Matter 3, Issue 2 – Nick Regan - PSQ25-1247/9

I totally and utterly reject any application to build on **GREEN BELT** land, as by the very nature of the title, it is **PROTECTED** under statute **NOT** to be built on **EVER**!!

So if you want to build new housing why not build on existing **BROWN FIELD** sites first, or start up **new communities** in other areas that maybe are *green belt* but are AWAY from existing communities, who have procured their properties for the very reason they were protected by **GREEN BELT LEGISLATION!!**

And now you are making a mockery out of and laws of the land about the land itself!!
