1 Business Plan aims and objectives update

| Objective for 2022/23 | Linked to | Action and measure |
|--|--|---|
| | business | |
| | aim | |
| 1: Monitor the effects of the business recovery and adjust the business case to ensure service provision meets demand. Gauge the potential long term operational and financial impact of the change of working patterns / environments and parking requirements following the easing of the lockdown measures. | Support the core principles of TMA 2004 Achieve an overall financial account to operate parking enforcement and the TRO function at zero deficit Maintain a contingency reserve | The number of PCNs issued, and the amount of PCN, Pay & Display and resident parking income is being compared to the actual outturn from 2019/20 (Pre-Covid), the outturn from 2021/22 and the current financial year. The level of recovery is being gauged against the Annual Business Plan 2022/23 which contains estimates based on the assumed recovery and performance, based on pre-Covid levels. |
| 2: Continued focus on performance and sickness absence management at a local level to ensure best use of staff resource and improve attendance levels and subsequently maintain expected levels of patrol coverage. Provide a professional service, ensuring full compliance with TMA 2004 and high levels of customer service. Key Performance Indicators: 75% of PCNs issued are successfully recovered CEOs to achieve an average performance score of 33 PCNs which have been cancelled due to an CEO error, not to exceed 0.8% | Support the core principles of TMA 2004 Achieve an overall financial account to operate parking enforcement and the TRO function at zero deficit Maintain a contingency reserve | Monthly 1 to1 meetings are taking place between the Area Team Leaders and the Civil Enforcement Officers. These meetings provide an opportunity to discuss individual performance and how the performance is contributing to the overall Business Plan. In addition to these meetings, six monthly operational updates are provided by the Parking Partnership Manager. These inform staff of the progress against the agreed Business Plan. Monthly area performance updates are provided to each area depot on a monthly basis. CEOs are not set any targets regarding the amount of PCNs they should issue. The main focus of this work is to ensure that staff make best use of their time and maintain a sufficient level of patrol coverage throughout the many areas that require parking enforcement. The amount of PCNs issued across the Partnership is currently only 0.2% down |

| | | against the pre-Covid 2019-20 performance, 7.5% up on the 2021/22 performance and currently 7.4% up against the estimated figure in the Business Plan. The current level of performance is likely to achieve the overall outturn position as set out in the 2022/23 Business Plan |
|--|--|---|
| 3: Ensure CEO patrol rotas are continually reviewed to ensure best use of staff time in key areas. | Support the core principles of TMA 2004 | Area Team Leaders are modifying staff rotas to meet the needs of changing parking habits. The focus of the team is to ensure |

2 Overall Partnership PCN comparison

The income received from Penalty Charge Notices (PCNs) equates to 65% of the total income received. This income is not guaranteed and is dependent on the number of motorists who contravene a parking restriction and are noted by a patrolling enforcement officer.

A reduction in this level of income will have a detrimental effect on the overall account and it is therefore important to monitor this effect. The amount of PCNs issued compared to the previous years of the operation is a good benchmark to determine how the operation is performing and recovering post Covid 19. The following table provides the current PCN issue rate compared to the operation in 2019/20 (pre-covid), the 2021/22 outturn and the Business Plan estimate.

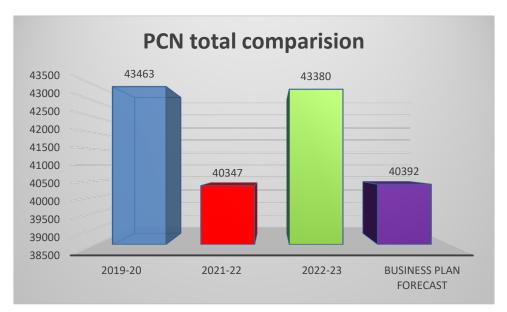

This relates to the period April 2022 to February 2023 for PCNs issued across all areas in the Parking Partnership.

Overall Partnership PCN issue comparison figure for period April 2022 to February 2023

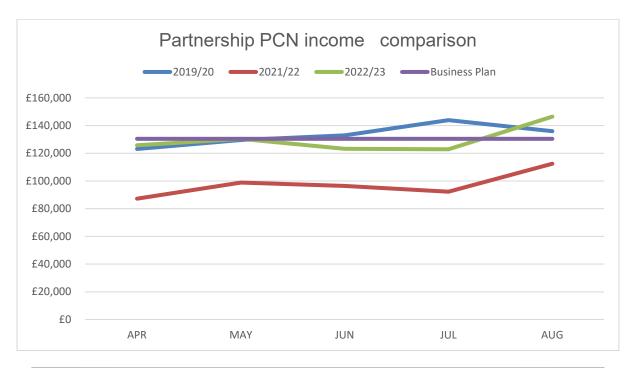

The amount of PCNs issued across the Partnership is currently only 0.2% down against the pre-Covid 2019-20 performance, 7.5% up on the 2021/22 performance and currently 7.4% up against the estimated figure in the Business Plan.

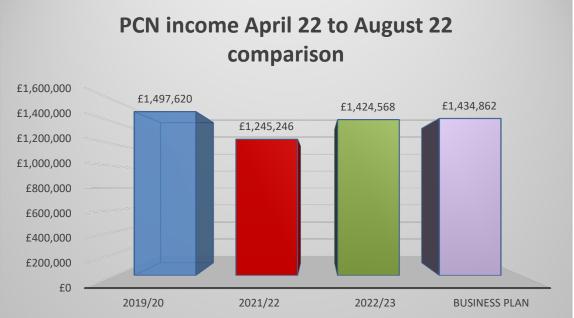

3 Income Statistics

The following tables provide the current levels of income compared to the operation in 2019/20 (pre-covid), the 2021/22 outturn and the Business Plan estimate for 2022/23

This relates to the period April 2022 to August 2022 for all partnership areas

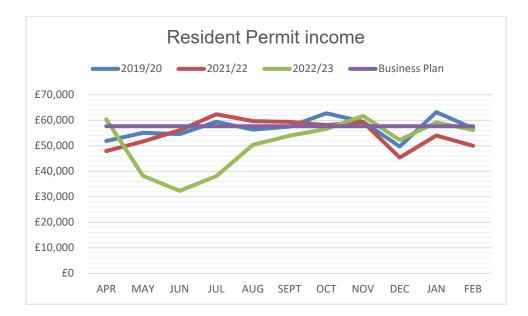

Overall Partnership monthly PCN income comparison for period April 2022 to February 2023

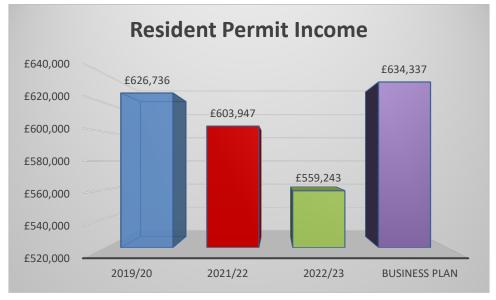

The overall PCN income for this financial year has reduced by 4.8% against the 2019-20 pre Covid income levels and has increased by 14.4% compared to 2021/22 and is currently 0.7% down against the estimated figure in the Business Plan for 2022/23.

Overall Partnership monthly resident permit income comparison for period April 2022 to February 2023

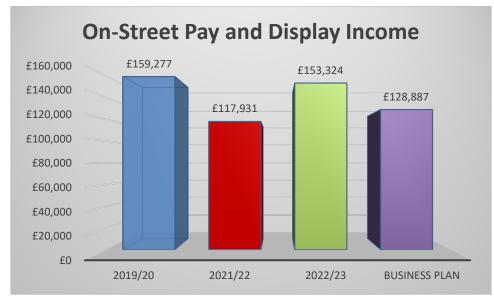

During the national lockdown from March to June 2020, the Government provided guidance on how to accommodate the increase in vehicles in residential areas due to the requirement to isolate and stay at home. Parking enforcement was not considered a key service and enforcement officers were also instructed to stay at home during this period. Resident permit areas were not enforced during this period and it was generally accepted that it was necessary for non-permit holders to park in the residential zones. The Parking Partnerships acknowledged that resident permit holders who had purchased a resident permit were being disadvantaged during this period and it was agreed that the permit holders would be given a threemonth extension to the expiry date of the permit to compensate for this period. The 3-month extension was applied in May 2022 which accounts for a decline in income during May, June and July and the subsequent return to normal levels in August.

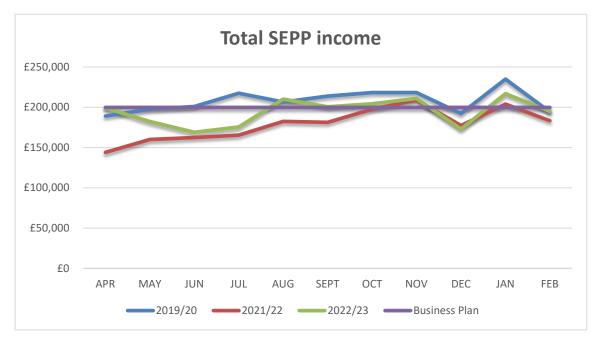

Overall Partnership monthly Pay and display income comparison for period April 2022 to February 2023

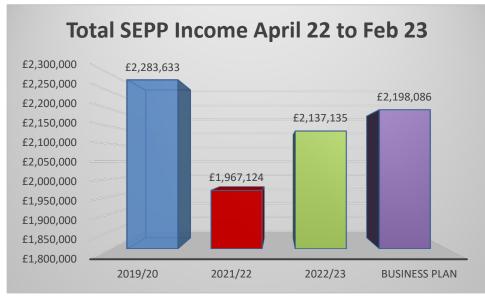

The overall pay and display income has started to return to pre Covid levels, currently slightly down by 3.7% against the 2019-20 performance. The amount has increased by 30% compared to the previous year and is currently up by 19% compared the estimate in the Business Plan.

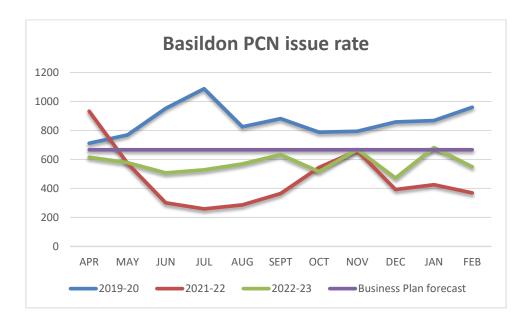

The total overall income for the first 5 months of the financial year has reduced by 6.4% against the 2019-20 pre-Covid levels and has increased by 8.6% compared to the 2021/22 performance and is currently 2.7% down against the estimated figure in the Business Plan for 2022/23.

The overall recovery rate for PCNs paid is currently 75% of the PCN issued. The expected outturn for the Partnership is in the region of 75% to 77%. In 2021/22 the outturn recovery rate was 75%. Considering that a high volume of PCNs issued are still within the initial recovery stage, the current recovery level is very good.

The rate of PCN cancellation (10%) remains within the expected level. The outturn position for cancellation rates in 2021/22 was 17%
