| Slips and trips           | Excited children running or pushing on stairs or in corridors may slip or fall.  | Children warned in safety briefing not to run and move around the museum in a calm and orderly fashion.  Teachers, TA and education team must always supervise the children to ensure this is controlled.   | 2   | 2     | 4   | L       |                          |
| Manual handling           | Resources used in some of the teaching sessions are heavy and need to be moved from storage cupboards to the education room, potential injuries if lifted incorrectly. | Museum staff receive manual handling training Certain items need to be lifted, pushed, pulled or carried by two people where possible. Lighten and even the load to prevent injury.   | 2   | 1     | 2   | L       | Updated 2-3 years        |
| Temperature /<br>humidity | Too hot or cold resulting in heat exhaustion or illness.   | Education room is temperature controlled. Children may drink water during the teaching session if required.   | 2   | 1     | 2   | L       |                          |
| Fire / explosion          | Fire within the building resulting in asphyxiation and/or burns.   | Standard evacuation procedure to be followed in the event of a fire. The fire evacuation procedure is updated regularly. Children and teachers informed of evacuation procedure in safety briefing at the start of the session. Register is taken by teacher on arrival.  Operations manager or Technician test the fire alarm system weekly. Daily checks are carried out on fire escapes and fire doors. Weekly checks carried out on fire safety equipment. Regular practice fire evacuations are carried out. Building is risk assessed every 2-3 years by an external assessor. All portable electrical items are PAT tested annually by a competent contractor or technician.  Fixed wiring certification is updated every 5 years and is available on request. All gas appliances are checked annually by a registered gas safe engineer. No compressed air or gas are present on site. Employees are fire warden trained. | 3   | 1     | 3   | L       | Reviewed regularly       |

| Sharp objects | Objects used in session may have sharp edges and cause minor injuries e.g. pieces of shrapnel, stirrup pump | Museum staff to demonstrate correct handling and use of objects and supervise children throughout the session. In the event of injury refer to first aider. There is always a qualified first aider on duty in the museum. First aiders are identified on signage at the front desk.  A pattern of repeat accidents will create a review of the activity being carried out to prevent injury. | 2 | 1 | 2 | L |  |  |

| Chemicals               | Original gas masks may contain hazardous chemicals.  | Children are not allowed to handle these objects; they are only for demonstration by museum staff. No one is to put them over face.  | 3     | 1           | 3       | L                        |                          |
| Psychosocial Issues     | Children may find wearing replica gas masks distressing, could cause panic attacks.  | Wearing of gas masks is completely optional. If children feel uncomfortable wearing them, they are to remove them immediately.   | 2     | 1           | 2       | L                        |                          |
| Violence and aggression | Danger from other museum visitors.  Children wandering off into park, risk of assault or abduction, risk from dogs – bites or fouling. | The museum is open to the public during school sessions with museum assistants on duty at the reception desk, and patrolling through the museum; with CCTV access on the front desk (recorded at the Council CCTV Control Room). Museum staff are all DBS certified.  The museum is connected to Townlink radio via handsets. The purpose is to communicate with CCTV very quickly.  Staff have access to a panic alarm on the front desk which is connected directly to Colt Security via Essex Police. | 4     | 1           | 4       | L                        |                          |
