Essex Standard Pavement Licence Conditions

Section 3 of the Business and Planning Act 2020 authorises your Council to grant a person permission only if the authority considers that, taking into account any conditions subject to which it proposes to grant the licence, nothing done by the licence holder pursuant to the licence would have an affect specified in subsection 6.

It is important to note the grant of a pavement licence only permits the placing of furniture on the highway. A pavement licence does not negate the need to obtain approvals under other regulatory frameworks, such as the need for a licence to sell alcohol, and the need to comply with registration requirements for food businesses.

Applicants will still need to apply for permission to carry out activities not licensable under the Pavement Licensing regime, under the Highways Act 1980. Examples of such activities include the placement of furniture that is not removeable, such as bolted to the ground or cannot be reasonably removed, or placement of furniture other than tables, chairs, or stools on the highway.

1. The licensed area shall be used only for the purpose described in the licence and for no other activity.
2. The boundary of the licensed area must be clearly marked and enclosed with a stable barrier system, or as otherwise agreed in writing with the Licensing Authority.
3. A minimum clear width of 2.0 metres (or more if required by the Licensing Authority) must be maintained between the licensed area and the kerb to allow safe pedestrian passage.
4. Furniture and barriers must remain within the licensed area, be kept in good repair, and not cause obstruction or danger.
5. All structures, furniture, and items must comply with fire, health, and safety requirements.
6. The facility is for seated customers only; tables may not be rearranged by patrons to create larger group settings.
7. The licensee must supervise the licensed area at all times to prevent nuisance, obstruction, or antisocial behaviour.
8. Permission to use the highway does not grant exclusive rights. The council may suspend or revoke the licence at any time for works, events, safety, or other reasonable cause, without refund.
9. The licensee shall indemnify the council against all claims, costs, or damages arising from use of the highway and must maintain public liability insurance of at least £10 million (or higher if required).
10. The licence is not transferable. A change of ownership or operator requires a new application.
11. All items (glasses, crockery, cutlery, ashtrays, etc.) must be cleared when not in use. Smoking debris must be cleared promptly.
12. The licensed area must be kept free of litter, waste, and spillages at all times. A full clean, including wash-down, must take place daily. Waste must not be placed in public litter bins.
13. Music or sound must not be broadcast into the street unless authorised by a premises licence and subject to noise control legislation.
14. Alcohol, where permitted, must only be served in plastic or toughened glassware unless otherwise agreed in writing with the Licensing Authority.
15. Smoking may only take place in compliance with the Health Act 2006 and any council policy.
16. Portable heaters, if used, must meet safety standards, be located entirely within the licensed area, and not form part of any enclosure.

17. Enclosures and barriers must be designed to assist people with impaired vision and must not create trip hazards.
18. All furniture and items must be portable and capable of immediate removal in an emergency. Staff must be available and trained to remove items if directed.
19. No alterations, excavations, or damage may be made to the highway. Any damage caused must be made good at the licensee's expense.
20. The highway remains a public right of way at all times.
21. A copy of the licence and approved layout plan must be prominently displayed at the premises for inspection by authorised officers.
22. No A-boards or other street furniture or obstructions are permitted, except as authorised by this licence and in line with Council policies or local restrictions.
23. All ashtrays must be non-breakable, heat-resistant, and safe for extinguishing cigarettes. Glass or brittle materials are not permitted.
24. The council may vary these conditions at any time.
25. If a condition is breached, the council may serve a compliance notice, remove furniture, suspend or revoke the licence, or take other enforcement action.
