm employment area generally scores lower on the Council's SHELAA criteria whilst the proposed Roxwell Quarry site scores notably higher.</p> <p>Table 1 (see p.8 – 10 of Heatons rep) shows the SHELAA scores of sites Little Boyton Hall Farm Rural Employment Area, a strategic growth allocation for c.6,000sqm of B2/B8 floorspace, and the proposed Roxwell Quarry Former Plant site employment allocation for c. 14,000sqm of B2/B8 floorspace. 2.2.9 The ratings in bold have been changed from the SHELAA (the original score is in brackets) to demonstrate where Little Boyton Hall Farm has been overscored, and where the proposed Roxwell site has been underscored.</p> <p>It is considered that Little Boyton Hall Farm should score 0 in 'Public Transport' as it is greater than 400m from a public transport route, whilst the Roxwell site should be scored higher on the following factors:</p> <p>Strategic Road Access – The site has similar access to the A1060 as Little Boyton which was scored 4; the Roxwell site should also be scored 4.</p> |           | <p>Chelmsford, Essex, CM1 4LT</p> <p>(compared to 17SLAA27)<br/>Little Boyton Hall Farm, Boyton Hall Lane, Roxwell, Chelmsford, CM1 4LN</p> | <p>score for this criterion has been adjusted to 4.</p> <p>The Criteria Note applies the same assessment for all sites for ground condition constraints. It is a desk top exercise that uses the same mapping layers to compare all sites. This indicates that ground treatment is expected to be required on the whole of 21SHELAA11 so the score is accurate.</p> <p>The timescale for delivery is based on information submitted on the SHELAA submission form provided. 21SHELAA11 was identified to be available in years 5-10. This has now been amended.</p> <p>Aerial show approximately 50% of the site in non-agricultural use so the assessment for 21SHELAA11 has been updated accordingly.</p> |

| Regulation 19 SHELAA Comments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | Consultee                                              | SHELAA Ref                                                          | Response                                                                                                                                            |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------|---------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>Ground Condition Constraints – Tarmac has restored and remediated the site and confirms that ground treatment is not expected to be required. The site should therefore score 5.</p> <p>Timescale for Deliverability – Tarmac confirms the site is available up to 5 years and therefore should score 5.</p> <p>Land Classification – the site is restored but is non-agricultural greenfield and therefore should score 3.</p> <p>These changes mean the Roxwell site scores significantly higher than the Little Boyton site taken forward as an allocation. Using the Council's SHELAA classification and methodology, the Roxwell site should score 95 which is almost as high as a potential Rural Employment Area could score. Therefore, given the suitability of the site and its deliverability, it must be included as a proposed employment allocation in the Local Plan alongside Little Boyton.</p> |                                                        |                                                                     |                                                                                                                                                     |
| <p>CCC's Strategic Housing and Economic Land Availability Assessment (SHELAA) was updated in October 2024 where the whole 17.99ha site for 309 dwellings (based on standard typologies) achieved a 'green' rating for suitability (SHELAA reference CFS158). Whilst CODE recognise the positive outcome of the SHELAA does not guarantee the site will be allocated within the development plan, CODE notes that to be justified (in accordance with the tests of soundness), a plan must consider and compare all reasonable alternatives. The higher growth options in Bicknacre (including those on land west of Barbrook Way, Bicknacre) do not appear to have been assessed in the Integrated Impact Assessment (IIA) or elsewhere in the local plan evidence</p>                                                                                                                                              | <p>Welbeck Strategic Land V Limited<br/>psq25-3091</p> | <p>CFS158</p> <p>Land South of St Annes, Priory Road, Bicknacre</p> | <p>The SHELAA assessment relates to the red line submitted with 22SHELAAamend4. This same site area was subject to IIA assessment (Appendix M).</p> |

| Regulation 19 SHELAA Comments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | Consultee                        | SHELAA Ref                                                            | Response                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| base. The vision documents submitted previously remain valid and Welbeck Land emphasise that the site can accommodate a higher quantum of development of between 160-250 with a greater amount of benefits realised as part of the 250 dwelling scheme.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |                                  |                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| <p>The document is dated 27 Nov 24 but a review of the council website shows that no assessment was made in 2024 as shown on document 'Strategic Housing and Employment Land Availability Assessment (Shelaa) Autumn 2024 – List of omitted sites. 2. The site was omitted as it was considered a duplicate of an earlier assessment – reference CFS158. I have found reference to this document dating back to 2021 but it is unclear of the exact date of assessment and again, unclear if any of the points were rereviewed in 2024.</p> <p>A number of errors have been found on the Shelaa and confirmed by the council as incorrect.</p> <ul style="list-style-type: none"> <li>• Proximity to workplace has been given a 5. It has been confirmed that this score was given based on the location on East Hanningfield Industrial Estate which is 2.8km away. This needs to be downgraded</li> <li>• Vehicle access has been given a 5 on the basis that the strip of land can be used. But this has not been thoroughly investigated or proven by the land promoter. This needs to be downgraded or at least investigated before it can be given a value.</li> <li>• Archaeological Assets has been given a 5 but has not been investigated.</li> <li>• Minerals and Waste Constraints have been given a 5 but there is a known Mineral Safeguarding Area within the field. The original Shelaa did not include this field for proposed development, as shown in document 'Final Shelaa Mapping 2021' on the Chelmsford Council website.</li> </ul> | Alex<br>Murphy<br>PSQ25-<br>6478 | CFS158<br><br>Land South<br>of St Annes,<br>Priory Road,<br>Bicknacre | <p>If a SHELAA site has been reviewed and included in the assessment i.e. not omitted, it will have a Site Summary. CFS158 has a published Site Summary and the Map with the same reference shows the extent of the site boundary. 21SHELAA75 and 21SHELAA94 were a duplicate of CFS158 so omitted from the 2024 assessment in accordance with a request from the site developer.</p> <p>The scoring of proximity to workplaces is measured by walking routes. The public routes enable a much shorter distance to be achieved but as this is measuring just above the 2KM the score has been amended from 5 – 0.</p> <p>Any legal constraints are determined using details provided within the SHELAA</p> |

| Regulation 19 SHELAA Comments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | Consultee | SHELAA Ref | Response                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| <ul style="list-style-type: none"> <li>• Flood risk constraints. This has been given a 5 but we have proof that the area floods and also, this score is not consistent with other Shelaas prepared in the same area. This should be investigated</li> <li>• Public transport has been given a 5 for being within 400m of a bus stop. This is a school bus stop only and cannot be considered public services. This needs to be downgraded.</li> </ul> <p>Since 2021 there have been significant changes to infrastructure and it is unclear if this has been reassessed in 2024.</p> <p>1. Since 2021, the local primary school has gone from 7 classes to 6 mixed year group classes, drastically reducing the number of available places at the school.</p> <p>2. The secondary school is only accessible via school bus. This is not free for everyone and is also almost full.</p> <p>3. Since 2021, the local doctors surgery has partnered with a surgery in SWF and is now taking many SWF patients. Considering the large development due to start in SWF it should be reviewed to determine if the local doctors can take any more patients</p> <p>4. It is hard to find any dentist within 30 minute drive that is taking on NHS patients.</p> <p>I would suggest in light of the proven errors that the council have agreed are incorrect and considering the changes to local facilities since the date the Shelaas was prepared, that this Shelaas be completely disregarded.</p> |           |            | <p>submission form.</p> <p>Supplementary information on this was published in the <a href="#">Appendix 4 of the Preferred Options Consultation Document You Said We Did Feedback Report February 2025</a> therefore the score remains unchanged.</p> <p>In accordance with the Criteria Note, the site has been assessed in relation to known archaeological sites, geological sites and monuments. The SHELAA is a desktop assessment, and no assets are shown on the mapping. The score is correct.</p> <p>An assessment has been undertaken on all SHELAA sites using updated Essex County Council minerals and waste GIS maps. CFS158 is not within a mineral safeguarding area or within any other constraints on this metric. The score of 5 is correct.</p> <p>The site has been assessed using up-to-date flood risk</p> |

| Regulation 19 SHELAA Comments                                                                                                                                                                                                                                                                                                                                                                                               | Consultee                  | SHELAA Ref                                                   | Response                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------|--------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                                                                                                                                                                                                                                                                                                                                                                                             |                            |                                                              | <p>maps. The site is not within flood zones 2 or 3 and therefore the score is correct. The site is a medium risk of surface water flooding; however, this is not a constraint that is assessed in SHELAA or considered a barrier to development as it can be managed through drainage design on-site.</p> <p>The score of public transport has been amended from 5 – 0 due to the proximity to a non-school bus stop being in excess of 400m walking distance.</p> <p>As stated in the SHELAA Criteria Note 2024, the assessment of the site in relation to key services is only with regards to proximity at this stage. Therefore, the score is up-to-date and correct.</p> |
| <p>There are many errors on the SHELAA document (Reference CFS158) in relation to accessibility, connectivity and infrastructure.</p> <p>Given that this document provides baseline data for an assessment regarding the viability of the site for development, it is very concerning that the infrastructure is being misrepresented in order to elevate its suitability, undermining the entire consultation process.</p> | Angela Heath<br>PSQ25-6480 | CFS158<br><br>Land South of St Annes, Priory Road, Bicknacre | The initial score of 5 for public transport for this site was an error. A school bus stop was mistaken for a public bus stop and has since been corrected.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>An example is that the rating for Public Transport which was originally a '5' and stated that site is with a 400m walking distance of one or more services. This has been challenged and now changed to a 0.</p> <p>I would also question the accuracy of many of the other rankings. It states that there are no legal issues relating to the site, which is not correct given the uncertainty of the ownership of the main access point and the ransom strip, leading to indemnity insurance being taken out. The HM Land Registry Official Copy of Register of Title details a number of restrictions and a covenant on the land, including a restriction on disposal until 2041 and rights of access to the Gas and Water companies. The SHELAA document Reference CFS158 rates the Land Ownership and Legal Constraints as a 5. Welbeck Strategic Land have not referenced this despite claiming to have carried out extensive due diligence relating to such matters, in addition to the proposed point of access at the top of Barbrook Way, which is also unclear with regards to ownership</p> <p>It is not possible to walk to Chelmsford or South Woodham Ferrers Centres, as the distance is too great and there isn't a pavement or safe walking route to enable this unless you ramble across the countryside. The rating of 3 is misleading. As referenced in Note 1, the pavements are narrow in places and there are no pavements in parts.</p> <p>The rating of 5 for the proximity to an employment allocation is also misleading as there are very limited opportunities with a 2km distance and given how large the developable site is, namely 17.99 hectares, where the measurement taken from? If you do not know the village and are guided by this data, it is skewed to give a very different reality to that of a local resident.</p> |           |            | <p>Any legal constraints are determined using details provided within the SHELAA submission form.</p> <p>Supplementary information on this was published in the <a href="#">Appendix 4 of the Preferred Options Consultation Document You Said We Did Feedback Report February 2025</a> therefore the score remains unchanged</p> <p>The proximity to key services score of 3 measures the walking distance to the nearest GP, convenience store and school or; SWF or Chelmsford town centres. The site is within 800m of a GP and shop and between 800m-2km of the nearest school. This score of 3 is correct.</p> <p>The scoring of proximity to workplaces is measured by walking routes. The public routes enable a much shorter distance to be achieved but as this is measuring just above the 2KM the score has been amended from 5 – 0.</p> |

| Regulation 19 SHELAA Comments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Consultee | SHELAA Ref | Response                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>The nearest Secondary School, The Sandon School, is approx 7.5km from my property by road. The WSP rating states that it is less than 1km, which is another inaccuracy.</p> <p>There is another inconsistency relating to Public Rights of Way (PROW) and Cycling Connectivity. The site to the West of Barbrook Way scored a '5' as it is within 100m walking distance to either a public right of way. Yet another site close by, SHELAA reference 15SLAA43 7 St Giles , Moor Hall Lane, scored a '0', when the sites are connected by the same road.</p> <p>I would urge a review of all the SHELAA and RAG ratings before any further decisions are made as there are multiple errors as stated above but other declarations are also questionable</p> <p>The Barbook site is within Flood Zone 1 and has therefore been given a rating of 5 on the SHELAA document, but this does factor in the flooding residents have experience and the surface water run-off onto a main road. The Environment Agency suggests that if there are drainage issues in Flood Zone 1 and the site is greater than one hectare, then a flood risk assessment needs to be made. The nearby proposed site of St Giles (SHELAA reference 15SLAA43) falls partially into Flood Zone 2, yet the distance between the two is not so great. I would ask that this is reassess given the drainage and surface-water issues I have referenced above</p> |           |            | <p>An Essex highways bridleway runs adjacent to the southeast corner of the site. This same bridleway does not pass adjacent to 15SLAA43.</p> <p>The errors stated in this representation have been either corrected or checked to ensure that the site is accurately assessed on SHELAA metrics. Remaining anomalies with the IIA will be reported at submission of the Local Plan.</p> <p>The site has been assessed using up-to-date flood risk maps. The site is not within flood zones 2 or 3 and therefore the score is correct. The site is a medium risk of surface water flooding; however, this is not a constraint that is assessed in SHELAA or considered a barrier to development as it can be managed through drainage design on site.</p> <p>The SHELAA helps the Council to gain an understanding of the</p> |

| Regulation 19 SHELAA Comments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Consultee                         | SHELAA Ref                                                   | Response                                                                                                                                                                                                                                                                                                                                                                                                            |

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                   |                                                              | potential developability of sites proposed for future development. It forms part of the evidence base for the preparation and review of the Local Plan and provides a guide to the potential strengths and weaknesses of sites. The SHELAA is not conducive to the outcome of planning applications.                                                                                                                |
| <p>The SHELAA reference CFS158 is incorrect and should be reverted to Amber due to several inconsistencies.</p> <p>Firstly, there are discrepancies in the suitability criteria, particularly regarding the PROW (Public Right of Way) to the workplace. When compared to the site at St Giles, Bicknacre, there is a clear inconsistency—the St Giles SHELAA assigns a score of 0, whereas the Lane South of St Anne's Priory Road, Bicknacre is rated 5, despite the Lane West of Barbrook being even farther from any workplace than St Giles.</p> | Christine Brannigan<br>PSQ25-2633 | CFS158<br><br>Land South of St Annes, Priory Road, Bicknacre | <p>The scoring of proximity to workplaces is measured by walking routes. The public routes enable a much shorter distance to be achieved but as this is measuring just above the 2KM the score has been amended from 5 – 0.</p> <p>The PROW score has been checked and is correct. An Essex Highways bridleway runs along the southeast boundary of the site which does not extend to the St Giles SHELAA site.</p> |
| This is an opportunistic proposal that the SHELAA reference CF158 is littered with discrepancies.                                                                                                                                                                                                                                                                                                                                                                                                                                                     | Eden Black                        | CFS158                                                       | See responses above that relate to representations that have                                                                                                                                                                                                                                                                                                                                                        |

| SHELAA CRS158 Incorrect. Legal constraint. Why has the land owners legal team felt the need to take out an indemnity for the sliver of land? Public transport. No bus within 400m. Proximity to Key Service. There are no paths to walk on to get to South Woodham Ferrers. | Jane Brighton<br>PSQ25-6427 | CFS158<br><br>Land South of St Annes, Priory Road, Bicknacre | <p>Any legal constraints are determined using details provided within the SHELAA submission form. Supplementary information on this was published in the <a href="#">Appendix 4 of the Preferred Options Consultation Document You Said We Did Feedback Report February 2025</a> therefore the score remains unchanged</p> <p>The initial score of 5 for public transport for this site was an error. A school bus stop was mistaken for a public bus stop and has since been corrected.</p> <p>Proximity to key services refers to GP surgeries, convenience stores and schools or; distance to South Woodham Ferrers/ Chelmsford city/town centres. The site has been accurately scored for this metric.</p> |
| The East Hanningfield employment area which I have been assured is used by the planning office as the employment allocation is in fact                                                                                                                                      | Mandy Cogan                 | CFS158                                                       | The scoring of proximity to workplaces is measured by                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

| Regulation 19 SHELAA Comments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | Consultee  | SHELAA Ref                                     | Response                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>approximately 2.8 km away from the site. It is therefore 0.8 km in excess of the 2 km walking distance that is required to receive a score of three or five on the Shellaa.</p> <p>15SLAA43 has received the correct score of zero for this criteria but is in fact slightly nearer than the full mentioned site. the SHELAA, reference number CFS158 is factually incorrect. Suitability Criteria: Proximity to the Workplace - this site is not within a 2km walking distance of an employment allocation. By the time that any potential residents on that site walk to the village centre, they will have been walking for more than 2km. The garden centre is a much further walk and again only provides limited employment opportunities. These workplaces do not warrant a score of 5!</p> <p>When compared to SHELAA site reference 15SLAA43, that score is zero, but it is in a similar location to the site CFS158.</p> <p>Public Transport - The planning office have conceded that that score is incorrect as there is not a bus stop at the bottom of Barbrook way we trust that this has been amended on the Shellaa.</p> <p>PROW and Cycling Connectivity - The score of five is incorrect for this criteria. There is no cycle network in the village. Again compared to SHELAA 15SLAA43 the numbers do not correlate as they gained a score of zero.</p> <p>Vehicle Access - a route does not exist enabling vehicle access into the site. The access is across a ransom strip of land and it is owned by someone other than the owner of the fields.</p> <p>Flood Risk Constraints - whilst the site is wholly within Flood Zone 1, it suffers from significant surface water flooding both in and around the</p> | PSQ25-6071 | Land South of St Annes, Priory Road, Bicknacre | <p>walking routes. The public routes enable a much shorter distance to be achieved but as this is measuring just above the 2KM the score has been amended from 5 – 0.</p> <p>The initial score of 5 for public transport for this site was an error. A school bus stop was mistaken for a public bus stop and has since been corrected.</p> <p>The PROW and cycle connectivity score is correct. An Essex Highways bridleway runs along the southeast boundary to the site but does not extend to 15SLAA43.</p> <p>Any legal constraints are determined using details provided within the SHELAA submission form. Supplementary information on this was published in the <a href="#">Appendix 4 of the Preferred Options Consultation Document You Said We Did Feedback Report February 2025</a> therefore the score remains unchanged</p> |

| Regulation 19 SHELAA Comments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | Consultee | SHELAA Ref | Response                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>fields. The flooding comes from the impact of water displacement from the Sandon Brook as one of it's tributaries runs through the fields. Again the scoring does no match with site 15SLAA43 as they are in a similar area and the forementioned site is shown to be partially in flood zone two with a score of 4. This criterion does not warrant a score of 5!</p> <p>The suitability criteria listed as archaeological assets should not have a score of 5 because the assets are unknown as no assessments or surveys have been undertaken.</p> <p>Availability Criteria:<br/> Land Ownership - this land is not solely owned by a willing owner. As stated above, a different person owns the ransom strip where the site access is to be situated. Having looked at the register of title, title number EX461986. It is clear that there is a restriction on the sale of the land and also charges concerned with a water pipe and British gas access. This criterion does not warrant a score of 5!</p> <p>Land Condition - the land is not vacant as sheep are being grazed on it. The buildings on one of the other fields are currently being rented out. This criterion does not warrant a score of 5!</p> <p>Legal Constraints - this site does face known legal issues as the ransom strip is owned by someone else. Please refer to the bullet point of the land ownership. This criterion does not warrant a score of 5!</p> |           |            | <p>The site has been assessed using up-to-date flood risk maps. The site is not within flood zones 2 or 3 and therefore the score is correct. The site is a medium risk of surface water flooding; however, this is not a constraint that is assessed in SHELAA or considered a barrier to development as it can be managed through drainage design on site.</p> <p>In accordance with the 2024 SHELAA Criteria Note, the site has been assessed in relation to known archaeological sites, geological sites and monuments. The site has been scored in relation to this assessment. SHELAA is a desktop assessment.</p> <p>The condition of the land has been assessed in accordance with the 2024 SHELAA Criteria Note. The grazing of sheep or rental situation are not matters to be considered within the</p> |
