

Chelmsford City Council Full Council

22 September 2021

Community Governance Review

Report by:

Chair of Governance Committee

Officer Contact:

Legal & Democratic Services Manager, Lorraine Browne, Legal & Democratic Services Manager, Iorraine.browne@chelmsford.gov.uk, 01245-606560

Purpose

The purpose of this report is to present the draft recommendations following the initial consultation for the Community Governance Review, for discussion and approval for the second and final stage of public consultation.

Recommendations

- 1. That the outcome of the initial formal consultation be noted.
- 2. That Council approves the Draft Recommendations of the Community Governance Review for the second and final stage of public consultation.

1. Introduction

- 1.1. Members will recall that Council agreed to undertake a Community Governance Review (CGR), with the publication of the Terms of Reference and formal consultation commencing in January 2021 in accordance with the Local Government and Public Involvement In Health Act 2007.
- 1.2. The Terms of Reference for the CGR were broad, allowing for a review of all aspects of community governance within the City Council area. This includes, for example, the creation or naming of a parish, the establishment of a separate parish from an existing parish, alteration of parish boundaries, abolition or dissolution of a parish, change to parish electoral arrangements or parish grouping.
- 1.3. The overall timescales for the CGR are as follows (as amended by Council in July 2021):
 - 1.3.1. July to 25 September 2020 Informal consultation.
 - 1.3.2. January 2021 Publication of Terms of Reference, signifying the formal start of the CGR. A copy of the Terms of Reference are included at **Annex 1**.
 - 1.3.3. January to 18 March 2021 Initial formal consultation, during which representations were invited on the breadth of community governance arrangements and opportunities from across the entire City Council area.
 - 1.3.4. 19 March to June 2021 officer-led review of responses and development of Draft Recommendations.
 - 1.3.5. June to July 2021 Consideration of responses and preparation of draft recommendations (including any recommendations to the Local Government Boundary Commission for England) by Connectivity and Local Democracy Working Group
 - 1.3.6. September 2021 Governance Committee consideration and Full Council approval of draft recommendations
 - 1.3.7. September to November 2021 Further public consultation on Draft Recommendations.
 - 1.3.8. Winter 2021/22 Formulation of final recommendations by Connectivity and Local Democracy Working Group and Governance Committee.
 - 1.3.9. February 2022 Final Recommendations to be considered by Full Council.
 - 1.3.10. Spring 2022 once finalised, there will be a period of time before the Community Governance Order is made, allowing time for unforeseen consequences to be identified.
- 1.4. Once approved, the final outcome of the CGR will be implemented ahead of the 2023 local elections. This means that new parish council areas (if any), changes to parish council areas (if any), changes in the number of parish councillors (if any), and any resulting changes in council tax arrangements for households all change at that time. Ahead of those changes, a review of polling districts and polling places will be carried out, to take account of changes to electoral areas.

2. Decision-making process and statutory criteria

2.1. The Local Government and Public Involvement in Health Act 2007 sets out two statutory criteria. Chelmsford City Council must, by law, have regard to the need to secure that community governance within the area under review:

- (1) reflects the identities and interests of the community in that area, and
- (2) is effective and convenient.
- 2.2. In addition, the Council must take into account the 2010 government guidance (published by DCLG at https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/8312/1527635.pdf). The Council must also have due regard for responses submitted during the consultations and be open and transparent such that local stakeholders are made aware of the outcome of the decisions and the reasons behind those decisions.
- 2.3. Whilst Members are advised to read the DCLG guidance in its entirety, some key extracts are included below. Essentially, the guidance supports the 2007 Act requiring that local people are consulted, and that their views are taken into account during the CGR. Whilst City Councillors are the decision-makers, those decisions must be based on evidence submitted through the CGR consultation process. Numbers refer to paragraph numbers in the DCLG guidance; emphasis added for clarity:
 - 7. The guidance supports and helps to implement key aspects of the 2006 white paper. The 2007 Act requires that local people are consulted during a community governance review, that representations received in connection with the review are taken into account and that steps are taken to notify them of the outcomes of such reviews including any decisions.
 - 58. It is clear that how people perceive where they live their neighbourhoods is significant in considering the identities and interests of local communities and depends on a range of circumstances, often best defined by local residents. Some of the factors which help define neighbourhoods are the geography of an area, the make-up of the local community, sense of identity, and whether people live in a rural, suburban, or urban area.
 - 59. Parishes in many cases may be able to meet the concept of neighbourhoods in an area. Parishes should reflect distinctive and recognisable communities of interest, with their own sense of identity. Like neighbourhoods, **the feeling of local community and the wishes of local inhabitants are the primary considerations**.
 - 95. The recommendations must take account of any representations received and should be supported by evidence which demonstrates that the recommended community governance arrangements would meet the criteria set out in the 2007 Act. Where a principal council has conducted a review following the receipt of a petition, it will remain open to the council to make a recommendation which is different to the recommendation the petitioners wished the review to make. This will particularly be the case where the recommendation is not in the interests of the wider local community, such as where giving effect to it would be likely to damage community relations by dividing communities along ethnic, religious or cultural lines.
 - 97. The aim of the 2007 Act is to open up a wider choice of governance to communities at the most local level. However, the Government considers that there is sufficient flexibility for principal councils not to feel 'forced' to recommend that the matters included in every petition must be implemented.

- 2.4. It is important to note that it is Chelmsford City Council who decide community governance arrangements. Therefore, where difficult decisions must be made, consideration must be given to opposing and differing views in light of legislation, best practice, and official guidance. Best practice guidance includes, for example, not having 'island' or 'donut' parishes or parish wards which are wholly surrounded by one other parish or parish ward: and using identifiable markers for boundaries (such as rivers, railways, roads and the edges of properties).
- 2.5. Essentially proposals for change should first identify the identities and interests of the communities, and then consider the governance arrangements for that area.
- 2.6. Members are invited to note that the course of appeal is by way of Judicial Review, a potentially expensive and damaging mechanism open to local stakeholders if there is a failure in the decision-making process. For example, a failure to consult properly, or a failure not to take into account relevant consideration, or conversely irrelevant issues are taken into account in reaching a decision. In other words, it is important to ensure that community governance decisions can be justified both evidentially and procedurally to avoid potential legal challenge.
- 2.7. It is also important to recognise that the number of responses received is not necessarily strong evidence on the strength of feeling either for or against any particular viewpoint. It is true that stakeholders preferring the status quo may not make representations until and unless there is a suggestion of significant change that they would otherwise oppose. Therefore, where little response has been received, it cannot be assumed that local people are in favour of supporting the change proposed by a few submissions; they may well currently be unaware of those suggestions and happy with no change. That is why the second round of formal consultation is important, and why targeted requests for responses are recommended in areas where changes are proposed. Consultation documents are being developed in conjunction with the Communications Team to ensure clarity for respondents and adherence to statutory criteria and best practice.
- 2.8. Members will be aware that the Boundary Commission for England (BCE) is currently developing proposals for new Parliamentary Constituencies. These will use existing ward boundaries as the building blocks for new Constituencies. The current CGR may make proposals for amended ward boundaries. This may result in a discrepancy between Parliamentary Constituency and City Ward boundaries. However, in undertaking the CGR Members are encouraged to effectively disregard the BCE review given it will take several years to reach fruition, may not be implemented, and we do not know which boundaries may be affected (if any).
- 2.9. The aim of a CGR is to ensure community governance arrangements are appropriate at a local level, and to then use any changes to inform proposals for change at City Ward and County Division level if necessary. It is therefore not appropriate to use Ward or Division boundaries to determine parish boundaries.
- 2.10. Members are reminded that the scope of the CGR is defined in law. Whilst some responses have been received that are outside of the scope of the CGR, this Council has no authority to make decisions or recommendations on those matters and so cannot

engage in meaningful discussion about them. Specifically, the CGR cannot consider or determine:

- (1) Parliamentary constituency boundaries
- (2) County Divisions, other than requesting consequential amendments are made to align with any changes to parish boundaries
- (3) City Wards, other than requesting consequential amendments are made to align with any changes to parish boundaries
- (4) The number of County or City councillors
- (5) The powers and authority of different tiers of government (for example, a CGR cannot recommend granting planning determination powers to parish councils)

3. Consultation

- 3.1. The initial consultation took place from January to 18 March 2021, inviting respondents to give their views on community governance arrangements in their local area and across the City Council area.
- 3.2. A total of 1,095 responses were received, including 923 through the dedicated online form and 172 paper responses. Compared to CGR consultations conducted elsewhere, this is a very substantial response. Given the broad and open nature of the initial consultation, a wide range of responses were received. These have been weighed against the statutory criteria and used to form the Draft Recommendations that follow. Note that many respondents would not have been aware of these criteria when responding, although the points they have raised have been considered against those criteria as widely as possible.

4. Draft Recommendations

Introduction

- 4.1. Draft Recommendations are proposed here, for discussion by Committee and subsequent agreement by Full Council. Once approved, there will be a public consultation on the Draft Recommendations.
- 4.2. Members of the Working Group agreed the principle that a Draft Recommendation must be both clear (easy to understand what the proposal is) and definite (making a recommendation, rather than leaving an area with no Draft Recommendation and leaving a 'blank sheet' for consultation. This allows residents and elected bodies to respond effectively and makes clear the proposed outcome of the CGR for each area if nothing changes during the consultation period. This supports open consultation and democracy, encouraging responses to definite proposals.
- 4.3. No decisions are confirmed at this stage. The consultation process on the Draft Recommendations is an essential part of the CGR, and responses will (by law) be taken into account in producing the Final Recommendations to Council.
- 4.4. This section of the report presents the rationale and evidence for the Draft Recommendations. The section first addresses parish boundary considerations, followed by the number of parish councillors by area.

- 4.5. The Council is required to publish the reasons for making its decisions as a result of a CGR. As such, the responses to the consultation are included at **Annex 2** with personal information redacted or removed.
- 4.6. The sections of the report that follow show each area in turn, with consideration given for the boundary and geographical area, the name, and then the governance arrangements (such as numbers of councillors). Areas are not shown in alphabetical order, as some areas need to be considered together due to integrated and overlapping concerns. The Draft Recommendations shown are as amended and agreed by the Connectivity and Local Democracy Working Group. The Draft Recommendations were considered by the Governance Committee on 8th September 2021. A slight amendment to include Chichester Drive and Hill View Road within Springfield Parish Council is now recommended by Governance Committee and is referenced in the report.
- 4.7. Note that maps are included where a proposed Draft Recommendation includes a change to an existing boundary or creation of a new boundary. Maps that refer to more than one area may be included multiple times in the report, making each section effectively standalone.
- 4.8. In considering the number of parish councillors to serve a particular area, we have used the following:
 - (1) Whilst the National Association of Local Councils (NALC) published guidance in 1988 on the suggested number of parish councillors per parish area based on the size of the electorate, these are non-statutory and there is no requirement for parish councils within an area to have equal ratios of electors to councillors. The statutory minimum number of councillors is five; there is no maximum, although it becomes more difficult and less effective or efficient to maintain an excessively large parish council. This allows Chelmsford City Council to consider the current number of parish councillors by area, recognise the different situations within each area, and then assess the appropriate number of parish councillors by area. There is no requirement for the number of electors represented by a single parish councillor to be the same between different parishes, although they should be comparable between wards of the same parish.
 - (2) With each parish area reviewed, the current number of electors and parish councillors is shown along with information about recent elections and the number of seats unfilled following the 2019 polls, if uncontested. In broad terms, the 1988 NALC guidance for the number of councillors per parish area is used. No such guidance exists for parish wards. We therefore must consider the current number of parish councillors for the area, planned changes and development, and try to adjust accordingly.
 - (3) Where proposals suggest a reduction in the number of parish councillors, this is based on NALC guidance as well as recent contested elections and the number of unfilled seats following the 2019 elections. As part of the consultation on the draft proposals, parish councils will be invited to submit representations, if applicable and appropriate, to counter these draft proposals and encouraged to highlight how local governance is better served by higher numbers than the NALC recommendations.
- 4.9. Once approved by Full Council, there will be a public consultation on the Draft Recommendations. That is, the Draft Recommendations are for consultation; they are not finalised at this stage. Where a parish council, local resident, business or other

organisation or body does not agree with a Draft Recommendation, they are invited to respond to the consultation stating their views, their reasons, and any alternative proposal. The only way to feed into the decision-making process is via the public consultation process.

Good Easter

4.10. Area

Parish area	Good Easter
Feedback from	No change necessary
informal	
consultation	
Feedback from first	1 response, advocating no change.
formal consultation	
Development	No significant new housing development is noted within the parish.
Assessment	The current community governance within the area does reflect the
	identities and interests of the community in the area.
	The current community governance remains effective and
	convenient.
	The parish boundaries remain coterminous with other boundaries.
Draft	Given the current community governance arrangements meet the
recommendation	statutory tests, there is no expected major new housing
	development that would disrupt those arrangements, and no
	identified support for changing arrangements, we recommend:
	No change in the parish boundary.
	No change in electoral arrangements, so retaining a parish
	council.

4.11. Governance arrangements

Electorate	308
Changes in electorate due to proposed boundary	0
changes	
Proposed electorate	308
Current number of parish councillors	7
Ratio (electors per parish councillor, rounded)	44
NALC recommendation (1988 guidance)	7
Notes on recent elections	Election contested in 2019
Proposed number of parish councillors	7 – no change

4.12. Draft recommendations:

- (1) No change in parish boundary.
- (2) No change in parish name.
- (3) No change in the number of parish councillors.

Mashbury

4.13. Area

Parish area	Mashbury (parish meeting)

Feedback from	No response
informal	
consultation	
Feedback from first formal consultation	3 respondents from local residents, of which 1 wanted no change and 2 wanted changes to governance arrangements. In addition, 3 comments were received from residents outside of the area advocating changes to governance arrangements in Mashbury.
	According to some responses, no parish meeting has been held for a number of years, although it should be held annually. Some respondents advocated the parish meetings be restored and continue as they should, whereas others feel the community is too small to sustain these arrangements, and one felt Mashbury should become part of Chignal parish; this suggestion was supported in principle by a local councillor from the Chignal area.
Development	No significant new housing development is noted within the area.
Assessment	The current community governance within the area does reflect the identities and interests of the community in the area. The boundaries remain coterminous with other boundaries. However, there are differing views as to how to best ensure effective local community governance within the area. With an electorate below 150, this review must recommend that Mashbury should not have a parish council of its own. This leaves two options for the area – either merging and becoming part of Chignal parish (as a separate parish ward), or remaining an independent parish meeting. A previous review concluded a parish meeting should remain in place, and whilst there remain differing views at this time, it is hard to conclude whether Mashbury would be better served by an effective annual parish meeting or by becoming part of Chignal parish. However, it is worth noting that should Mashbury become part of Chignal parish it would be a separate parish ward; this would provide representation on the parish council for the Mashbury area, although would necessitate an increase in local electoral involvement (individuals standing as parish councillors, rather than attending a single annual meeting). In the absence of evidence to the contrary, the default is to remain with the status quo.
Draft recommendation	Given the current community governance arrangements meet the statutory tests, there is no expected major new housing development that would disrupt those arrangements, and the assessment above has identified competing views for the need to change arrangements in Mashbury, we recommend: No change in the boundary. No change in electoral arrangements, so retaining a Parish Meeting. However, the residents of Mashbury will be invited to comment on whether they feel local community governance would be more effective and efficient by being
	part of Chignal parish instead as a separate parish ward, a change that is very much more complicated to reverse than it is to implement, and whether their community interests and identities are represented by Chignal parish. To become part of Chignal parish would result in a parish precept being levied on Mashbury households from April 2023 (payable to Chignal parish council).

4.14. Governance arrangements

Electorate	79
Changes in electorate due to proposed boundary	0
changes	
Proposed electorate	79
Current number of parish councillors	0
Ratio (electors per parish councillor, rounded)	n/a
NALC recommendation (1988 guidance)	n/a
Notes on recent elections	n/a
Proposed number of parish councillors	None.
	If Mashbury becomes part of
	Chignal parish, it would be a
	separate ward with 2 parish
	councillors.

4.15. Draft recommendations:

- (1) No change in parish boundary.
- (2) No change in area name.
- (3) No change in the governance arrangements.
- (4) However, residents of Mashbury will be invited to comment on whether they feel local community governance would be more effective and efficient by being part of Chignal parish instead as a separate parish ward.

Pleshey

4.16. Area

Parish area	Pleshey
Feedback from	No change necessary
informal	
consultation	
Feedback from first	1 response specific to the area, advocating no change.
formal consultation	1 response covering a broader area, also advocating no change.
Development	No significant new housing development is noted within the area.
Assessment	The current community governance within the area does reflect the identities and interests of the community in the area. The current community governance remains effective and convenient. The boundaries remain coterminous with other boundaries.
Draft recommendation	Given the current community governance arrangements meet the statutory tests, there is no expected major new housing development that would disrupt those arrangements, and no identified support for changing arrangements, we recommend: No change in the parish boundary. No change in electoral arrangements, so retaining a parish council.

4.17. Governance arrangements

Electorate	210
Changes in electorate due to proposed boundary	0
changes	
Proposed electorate	210
Current number of parish councillors	7
Ratio (electors per parish councillor, rounded)	30
NALC recommendation (1988 guidance)	7
Notes on recent elections	No recent contested elections
	2 unfilled seats in 2019
Proposed number of parish councillors	7 – no change

4.18. Draft recommendations:

- (1) No change in parish boundary.
- (2) No change in parish name.
- (3) No change in the number of parish councillors.

Roxwell

4.19. Area

Parish area	Roxwell
Feedback from	No response
informal	
consultation	
Feedback from first	
formal consultation	Of these, 4 advocated no change.
	1 responded that they would like the boundary to be adjusted, so that Roxwell parish extends to the A414.
	1 response stated they would like the parish council to be
	abolished, the parish council meetings to be moved online only,
	and the number of parish councillors to be reduced. They also said
	that development should be permitted on the green belt; a view
	that is outside of the consideration of a CGR.
Development	No significant new housing development is noted within the area.
Assessment	The current community governance within the area does reflect the
	identities and interests of the community in the area.
	The current community governance remains effective and
	convenient.
	The boundaries remain coterminous with other boundaries.
	However, whilst 4 of the 6 responses agree with this assessment,
	2 did not. Of these, the one supporting the removal or digitisation of the parish council does not reflect the broader support for the
	parish council, and the argument for change appears to be to
	encourage development on the green belt, which is not a statutory
	consideration of the CGR.
	The final response advocated a change in the southern-most
	boundary of the parish, to extend down to the A414 (effectively
	taking in part of Highwood parish area, a suggestion not supported
	by any other response). The argument put forward is that this
	reduces the effect of the A414 cutting communities in two.
	However, as no responses have been received from the effected
	electors or their parish council representatives identifying the A414

	as being a barrier to effective and convenient local government, it
	does not appear that this is a significant issue for residents.
Draft	Given the current community governance arrangements meet the
recommendation	statutory tests, there is no expected major new housing
	development that would disrupt those arrangements, and no
	evidence-based support for changing arrangements, we
	recommend:
	 No change in the parish boundary.
	No change in electoral arrangements, so retaining a parish
	council.

4.20. Governance arrangements

Electorate	832
Changes in electorate due to proposed boundary	0
changes	
Proposed electorate	832
Current number of parish councillors	9
Ratio (electors per parish councillor, rounded)	92
NALC recommendation (1988 guidance)	7
Notes on recent elections	No recent contested elections
	6 seats unfilled in 2019
Proposed number of parish councillors	7 – reduce

4.21. Draft recommendations:

- (1) No change in parish boundary.
- (2) No change in parish name.
- (3) **Reduce** the number of parish councillors from 9 to 7.

Highwood

4.22. Area

Parish area	Highwood
Feedback from	No change necessary
informal	
consultation	
Feedback from first	5 responses received, of which 1 advocated abolishing the parish
formal consultation	council, and 4 advocated no change in boundaries. Of these, 1
	suggested reducing the number of parish councillors down to four.
Development	No significant new housing development is noted within the area.
Assessment	The current community governance within the area does reflect the
	identities and interests of the community in the area.
	The current community governance remains effective and
	convenient.
	The boundaries remain coterminous with other boundaries. The
	one anonymous response advocating for no parish council does
	not appear to be widely supported. The suggestion to reduce the
	number of councillors to four would take it below the statutory
	minimum of five.

Draft	Given the current community governance arrangements meet the
recommendation	statutory tests, there is no expected major new housing
	development that would disrupt those arrangements, and no
	identified support for changing arrangements, we recommend:
	 No change in the parish boundary.
	No change in electoral arrangements, so retaining a parish
	council.

4.23. Governance arrangements

Electorate	550
Changes in electorate due to proposed boundary	0
changes	
Proposed electorate	550
Current number of parish councillors	7
Ratio (electors per parish councillor, rounded)	79
NALC recommendation (1988 guidance)	7
Notes on recent elections	Contested election in 2007
	3 unfilled seats in 2019
Proposed number of parish councillors	7 – no change

4.24. Draft recommendations:

- (1) No change in parish boundary.
- (2) No change in parish name.
- (3) No change in the number of parish councillors. This ensures the number of parish councillors is in line with NALC recommendations.

Margaretting

4.25. Area

Parish area	Margaretting
Feedback from	No change necessary
informal	
consultation	
Feedback from first	4 responses, of which 2 advocate no change, 1 suggested no
formal consultation	change to boundaries but a possible merger with a neighbouring
	parish, and 1 proposed removing the parish council and replacing
	with a Neighbourhood Management Team.
Development	No significant new housing development is noted within the area.
Assessment	The current community governance within the area does reflect the
	identities and interests of the community in the area.
	The current community governance remains effective and
	convenient.
	The boundaries remain coterminous with other boundaries.
	Whilst Margaretting is not a large parish in terms of electorate, it
	does cover a fairly broad geographical area. The community centre
	is fairly central within the area, making it geographically distant
	from neighbouring parish areas. Any possible merger of parish
	councils with neighbours would therefore result in a two-centre
	broader parish with differing identities and interests, which is
	unlikely to lead to an improvement in the effectiveness of local

	community governance. A merger is therefore not supported by the evidence. Current community governance is through a parish council. DCLG Guidance sees local community governance on a scale, with Neighbourhood Management as a step somewhere before creating a parish council. Therefore, any change from a parish council to a neighbourhood management approach would require the abolition of the parish council, and a lower level (and less involved and engaged) arrangement put in its place. This does not appear to lead to an increase in effective local community governance, and so is not supported.
Draft recommendation	Given the current community governance arrangements meet the statutory tests, there is no expected major new housing development that would disrupt those arrangements, and no identified support for changing arrangements, we recommend: No change in the parish boundary. No change in electoral arrangements, so retaining a parish council.

4.26. Governance arrangements

Electorate	690
Changes in electorate due to proposed boundary	0
changes	
Proposed electorate	690
Current number of parish councillors	9
Ratio (electors per parish councillor, rounded)	77
NALC recommendation (1988 guidance)	7
Notes on recent elections	No recent contested elections
	4 unfilled seats in 2019
Proposed number of parish councillors	7 - reduce

4.27. Draft recommendations:

- (1) No change in parish boundary.
- (2)
- No change in parish name.

 Reduce the number of parish councillors from 9 to 7. (3)

Stock

4.28. Area

Parish area	Stock
Feedback from	One response regarding effectiveness of parish councils, which is
informal	otherwise unsupported by the consultations.
consultation	
Feedback from first	4 electronic responses, all advocating no change to electoral
formal consultation	arrangements. 4 paper responses, three advocating no change; the other advocated Area Committees for the City Centre area. One of these commented on the need for parish councillors to be accountable; the other supported increased devolvement of decision-making powers to parish level (primarily regarding planning matters).

	One respondent suggested a maximum term of office for parish councillors; however, devolution of planning matters and defining electoral law are outside the scope of a CGR.
Development	No significant new housing development is noted within the area.
Assessment	The current community governance within the area does reflect the identities and interests of the community in the area. The current community governance remains effective and convenient. The boundaries remain coterminous with other boundaries. Parish councils can respond to planning consultations, but do not have the authority to make decisions on planning matters; any potential increased devolvement of powers to a parish level are outside of the remit of the CGR.
Draft	Given the current community governance arrangements meet the
recommendation	statutory tests, there is no expected major new housing development that would disrupt those arrangements, and no identified support for changing arrangements, we recommend: No change in the parish boundary. No change in electoral arrangements, so retaining a parish council.

4.29. Governance arrangements

Electorate	1,777
Changes in electorate due to proposed boundary	0
changes	
Proposed electorate	1,777
Current number of parish councillors	9
Ratio (electors per parish councillor, rounded)	197
NALC recommendation (1988 guidance)	9
Notes on recent elections	Contested election in 2011
	No unfilled seats in 2019
Proposed number of parish councillors	9 – no change

4.30. Draft recommendations:

- (1) No change in parish boundary.
- (2) No change in parish name.
- (3) No change in the number of parish councillors.

South Hanningfield

4.31. Area

Parish area	South Hanningfield
Parish wards	Downham
	Ramsden Heath
	South Hanningfield
Feedback from	No changes necessary
informal	
consultation	
Feedback from first	11 electronic responses. All responded that they felt the current
formal consultation	arrangements work well. However, two suggested that South

	Hanningfield ward of this parish should become part of West	
	Hanningfield parish due to 'more similar identity and similar	
	issues'.	
	4 paper responses advocated no change (other than a proposal to	
	change the name of the village, not the parish, which is outside of	
	the scope of a CGR).	
Development	No significant new housing development is noted within the area.	
Assessment	The current community governance within the area does reflect the	
	identities and interests of the community in the area.	
	The current community governance remains effective and	
	convenient.	
	The boundaries remain coterminous with other boundaries.	
	The suggestion that South Hanningfield ward should become part	
	of West Hanningfield parish was suggested by two respondents	
	(from one household). In practical terms, West Hanningfield village	
	is the same distance to South Hanningfield village as Downham	
	but, due to the location of the reservoir, the driving distance is	
	further. Therefore, this suggestion is not supported by the	
	evidence. The only development that straddles the boundary is the	
	water works, which does not affect electoral arrangements.	
Draft	Given the current community governance arrangements meet the	
recommendation	statutory tests, there is no expected major new housing	
	development that would disrupt those arrangements, and no	
	identified support for changing arrangements in the three parish	
	wards, we recommend:	
	No change in the parish boundary or parish ward	
	boundaries.	
	No change in electoral arrangements, so retaining a parish	
	council.	

4.32. Governance arrangements

Electorate	South Hanningfield parish 2,142
	Downham ward 442
	Ramsden Heath ward 1,476
	South Hanningfield ward
	224
Changes in electorate due to proposed boundary changes	0
Proposed electorate	2,142 (no ward changes)
Current number of parish councillors	South Hanningfield parish
	12
	Downham ward 3
	Ramsden Heath ward 7
	South Hanningfield ward
	2
Ratio (electors per parish councillor, rounded)	179
NALC recommendation (1988 guidance)	n/a
Notes on recent elections	Contested in 2011
	1 unfilled seat in 2019
Proposed number of parish councillors	12 in total, as follows:
	3 Downham
	7 Ramsden Heath

2 So	uth Hanningfield
No c	hanges

4.33. Draft recommendations:

- No change in parish boundary. (1)
- (2)
- No change in parish name. No change in the number of parish councillors. (3)

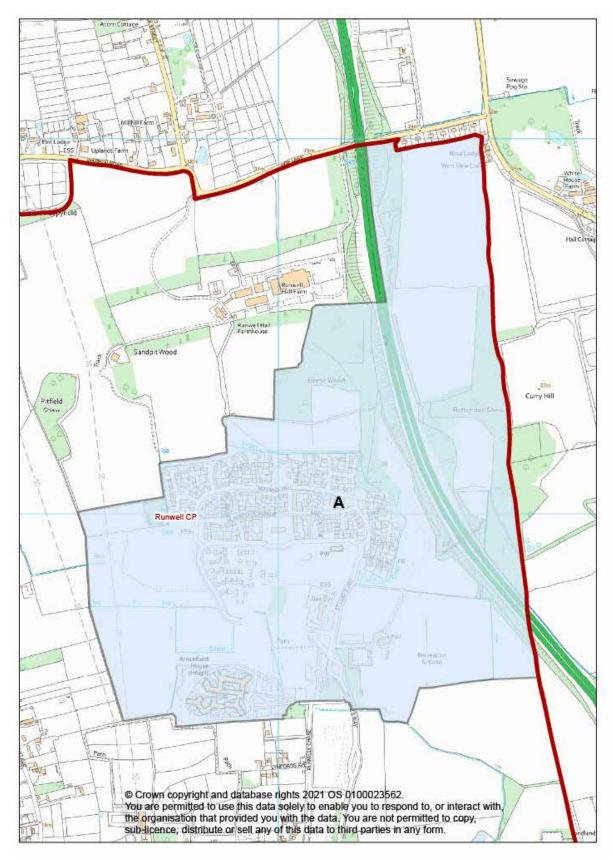

Runwell

4.34. Area

Parish area	Runwell
Parish wards	Runwell East
	Runwell West
Feedback from	No change necessary. One respondent suggested an increase in
informal	the number of parish councillors whilst another felt they were
consultation	appropriate.
Feedback from first formal consultation	11 electronic and 6 paper responses received, most of which advocated no change. Three responses suggested the St Luke's development should be a separate parish ward, with separate representation, due to a lack of representation in that area. There were also suggestions for specific actions for parish councillors (such a post boxes, litter bins, car parking, road refurbishment etc; most of these are outside of the remit of a parish council and all are outside of the scope of a CGR). There was also a suggestion to group Runwell with Rettendon; given the vastly different communities within the two parishes this is unlikely to lead to an increase in convenient and effective local governance. Additionally, one respondent advised they would welcome an increase in local taxation in the city centre in order to reduce their tax; this is also outside of the scope of a CGR.
Development	No significant new housing development is noted within the area.
Assessment	The current community governance within the area does reflect the identities and interests of the community in the area. The current community governance remains effective and convenient. The boundaries remain coterminous with other boundaries. However, the St Luke's development is currently included within the Runwell East parish ward. As a fairly sizeable development, which is geographically distinct from the remainder of the communities within Runwell, there is some argument that St Luke's has a distinct identity and different interests to the rest of the parish ward. In addition, residents feel they are currently inadequately represented on the parish council, suggesting the current arrangements are no longer effective or convenient. Given the responses from the St Luke's area are supportive of increased local representation, it would appear that making this a separate ward of Runwell parish would lead to an increase in effective and convenient local government, whilst reflecting local identities and interests.
Draft	Given the current community governance arrangements meet the
recommendation	statutory tests, there is no expected major new housing

development that would disrupt those arrangements, but there is support for creating a new parish ward to represent St Luke's, we recommend:

- No change in the parish boundary.
- Create a new parish ward to represent St Luke's, as shown in the image below (area A). This new parish ward covers St Luke's, including all properties off St Lukes Way and the hospital. The new ward would include the whole development, but not the older properties at Runwell Hall Farm, which are inaccessible from St Luke's area by road. The new parish ward extends to the parish boundary on the east, as it is not good practice to have 'island' wards entirely surrounded by another ward.

Area A: The proposed new parish ward, St Lukes parish ward of Runwell parish council.

4.35. Governance arrangements

Electorate	Runwell parish	3,296
	Runwell East ward	1,565
	Runwell West ward	1,731
Changes in electorate due to proposed boundary changes	0	
Proposed electorate	3,296, broken down:	
	Runwell East ward	1,121
	Runwell West ward	1,731
	St Lukes ward	444
Current number of parish councillors	Runwell parish	13
·	Runwell East ward	6
	Runwell West ward	7
Ratio (electors per parish councillor, rounded)	254	
NALC recommendation (1988 guidance)	n/a	
Notes on recent elections	No recent contested e	elections
	2 unfilled seats in 201	9
Proposed number of parish councillors	13 in total, as follows:	
	4 East	
	2 St Lukes	
	7 West	

4.36. Draft recommendations:

- (1) No change in parish boundary.
- (2) No change in parish name.
- (3) Create a new parish ward for St Lukes, as shown as Area A.
- (4) **Change** the number of parish councillors as noted above.

West Hanningfield

4.37. Area

Parish area	West Hanningfield
Feedback from	No responses
informal	
consultation	
Feedback from first	9 electronic and 2 paper responses. One, from a local councillor,
formal consultation	advocated more parish councillors and a merger of the
	Hanningfield parishes. The other respondents were strongly
	against this suggestion, highlighting how the communities are
	distinct in their identity and their community needs. A small number
	of respondents commented upon recent tree-felling, which is
	outside of the scope of the CGR.
Development	No significant new housing development is noted within the area.
Assessment	The current community governance within the area does reflect the
	identities and interests of the community in the area.
	The current community governance remains effective and
	convenient.
	The boundaries remain coterminous with other boundaries.
Draft	Given the current community governance arrangements meet the
recommendation	statutory tests, there is no expected major new housing

development that would disrupt those arrangements, and no
identified support for changing arrangements, we recommend:
 No change in the parish boundary.
No change in electoral arrangements, so retaining a parish
council.

4.38. Governance arrangements

Changes in electorate due to proposed boundary	0
changes	
Proposed electorate	939
Current number of parish councillors	9
Ratio (electors per parish councillor, rounded)	104
NALC recommendation (1988 guidance)	8
Notes on recent elections	Contested election in 2007
	5 unfilled seats in 2019
Proposed number of parish councillors	8 - reduce

4.39. Draft recommendations:

- (1) No change in parish boundary.
- (2) No change in parish name.
- (3) **Reduce** the number of parish councillors from 9 to 8.

East Hanningfield

4.40. Area

Parish area	East Hanningfield
Feedback from	No change necessary
informal	
consultation	
Feedback from first	
formal consultation	change. The one requesting changes suggested removing the middle tier(s) of government, leaving parish councils and central government, possibly with unitary authority between (although this was not clear). A CGR is not able to consider County or City electoral arrangements.
Development	No significant new housing development is noted within the area.
Assessment	The current community governance within the area does reflect the
	identities and interests of the community in the area.
	The current community governance remains effective and
	convenient.
	The boundaries remain coterminous with other boundaries.
Draft	Given the current community governance arrangements meet the
recommendation	statutory tests, there is no expected major new housing
	development that would disrupt those arrangements, and no
	identified support for changing arrangements, we recommend:
	 No change in the parish boundary.
	 No change in electoral arrangements, so retaining a parish council.

4.41. Governance arrangements

Electorate	874
Changes in electorate due to proposed boundary	0
changes	
Proposed electorate	874
Current number of parish councillors	7
Ratio (electors per parish councillor, rounded)	125
NALC recommendation (1988 guidance)	8
Notes on recent elections	No recent contested elections
	1 unfilled seat in 2019
Proposed number of parish councillors	7 – no change

4.42. Draft recommendations:

- (1) No change in parish boundary.
- (2) No change in parish name.
- (3) No change in the number of parish councillors.

South Woodham Ferrers

4.43. Area

Parish area	South Woodham Ferrers
Parish wards	Chetwood
	Collingwood
	Elmwood
	Woodville
Feedback from	Some felt no change was needed, others suggested removing the
informal	Town Council, others suggested changing it to a parish council. In
consultation	community governance terms, there is no difference between a
	town and a parish council. Further, community governance
	arrangements have no direct bearing on planning, road building or
	housing development, which were matters raised by respondents.
Feedback from first	18 electronic and 5 paper responses. Generally respondents are in
formal consultation	favour of the current arrangements, with the following exceptions:
	The Town Council expressed concern about the number of
	councillors, particularly that the total should not increase,
	as it has proved difficult to attract candidates in the past.
	There is a need to ensure the new development is
	adequately represented. One respondent suggested
	splitting the Town Council into 'north' and 'south' to ensure
	this happens.
	One respondent advocated replacing the Town Council
	with a petitions website. Whilst a website could be
	developed to support local voices, it is not considered an
	appropriate alternative to an existing elected body.
	One respondent advocated replacing the Town Council
	with a cross-specialism community forum without elected
	representatives. This would be contrary to government
	guidance.
	 Specific comments were received about planning matters,
	which are outside of the scope of a CGR.

Development	A large new development wholly contained within Woodville parish ward.
Assessment	The current community governance within the area does reflect the identities and interests of the community in the area. The current community governance remains effective and convenient. The boundaries remain coterminous with other boundaries. The new development will fall wholly within the existing Woodville ward and, as such, there is currently no need to amend ward boundaries. In addition, given the development is not yet built-out, it would appear unwise to adjust the number of local councillors at the current time as the local residents they will be representing are not yet there, and the pool of electors from whom councillors can be drawn are not yet present. Therefore a further, very small scale, review may be required in 3-5 years to adjust the number of town councillors by ward to balance the elector:councillor ratio locally.
Draft recommendation	Given the current community governance arrangements meet the statutory tests, there is no expected major new housing development that would disrupt those arrangements, and no identified support for changing arrangements, we recommend: No change in the parish boundary. No change in electoral arrangements, so retaining a parish council. However, once the new development is complete, a review to balance the number of parish councillors may be needed.

4.44. Governance arrangements

Electorate	South Woodham Ferrers	
	town	12,199
	Chetwood ward	2,941
	Collingwood ward	3,165
	Elmwood ward	3,552
	Woodville ward	2,541
Changes in electorate due to proposed boundary	0	
changes		
Proposed electorate	12,199 (no ward char	nges)
Current number of parish councillors	South Woodham Ferrers	
	town 20	
	Chetwood ward	5
	Collingwood ward	5
	Elmwood ward	5
	Woodville ward	5
Ratio (electors per parish councillor, rounded)	610	
NALC recommendation (1988 guidance)	n/a	
Notes on recent elections	Contested election in	2015
	5 unfilled seats in 201	9
Proposed number of parish councillors	20 in total, as follows:	
	5 Chetwood	
	5 Collingwood	
	5 Elmwood	
	5 Woodville	

4.45. Draft recommendations:

- (1)
- (2)
- No change in parish boundary. No change in parish name. No change in the number of parish councillors. (3)

Woodham Ferrers and Bicknacre

4.46. Area

Parish area	Woodham Ferrers and Bicknacre
Parish wards	Bicknacre
T di ion wards	Village
Feedback from	No changes to parish boundaries were suggested, although a
informal	review of the number of councillors was requested.
consultation	To now of the Hamber of Souriemers was requested.
Feedback from first	7 electronic and 4 paper responses. The majority support the
formal consultation	 status quo, although the following suggestions were also made: Merge the parish with Danbury parish. Only one respondent suggested this, with the reasoning to reduce costs (and not focussed on identity or community governance). The suggestion does not, therefore, meet the statutory criteria. Two suggestions were received requesting the parish name be reversed as Bicknacre is the larger electorate. One respondent (who lives outside of the parish) noted that Danbury parish wraps around the east and west of Bicknacre and stated that this reduces 'future growth options' for Bicknacre. Development and planning are outside of the scope of a CGR. Should future development in the area straddle the boundary, a future review of whether (and how) the boundary should be redrawn would take place. The position of a parish boundary line does not,
Development	of itself, affect whether development can take place or not. Three sites, all wholly within the Bicknacre ward, have been identified.
Assessment	The current community governance within the area does reflect the identities and interests of the community in the area. The current community governance remains effective and
	convenient. The boundaries remain coterminous with other boundaries. A name change was suggested by two respondents. However, the parish has been in existence since 1987 and Bicknacre has been the larger of the parish wards by electorate throughout that time. There is, therefore, no new rationale for changing the parish name and it is not recommended in this review.
Draft	Given the current community governance arrangements meet the
recommendation	statutory tests, there is no expected major new housing
	development that would disrupt those arrangements, and no
	identified support for changing arrangements, we recommend:
	 No change in the parish boundary.
	 No change in electoral arrangements, so retaining a parish council.

Governance arrangements

Electorate	Woodham Ferrers and	
	Bicknacre parish	2,285
	Bicknacre ward	1,869
	Village ward	416
Changes in electorate due to proposed boundary changes	0	
Proposed electorate	2,285 (no changes)	
Current number of parish councillors	Woodham Ferrers and	i
	Bicknacre parish	9
	Bicknacre ward	6
	Village ward	3
Ratio (electors per parish councillor, rounded)	254	
NALC recommendation (1988 guidance)	n/a	
Notes on recent elections	Contested election in 2007,	
	2008	
	2 unfilled seats in 2019	
Proposed number of parish councillors	9 in total, as follows:	
	6 Bicknacre	
	3 Village	
	(no change)	

4.47. Draft recommendations:

- (1) No change in parish boundary.
- (2) No change in parish name.
- (3) No change in the number of parish councillors.

Danbury

4.48. Area

Parish area	Danbury
Feedback from informal consultation	No change necessary
Feedback from first formal consultation	 19 electronic and 10 paper responses. Most support retaining the status quo, although the following suggestions were also made: Abolish the parish council and pass responsibilities to Chelmsford City Council. This approach was not well supported and appears to be based on financial grounds alone. The same respondent suggested merging Danbury with neighbouring parishes, although this was also not widely supported. The same respondent also suggested introducing parish wards. Given the layout of the settlements within the parish, this is unlikely to be a well-supported option. A small number of respondents suggested reducing the number of parish councillors. One respondent gave the same response as noted for Woodham Ferrers and Bicknacre, namely that two southern extents of the parish are distinct from the rest of the parish

	and possibly better aligned with the other parishes. However, no representation from those parishes has been made, nor from residents of those areas, to support those suggestions. There appears to be little support for this proposal, which appears to not consider the statutory criteria for a CGR.	
Development	No significant new housing development is noted within the parish.	
Assessment	The current community governance within the area does reflect the identities and interests of the community in the area. The current community governance remains effective and convenient. The boundaries remain coterminous with other boundaries.	
Draft	Given the current community governance arrangements meet the	
recommendation	statutory tests, there is no expected major new housing	
	development that would disrupt those arrangements, and no	
	identified support for changing arrangements, we recommend:	
	No change in the parish boundary.	
	No change in electoral arrangements, so retaining a parish	
	council.	

4.49. Governance arrangements

changes	
Proposed electorate	4,089
Current number of parish councillors	15
Ratio (electors per parish councillor, rounded)	273
NALC recommendation (1988 guidance)	12
Notes on recent elections	No recent contested elections
	4 unfilled seats in 2019
Proposed number of parish councillors	12 - reduce

4.50. Draft recommendations:

- (1) No change in parish boundary.
- (2) No change in parish name.
- (3) **Reduce** the number of parish councillors from 15 to 12, bringing it in line with NALC recommendations and reflecting the unfilled seats following elections in 2019.

Little Baddow

4.51. Area

Parish area	Little Baddow
Feedback from	No change necessary
informal	
consultation	
Feedback from first	7 electronic and 2 paper responses received, all supporting the
formal consultation	current arrangements and highlighting the existing community
	identities.
Development	No significant new housing development is noted within the parish.

Assessment	The current community governance within the area does reflect the identities and interests of the community in the area.	
	The current community governance remains effective and convenient.	
	The boundaries remain coterminous with other boundaries.	
Draft	Given the current community governance arrangements meet the	
recommendation	statutory tests, there is no expected major new housing development that would disrupt those arrangements, and no identified support for changing arrangements, we recommend: No change in the parish boundary. No change in electoral arrangements, so retaining a parish council.	

4.52. Governance arrangements

Electorate	1,285
Changes in electorate due to proposed boundary	0
changes	
Proposed electorate	1,285
Current number of parish councillors	9
Ratio (electors per parish councillor, rounded)	143

4.53. Draft recommendations:

- (1) No change in parish boundary.
- (2) No change in parish name.
- (3) **Reduce** the number of parish councillors from 9 to 8, reflecting NALC recommendations and the number of unfilled seats following the 2019 election.

Great Waltham

4.54. Area

Parish area	Great Waltham	
Parish wards	Church End	
	Ford End	
Feedback from	No change necessary	
informal		
consultation		
Feedback from first	7 electronic and 2 paper responses received. All were supportive,	
formal consultation	some vehemently so, of the current arrangements. The following	
	comments were received:	
	 Parish councils should be given more powers concerning planning. This is outside of the remit of a CGR. 	
	Boundaries should only be adjusted to accommodate new	
	development. This does not affect this parish directly.	
	One respondent suggested either splitting the parish along	
	existing parish ward lines, or merging the parish with	

	neighbouring parishes. These are opposite suggestions from the same respondent, and it isn't clear what the argument (taking the statutory criteria into account) for either case is.
Development	No significant new housing development is noted within the parish.
Assessment	The current community governance within the area does reflect the identities and interests of the community in the area. The current community governance remains effective and convenient. The boundaries remain coterminous with other boundaries.
Draft recommendation	Given the current community governance arrangements meet the statutory tests, there is no expected major new housing development that would disrupt those arrangements, and no identified support for changing arrangements, we recommend: No change in the parish boundary. No change in electoral arrangements, so retaining a parish council.

4.55. Governance arrangements

Electorate	Great Waltham parish 1,777
	Church End ward 1,236
	Ford End ward 541
Changes in electorate due to proposed boundary	0
changes	
Proposed electorate	1,777 (no ward changes)

	Church End ward 8
	Ford End ward 3
Ratio (electors per parish councillor, rounded)	254
NALC recommendation (1988 guidance)	n/a
Notes on recent elections	Contested election in 2007,
	2008
	2 unfilled seats in 2019
Proposed number of parish councillors	11 in total, as follows:
	8 Church End
	3 Ford End
	(no change)

4.56. Draft recommendations:

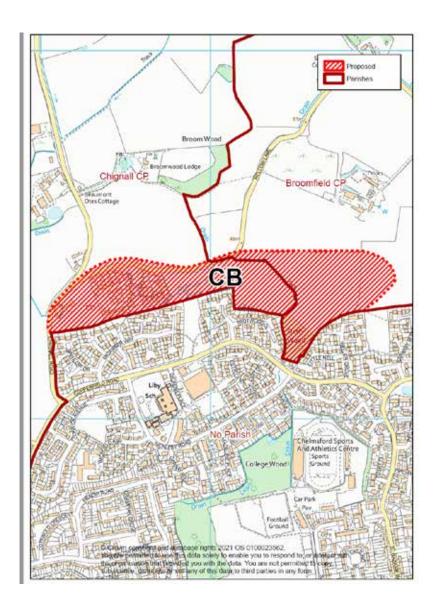

- (1) No change in parish boundary.
- (2) No change in parish name.
- (3) No change in the number of parish councillors.

Chignal

4.57. Area

Parish area	Chignal
Feedback from	No change necessary
informal	
consultation	

Feedback from first 40 electronic responses received advising they are from this formal consultation parish, although some were from the neighbouring unparished area of the City Centre. Most were supportive of retaining the status quo. The following comments were received: One respondent felt the Little Hollows development was separate from the rest of the parish and should therefore no longer be part of the parish. However, several respondents from that area advised they feel more part of Chignal than the neighbouring City. It appears a level of concern has arisen in this area that the City would 'swallow up' Little Hollows, and a number of respondents from that area advised they wish to remain in Chignal parish. One respondent advocated for the abolition of the parish council. Several respondents advised they would prefer to be part of the Chelmsford parliamentary constituency, although this is outside of the remit of the CGR (and is the responsibility of the Boundary Commission for England). **Development** No significant new housing development is noted within the parish. other than in the Hollow Lane area. The development around Hollow Lane, Dogrose Close, Foxglove **Assessment** Avenue and surrounds is currently divided between Broomfield and Chignal parishes. This is unlikely to reflect the interests and identities of the local community. As there will be no vehicular access from this area to the rest of Broomfield, it would not be logical for this community to be included within that parish. That leaves two options – to include the area within Chignal parish, or to amend the boundary such that it becomes part of the unparished area. Some submissions were received from local residents in this area not wishing to be part of the unparished city centre. However, Members at the Connectivity and Local Democracy Working Group noted that the number of properties expected in this development site would, if they became part of Chignal, comprise around twothirds of the total number of households and would therefore change the nature of Chignal considerably. Access is primarily to the south, into the unparished area of the City Centre, and the development is considered more likely an extension of the City Centre rather than an extension of Chignal. As such, the recommendation is that this area should become part of the unparished area. Draft Given the current community governance arrangements meet the recommendation statutory tests, there is no expected major new housing development that would disrupt those arrangements, and no identified support for changing arrangements, we recommend: Amend the parish boundary such that the Hollow Lane area becomes part of the unparished city centre area, as shown in the map below. No change in the parish name. No change in electoral arrangements, so retaining a parish council.

Area CB is currently split between Chignal and Broomfield. The proposal is that this becomes part of the unparished City Centre.

4.58. Governance arrangements

Electorate	396
Changes in electorate due to proposed boundary	- 170 to city centre
changes	
Proposed electorate	226
Current number of parish councillors	7
Ratio (electors per parish councillor, rounded)	57
NALC recommendation (1988 guidance)	7
Notes on recent elections	No recent contested elections
	1 unfilled seat in 2019
Proposed number of parish councillors	7 – no change

4.59. Draft recommendations:

- (1) Adjust the parish boundary such that area CB becomes part of the unparished city centre.
- (2) No change in parish name.
- (3) No change in the number of parish councillors.

Great and Little Leighs

4.60. Area

Parish area	Great and Little Leighs		
Feedback from	No change necessary		
informal			
consultation			
Feedback from first	2 electronic and 3 paper responses received, all advocating no		
formal consultation	change.		
Development	Development sites located wholly within the parish.		
Assessment	The current community governance within the area does reflect the		
	identities and interests of the community in the area.		
	The current community governance remains effective and		
	convenient.		
	The boundaries remain coterminous with other boundaries.		
Draft	Given the current community governance arrangements meet the		
recommendation	statutory tests, there is no expected major new housing		
	development that would disrupt those arrangements, and no		
	identified support for changing arrangements, we recommend:		
	 No change in the parish boundary. 		
	No change in electoral arrangements, so retaining a parish		
	council.		

4.61. Governance arrangements

Electorate	2,049
Changes in electorate due to proposed boundary	0
changes	
Proposed electorate	2,049
Current number of parish councillors	9
Ratio (electors per parish councillor, rounded)	228
NALC recommendation (1988 guidance)	10
Notes on recent elections	No recent contested elections
	5 unfilled seats in 2019
Proposed number of parish councillors	The NALC recommendation
	would be to increase the
	number of parish councillors,
	and I am mindful of extensive
	residential development
	planned in the parish.
	Therefore, despite a lack of
	recent contested polls, I
	propose to increase the
	number of parish councillors

to 10 to accommodate these
changes.

4.62. Draft recommendations:

- (1) No change in parish boundary.
- (2) No change in parish name.
- (3) **Increase** the number of parish councillors from 9 to 10.

Sandon

4.63. Area

Parish area	Sandon
Feedback from	No change necessary
informal	
consultation	
Feedback from first	4 electronic and 3 paper responses received, all advocating for no
formal consultation	change. One listed reasons for the retention of the parish area as it
	stands.
Development	Two sites are wholly within Sandon parish.
Assessment	The current community governance within the area does reflect the
	identities and interests of the community in the area.
	The current community governance remains effective and
	convenient.
	The boundaries remain coterminous with other boundaries.
Draft	Given the current community governance arrangements meet the
recommendation	statutory tests, there is no expected major new housing
	development that would disrupt those arrangements, and no
	identified support for changing arrangements, we recommend:
	No change in the parish boundary.
	No change in electoral arrangements, so retaining a parish
	council.

4.64. Governance arrangements

Electorate	1,211
Changes in electorate due to proposed boundary	0
changes	
Proposed electorate	1,211
Current number of parish councillors	7
Ratio (electors per parish councillor, rounded)	173
NALC recommendation (1988 guidance)	8
Notes on recent elections	No recent contested elections 1 unfilled seats in 2019
Proposed number of parish councillors	The NALC recommendation would be to increase the number of parish councillors, and I am mindful of residential development planned in the parish. Therefore, despite a lack of recent contested polls, I propose to increase the

number of parish councillors
to 8 to accommodate these
changes.

4.65. Draft recommendations:

- (1) No change in parish boundary.
- (2) No change in parish name.
- (3) Increase the number of parish councillors from 7 to 8.

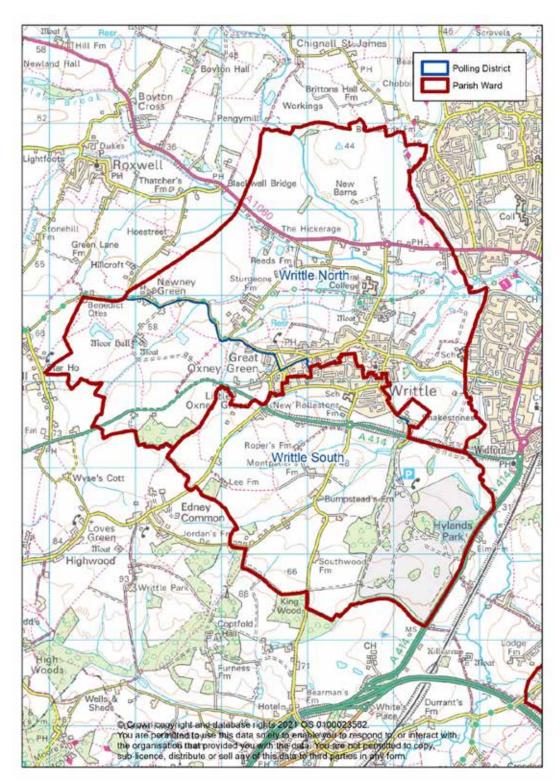

Writtle parish

4.66. Area

Parish area	Writtle
Parish wards	North
	South
Feedback from	No change necessary
informal	
consultation	
Feedback from first formal consultation	6 paper responses received. All supported the current situation. One suggested the new development should be entirely encompassed within Writtle (which it will be, without changing parish boundaries); another suggested the new development could become a new separate parish in future subject to a severance payment to Writtle. This is outside of the scope of the CGR, and it should be noted that payments are not made to a parish council for an area to leave that parish council area. In addition, 364 electronic responses were received. This level of activity was likely generated by local publicity within the parish, and some of the comments received suggested respondents felt that Writtle parish was about to be abolished which was never proposed prior to the initial consultation and is not supported by the current evidence. Most responses support the status quo. However, the following comments were received: • Local residents do not feel represented by their MP as they are not in the Chelmsford constituency. This is outside the
	 scope of the CGR. A small number of respondents advised that they felt the new development should be part of Writtle parish. With no change in boundaries, this will be the case. A small number, however, felt it should be excluded from the parish. One of these explicitly stated they felt existing Writtle residents should not 'support any of the newcomers to the area'. In fact, parish councils do not financially support residents within different areas and this argument therefore does not reflect the responsibilities explored in a CGR. One respondent felt that having the new development within Writtle would automatically allow further development to spread from it into the parish, but moving the parish boundary would prevent that spread. This is not the case,

Development	as planning and development control is not restricted to parish boundary lines. Some respondents advocated for a reduction in parish councillors, owing to few contested elections in recent years, whereas others recognised that increased residential development may necessitate additional councillors. Some respondents advocated adjusting the existing parish wards to balance electorates, taking the new development into account. Others advocated removing the parish wards entirely, and some suggested the new development should be one ward with the rest of the parish another, to reflect the different identities and communities therein. One respondent felt parish councils should have a greater level of authority regarding planning matters; this is outside the scope of a CGR. New housing developments are wholly located within the North
	parish ward.
Assessment	The current community governance within the area does reflect the identities and interests of the community in the area. The current community governance remains effective and convenient. The boundaries remain coterminous with other boundaries. However, there is scope to tidy-up the parish ward boundary, such that communities within the southern part of the parish are not split artificially by the parish ward boundary. However, there is no clear demarcation that adequately splits the parish into wards in an equitable and logical manner. It is not currently advisable to create a parish ward for the new development, until such time as the development is built-out; this will allow more accurate placement of boundary lines and more equitable numbers of parish councillors by parish ward (based on electorate). There are, therefore, three possible options. (a) Leave the parish ward boundaries as they are, noting that changes may be required in future once the new development is complete. (b) Change the parish ward boundaries now, to create a more balanced warding structure, noting further changes may be required in future once the new development is complete. (c) Remove warding within the parish, such that the whole of Writtle becomes a single area, noting that changes may be required in future once the new development is complete. The default is to retain the status quo and, in the absence of any clear views from residents or the parish council, that is the preferred option. Therefore, the parish ward boundaries should remain unchanged for now, but may be reviewed in future once the development is complete. At that time, rather than simply creating a new parish ward, consideration should be given as to the benefit and impact of warding to determine if removing all parish wards within Writtle, or some alternative adjustment, should be made. However, in practical terms, the current parish ward boundary divides existing streets arbitrarily leading to some complications at elections in terms of to which polling
	demarcation that adequately splits the parish into wards in an equitable and logical manner. It is not currently advisable to create a parish ward for the new development, until such time as the development is built-out; this will allow more accurate placement of boundary lines and more equitable numbers of parish councillors by parish ward (based on electorate). There are, therefore, three possible options. (a) Leave the parish ward boundaries as they are, noting that changes may be required in future once the new development is complete. (b) Change the parish ward boundaries now, to create a more balanced warding structure, noting further changes may be required in future once the new development is complete. (c) Remove warding within the parish, such that the whole of Writtle becomes a single area, noting that changes may be required in future once the new development is complete. The default is to retain the status quo and, in the absence of any clear views from residents or the parish council, that is the preferred option. Therefore, the parish ward boundaries should remain unchanged for now, but may be reviewed in future once the development is complete. At that time, rather than simply creating a new parish ward, consideration should be given as to the benefit and impact of warding to determine if removing all parish wards within Writtle, or some alternative adjustment, should be made. However, in practical terms, the current parish ward boundary divides existing streets arbitrarily leading to some complications at

	resolved by adjusting the polling district boundary, so it follows
	Victoria Road, East View, Ongar Road and then between
	Redwood Drive and Longmeads Close to rejoin the existing parish
	ward boundary. Adjusting the parish ward boundary to follow this
	polling district boundary would help improve the effectiveness and
	convenience of local governance and electoral arrangements,
	whilst retaining both parish wards in Writtle at the current time.
Draft	Given the current community governance arrangements meet the
recommendation	statutory tests, there is no expected major new housing
	development straddling the boundaries that would disrupt those
	arrangements, and no identified support for changing
	arrangements, we recommend:
	No change in the parish boundary, other than the minor
	adjustment between parish wards as noted above so the
	new parish ward boundary follows the polling district
	boundary line (as shown in the map below).
	No change in electoral arrangements, so retaining a parish
	council.

Map showing the current parish ward boundary in Writtle, and the current polling district boundary (which is the proposed new parish ward boundary).

4.67. Governance arrangements

Electorate	Writtle parish	4,078
	North ward	1,379
	South ward	2.699

Changes in electorate due to proposed boundary	0	
changes		
Proposed electorate	4,078 (no changes)	
Current number of parish councillors	Writtle parish 15	
-	North ward 8	
	South ward 7	
Ratio (electors per parish councillor, rounded)	272	
NALC recommendation (1988 guidance)	n/a	
Notes on recent elections	Contested election in 2007	
	2 unfilled seats in 2019	
Proposed number of parish councillors	15 in total, as follows:	
	7 North (reduction of 1)	
	8 South (increase of 1)	

4.68. Draft recommendations:

- (1) No change in parish boundary other than the minor adjustment between parish wards as noted above so the new parish ward boundary follows the polling district boundary line.
- (2) No change in parish name.
- (3) **Change** in the number of parish councillors, to increase the number in South ward from 7 to 8 and reduce the number in North ward from 8 to 7. This change reflects the balance of the electorate.

Galleywood

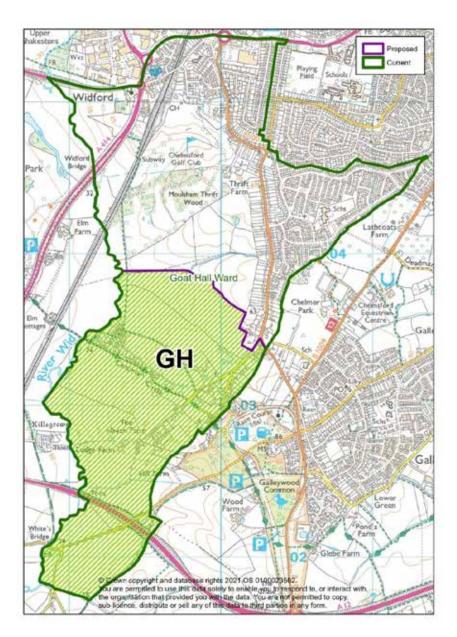

4.69. Area

Parish area	Galleywood
Parish wards	East
	West
Feedback from	One proposal was received suggesting the southern end of Goat
informal	Hall city ward of the currently unparished area become part of
consultation	Galleywood.
	One proposal questioned the need for parish wards within
	Galleywood, which may be based on historical arrangements.
Feedback from first	3 responses on paper, all supporting the current arrangements and
formal consultation	advocating no change. One pointed out they feel the current
	arrangements are effective.
	17 responses electronically. Two felt the parish council should be
	abolished, with one advocating local community polls to determine
	local issues, but otherwise being assimilated within the unparished
	area of the City. The remainder felt the parish council should be
	retained or were unsure.
	Four responses, including one from the parish council and one
	from a serving parish councillor, called for extending the parish
	area to take on the Goat Hall area of the unparished part of the
	City. One of these also called for the Moulsham area to become
	part of Galleywood parish. None of these submissions suggested
	the residents of Goat Hall or Moulsham feel a sense of identity with
	Galleywood, simply that this area was geographically distant from
	the rest of the City so should become part of their parish. One
	councillor for another area stated in their response that ward

councillors have said that Goat Hall sits more naturally within Galleywood; however other responses have not supported this statement. Four submissions, including that of the parish council, advocated removing the two parish wards and making the parish a single area as there is no distinction between the two areas and they form a single community. The number of parish councillors was commented upon, with a number of submissions suggesting an increase to bring the ratio of electors to councillors in line with other parish areas. One response suggested local referendums to determine local issues. However, this is outside the scope of the CGR as it is not a recognised form of community governance outside of existing structures. New development wholly located within the parish. **Development** Assessment The current community governance within the area does largely reflect the identities and interests of the community in the area. The current community governance remains effective and convenient. The boundaries remain coterminous with other boundaries. However, there does seem to be support to remove the existing parish wards and ensure Galleywood remains a single-ward parish. This would give an electorate of around 4,500 which is not unreasonable for a single area. The suggestion to make the southern end of Goat Hall Ward part of Galleywood has not been supported by residents of that area itself. It is possible that residents of this area do not feel they align with the identities and interests of the city itself, given they are geographically distinct and form a small and separate area. However, it does not necessarily follow that they feel they are part of Galleywood parish. It is therefore prudent to consult residents in this area to ask if they feel more closely aligned to Galleywood parish. The specific area is the current Goat Hall ward south of the stream adjoining the River Wid. following the field boundary to the south, south around the veterinary practice and neighbouring property, then north along Goat Hall Lane to the B1007 and joining the existing boundary at the junction with Slade Lane, shown as area GH on the map. Draft Given the responses received suggesting there is no need for two recommendation separate parish wards (East and West) for Galleywood parish. I propose removing the parish wards. The overall number of parish councillors is adjusted accordingly. Following discussion at the Connectivity and Local Democracy Working Group, the recommendation is to move the boundary

between Goat Hall ward and Galleywood parish as outlined above,

subject to consultation.

The area marked GH is proposed to move, subject to consultation, to Galleywood parish.

4.70. Governance arrangements

Electorate	Galleywood parish	4,338
	East ward	2,356
	West ward	1,982
Changes in electorate due to proposed boundary changes	Merger of the two exist parish wards to create area, with an electora 4,338. If the southern part of Hall ward becomes part Galleywood, it would it the electorate by 222.	e a single te of Goat art of
Proposed electorate	4,338 + potentially 22	2 from
1 Toposca cicotorate	Goat Hall ward = 4,56

Notes on recent elections	Contested election in 2019	
Proposed number of parish councillors	Following the NALC formula,	
	Galleywood would have 12	
	parish councillors – an	
	increase from the current 9.	

4.71. Draft recommendations:

- (1) **Change** the parish boundary as noted above and shown as area GH on the map.
- (2) No change in parish name.
- (3) **Remove** the parish wards, creating a single area.
- (4) **Change** the number of parish councillors to a total of 12 for the single area.

Great Baddow

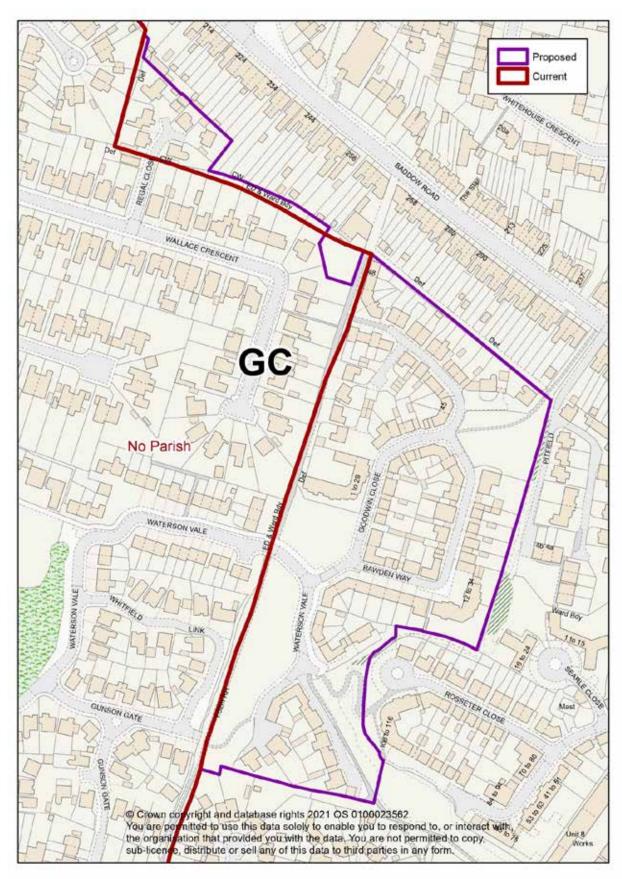

4.72. Area

Parish area	Great Baddow
Parish wards	Baddow Road
	Rothmans
	Village
Feedback from	A range of views were received, including dividing the parish or
informal	abolishing the parish.
consultation	
Feedback from first	21 electronic responses and 11 on paper. The majority advocated
formal consultation	no changes.
	A small number suggested abolishing the parish council, or
	merging it with neighbouring parishes to reduce costs. Costs are
	not a direct consideration of a CGR, however, and no reason from
	a community identity or effectiveness of community governance
	perspective was suggested.
	One respondent felt the way parish councillors was 'chosen' was
	not representative, although parish council elections allow for any eligible resident to stand for election.
	The Great Baddow parish council advocated that the boundaries
	should remain unchanged, except that the whole of Petrel Way
	should be included within the parish. At present, Petrel Way is not
	within the parish with the exception of number 30. A local
	councillor advocated that number 30 Petrel Way should remain
	within the parish, although a response from a City Councillor
	suggested it could be moved into the unparished area given there
	is no access from Great Baddow directly.
	One response noted that the large development in the north-east
	corner of Village Ward of Great Baddow parish may necessitate an
	additional parish ward to serve it effectively.
	In addition, submissions were received that advocated that Regal
	Close, Goodwin Close, Bawden Way and the entirety of Waterson
	Vale should be in the same electoral area – the unparished area

	rather than Great Baddow parish as there is no vehicular access to the rest of the parish. These roads are currently isolated from the
	rest of the area due to the location of the current parish boundary.
Development	A major new development is wholly included within Village ward,
	and two further sites are in neighbouring Sandon parish.
Assessment	It has been suggested that the new developments within Sandon parish are perhaps more reflective of an extension of Great Baddow village than the separate Sandon parish. However, no strength of feeling has been put forward suggesting the parish boundary be amended. In addition, the intention of a community governance review is not to make changes for changes' sake, but to use existing historic and established boundaries as a starting point for considering the community governance arrangements in local communities.
	Therefore it is likely, in the absence of contrary indications, that the current community governance within the area does reflect the identities and interests of the community in the area. The current community governance remains effective and convenient. The boundaries remain coterminous with other boundaries.
Draft recommendation	The majority of the existing boundaries remain appropriate, with no support for large-scale changes. However, the single property (30 Petrel Way) that is only accessible from the unparished area is an anomaly by being included within the parish boundary. In addition, Regal Close, Goodwin Close, Bawden Way and the entirety of Waterson Vale are not accessible from the remainder of the parish. I therefore propose adjusting the boundaries such that: 1. For 30 Petrel Way, it follows the property boundary and this residential property becomes part of the unparished area alongside the rest of the road (shown as area B on the map below). This would meet the two statutory tests – the residents of a property are likely to have similar community interests and identity to their neighbours than to those whose properties are further away and inaccessible, and this arrangement would lead to more effective and convenient local governance. 2. The other roads listed become part of the unparished area. This also meets the two statutory criteria.
	 Therefore, I propose: Adjust the parish boundary such that number 30 Petrel Way becomes part of the unparished area. Adjust the parish boundary such that Regal Close, Goodwin Close, Bawden Way and the entirety of Waterson Vale become part of the unparished area. Leave the rest of the boundaries unchanged, noting a future parish ward review may be required once the major development is built-out.

Area B: The proposed move of 30 Petrel Way from Great Baddow to the unparished area.

Proposed revised boundary encompassing Regal Close, Goodwin Close, Bawden Way and the entirety of Waterson Vale in the unparished area (area GC shown)

4.73. Governance arrangements

Electorate	Great Baddow parish 11,297
	Baddow Road ward 2,423
	Rothmans ward 4,729
	Village ward 4,145
Changes in electorate due to proposed boundary	(1 property) reduction of
changes	electors from
	13 Baddow Road ward
	190 Rothmans ward
Proposed electorate	11,094 (no ward changes)
Current number of parish councillors	Great Baddow parish 13
	Baddow Road ward 3
	Rothmans ward 5
	Village ward 5
Ratio (electors per parish councillor, rounded)	869
NALC recommendation (1988 guidance)	n/a
Notes on recent elections	Contested election in 2007
	3 unfilled seats in 2019
Proposed number of parish councillors	The number of electors per
	parish councillor is large;
	however, no suggestion to
	increase the number of parish
	councillors has been received.
	However, there is a new
	development underway, which
	will increase the number of
	electors. I therefore
	propose:15 in total, as follows:
	3 Baddow Road (unchanged)
	6 Rothmans (increase by 1)
	6 Village (increase by 1)

4.74. Draft recommendations:

- (1) **Change** in parish boundary such that number 30 Petrel Way becomes part of the unparished area (area B on the map). The residents of this property will be contacted directly regarding this draft recommendation to allow them to make representations if they wish.
- (2) **Change** the parish boundary such that Regal Close, Goodwin Close, Bawden Way and the entirety of Waterson Vale become part of the unparished area. The residents of this area will be contacted directly regarding this draft recommendation to allow them to make representations if they wish.
- (3) No change in parish name.
- (4) **Change** in the number of parish councillors, as noted above.

Rettendon parish

4.75. Area

Parish area	Rettendon
Electorate	1,602
Number of parish councillors	9
Feedback from informal consultation	A number of respondents felt that the Hayes Country Park area should be either a separate parish, or part of the neighbouring South Woodham Ferrers parish. There were a range of views expressed about the number of parish councillors, with some respondents wanting an increase, some a decrease, and some no change.
Feedback from first formal consultation	6 paper and 2 electronic responses received. Some respondents felt the parish councillors are currently from a small area, and not representative of the parish as a whole. Some felt Hayes County Park should join a neighbouring parish or become a parish in its own right. One respondent highlighted the current divide between the residents and interests of Hayes Country Park and the rest of the parish, noting the imbalance of representation between the two.
Development Assessment	No significant new housing development is noted within the area. Responses to the consultations indicate that local disagreements and opposing views between two parts of the existing parish have led to some residents feeling the two should be separated. In particular, some residents have told us, through the CGR consultations, that they feel that the Hayes Country Park (HCP) area should no longer be part of the parish of Rettendon. Note, however, that the number of responses remains low. From the outset, I must advise that opting to expel part of a parish area representing approximately a quarter of the electorate due to political disagreement is a potentially unhealthy way to run a
	democracy and that view, of itself, fails to meet the statutory requirements of a Community Governance Review. However, taking the entirety of responses into account, there may still be an argument for changing the current governance arrangements within the parish. Different options are outlined below, noting the possible implications of each. 1. No change to existing boundaries and community governance arrangements. This would retain HCP within the parish as-is. The implication is that, as now, residents of HCP can stand as parish councillors and represent local interests, just as residents from the rest of the parish can stand as parish councillors and represent local interests. The parish council, as now, has responsibility for local services and arrangements across the entire parish area. 2. Hayes Country Park become part of South Woodham Ferrers parish. However, the boundary with South Woodham Ferrers parish is the Fenn Creek with the
	nearest vehicle crossing via the A132 Burnham Road. Despite the nearest residents in Hayes Country Park living less than 800m from those of South Woodham Ferrers,

they would need to drive 3 miles to reach each other. Residents of Hayes Country Park do not view themselves as part of South Woodham Ferrers. Therefore, combining Hayes Country Park within South Woodham Ferrers would neither reflect the identities and interests of the community, nor be effective and convenient. In addition, the suggestion would necessitate adjusting the boundary to follow the A132, such that the eastern end of Tabrum's Lane also move to South Woodham Ferrers parish; this also does not reflect the local identities and communities in the area. Therefore, this suggestion falls foul of the two statutory requirements and cannot be taken forward.

- 3. <u>Hayes Country Park should become a separate parish</u> council area. There are two statutory tests to apply in this case:
 - a. Does the proposal reflect the identities and interests of the community in that area? During the consultations the identities and interests of the Hayes Country Park have not been communicated to the review team. However, it appears likely that residents would use amenities in nearby larger settlements and not look directly to the rest of Rettendon for a sense of community or identity. Certainly, responses from elsewhere in Rettendon do not see HCP as a part of their parish identity.
 - b. The electorate within the area is small (450 electors) and therefore establishing a new parish is unlikely to lead to effective or convenient community governance.

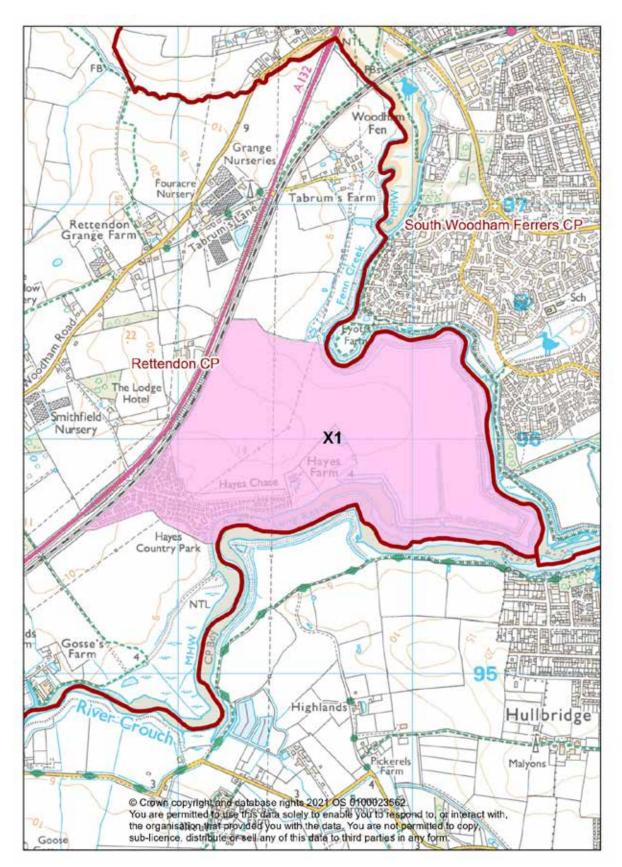

If the case is made for HCP to become a separate parish, residents of HCP as well as those within 3 miles of the boundary of the new parish, would be able to stand as councillors to represent the new HCP parish area; residents of the rest of the current Rettendon parish as well as those within 3 miles of the boundary, would be able to stand as councillors to represent the new smaller Rettendon parish. There would be a transfer of assets, financial and other, to the new HCP parish from the existing parish council. The smaller Rettendon parish would receive parish precept income from a smaller number of properties. Both parishes, being relatively small, would have separate costs associated with them - clerk staff costs, the costs of service provision and so on. These may make such a small parish less viable and so not allow for effective community governance.

4. Retain HCP within Rettendon parish, but as a separate parish ward. A warded parish council would see a number of parish councillors for each of the two parish wards — Hayes Country Park, and the remainder of Rettendon parish. Local residents could stand as a parish councillor for their ward if they live within the ward or within 3 miles of the boundary, but are voted for by only residents of the parish ward. The map shows the possible parish ward, labelled as area X1. This ensures long-term representation of both parts of the parish. However, given HCP is smaller

and would therefore have fewer parish councillors, this arrangement could create division on any matters where the view of residents from HCP differs from those of the rest of the parish. Whilst there would be no assets transferred from Rettendon parish, no material increase in costs as it will remain one parish, and no reduction in the number of households from which the precept is received, any fundamentally divisive arrangements could be ineffective, and there would be an increase in costs at an election (due to the need to run two elections rather than one). In addition, if this option is taken forward, consideration for warding of other settlements within the parish area (such a Battlebridge) should be considered.

Draft recommendation

Given the strength of feeling indicated in consultation responses, and the likely widely differing views on what should happen with regards community governance arrangements in the parish of Rettendon, I propose that the draft proposals for this parish leave the parish boundary and governance arrangements **unchanged**. However, all electors in the parish should be invited to comment on the specific options for change in their parish (Area X1 in the map below shows the affected area). It should be noted that the most effective way to resolve local disagreements is unlikely to be through changes to electoral arrangements, but only through local facilitated dialogue.

Area X1: Whilst the Draft Recommendation is for no change, this map shows the extent of a new parish ward for Hayes Country Park which is subject to specific consultation.

4.76. Governance arrangements

Electorate	1,602
Changes in electorate due to proposed boundary	0
changes	
Proposed electorate	1,602
Current number of parish councillors	9
Ratio (electors per parish councillor, rounded)	178
NALC recommendation (1988 guidance)	9
Notes on recent elections	Contested election in 2019
Proposed number of parish councillors	If the parish remains
	unwarded, no change to the
	number of councillors (9).
	If the parish is warded, such
	that Hayes Country Park is
	made a separate parish ward,
	then:
	Total: 11
	3 Hayes Country Park
	8 Rettendon

4.77. Draft recommendations:

- (1) No change in parish boundary.
- (2) No change in parish name.
- (3) No change in the number of parish councillors.
- (4) However, all residents in the parish to be invited to respond to the consultation.

Broomfield

4.78. Area

Parish area	Broomfield
Feedback from informal consultation	A range of suggestions were put forward, including merging Broomfield with Little Waltham, creating a new parish to include the new development sites in the area, or leaving boundaries unchanged.
Feedback from first formal consultation	1 response on paper, and 21 electronically. All but one advocated retaining a parish council in some form, and many advocated no change. One suggested retaining boundaries for archaeological and historical reasons; however, these are outside of the remit of a CGR which must look at current local governance. A number of responses highlighted the Channels development, extending south to include the existing Fairway Drive and surrounds. The existing residential area is split between Broomfield and Little Waltham, and responses suggested ensuring they are in the same parish area; most suggested this would not be Broomfield parish Most respondents did not highlight the second major development, north of Broomfield hospital, which currently straddles the Broomfield / Little Waltham boundary.

	 Broomfield parish council submitted a detailed response to the consultation, advocating the following: Supporting the move of part of the parish into the potential new parish for the 'Beaulieu' development (discussed later in this report). Adjusting the boundary between Springfield and Broomfield to follow the road rather than the river, effectively transferring part of Springfield into Broomfield. Whilst the submission states that the area belongs to the Chelmer Valley in terms of landscape character, there is no evidence that residents of the affected area feel more aligned to Broomfield than Springfield in their identity and interests, nor that the proposal would lead to more effective or convenient local governance.
	 Creation of a new small parish council, taking part of Broomfield and part of Chignal parishes. Whilst this area may be remote from the rest of the properties in Broomfield parish, and from those in in Chignal, there have been no calls from residents to become a separate parish; a more logical option would be for the area to become part of the unparished city centre, but we did receive responses arguing against that option (and submissions from local councillors promoting it).
	 Regarding the area north of Broomfield hospital, the parish council advocate it all becoming part of Broomfield parish. In a detailed submission, they have provided their arguments for this suggestion. However, the two statutory criteria are concerning the identities and interests of the local community, and effective and convenient local government.
Development	One new major development site, straddling the boundary between Broomfield and Little Waltham. Development outside of the parish in the Channels / Beaulieu area will also have an impact.
Assessment	Splitting a major new development between two parish areas is unlikely to reflect the identities and interests of the community, and unlikely to lead to effective and convenient governance (in this case, the development site north of Broomfield Hospital, currently straddling the parish boundary). Therefore, it appears a change does need to take place. The existing parish boundary follows the line between two fields. There are, it appears, three possible options for the development north of the hospital in Broomfield: 1. Adjust the boundary such that this single development is wholly contained within one parish (Broomfield or Little Waltham); or 2. Include the new development in the major development sites spanning Little Waltham, Springfield and Boreham
	(Beaulieu and Little Channels sites); or 3. Create a separate parish for this new development. The Local Plan for Chelmsford adopted in May 2020 identifies land to the east of the B1008 as 'green wedge' and as such is unlikely to be developed in the near future. Whilst community governance is separate and independent of planning policy decisions, it is useful to recognise that the development straddling the Broomfield and Little Waltham parish boundary is unlikely to become joined with the other major developments in the area. I therefore

recommend treating it separately from them and, as such, exclude option 2 of those listed.

Adjusting the parish boundary such that this development is wholly contained within one parish is likely to ensure effective and convenient local governance and reflect the interests and identities of the local communities.

At this stage, whilst it is not possible to state which the identities and interests of the community at this site are most closely aligned with, the majority of housing within the development will be in the Broomfield parish. Whilst current vehicular access will be from the north/east (via Little Waltham), the development plans include access through the site to the Broomfield Hospital estate. In addition, the development is more likely to be viewed by residents as a northward extension of Broomfield than a southern extension of Little Waltham given the proximity of existing properties. Once fully developed, around 500 homes are likely in the area (resulting in approximately 875 electors). Whilst this is a sizeable development, it remains geographically quite small. I do not, therefore, propose to recommend it becomes a separate parish in itself. I therefore recommend the new development become part of one of the two existing parishes.

Members are invited to discuss how this boundary should be resolved. Whilst the likely major access route via the B1008, there is a proposal to include a road connecting the B1008 with the hospital site through the new development. As such, the parish that best reflects the identities and interests of the new development is unclear.

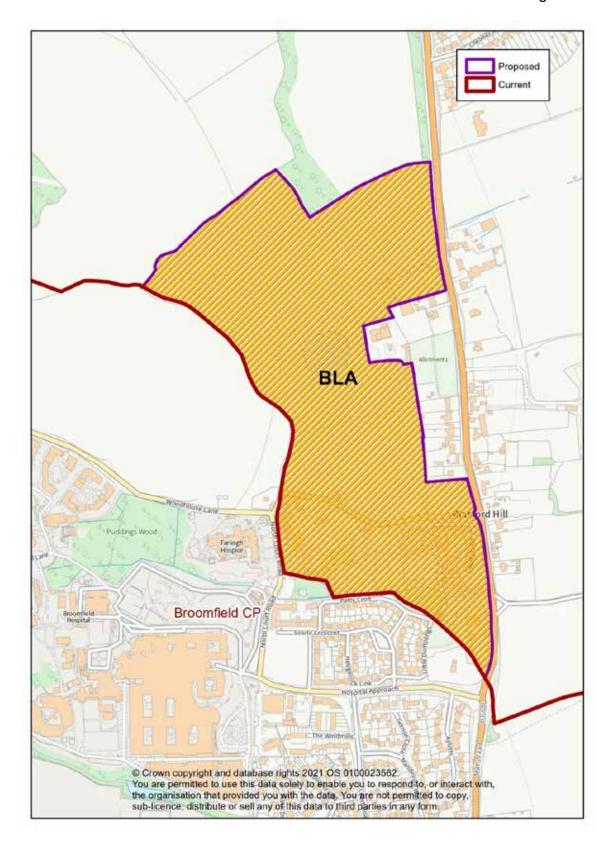

It is important to note that the exact placement of the boundary may need to be revisited in future should changes be made to the extent of the development.

In addition there are currently a small number of properties in Petty Croft, accessible only from Hospital Approach in Broomfield, which are in Little Waltham parish.

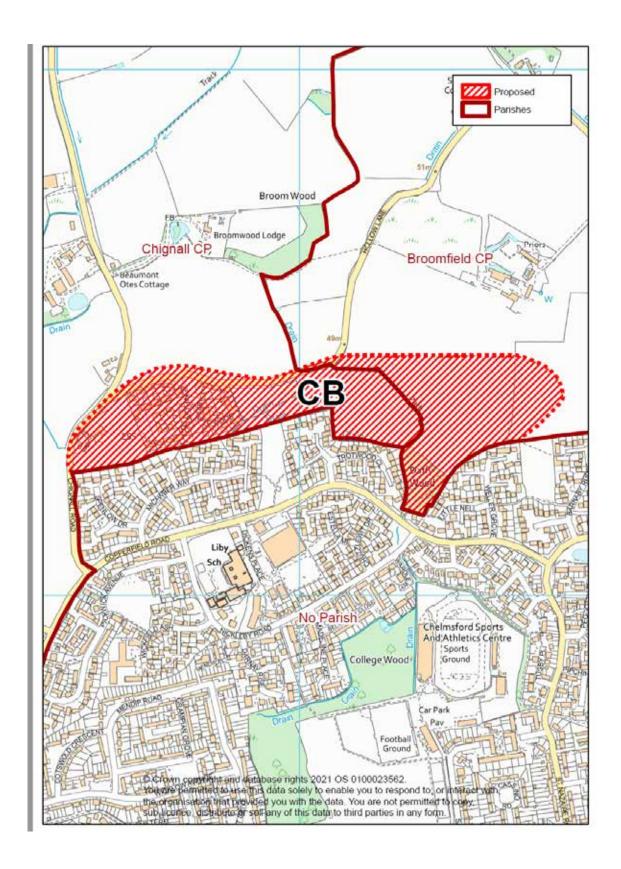

Following discussion at the Connectivity and Local Democracy Working Group, Members recommend a revision to the current parish boundary such that Petty Croft, and the entire new development site, are included within Broomfield (the map labelled BLW shows this).

The development around Dogrose Close, Foxglove Avenue and surrounds is currently divided between Broomfield and Chignal parishes. This is unlikely to reflect the interests and identities of the local community. As there will be no vehicular access from this are to the rest of Broomfield, it would not be logical for this community to be included within that parish. That leaves two options – to include the area within Chignal parish, or to amend the boundary such that it becomes part of the unparished area. As noted earlier in the report, some submissions were received from local residents in this area not wishing to be part of the unparished city centre. However, Members at the Connectivity and Local Democracy Working Group noted that the number of properties expected in

	this development site would, if they became part of Chignal, comprise around two-thirds of the total number of households and would therefore change the nature of Chignal considerably. Access is primarily to the south, into the unparished area of the City Centre, and the development is considered more likely an extension of the City Centre rather than an extension of Chignal. As such, the recommendation is that this area should become part of the unparished are.
	Further changes are discussed below in more detail in light of the Beaulieu development and Channels area (including Fairway Drive and surrounds). The map shown below (area X4) shows the extent of the new parish, which will take on part of Broomfield parish.
Draft	Adjust the boundary such that the area shown as BLW on the map
recommendation	becomes part of Broomfield parish.
	The area surrently only between Chianal and Dresonfield navishes
	The area currently split between Chignal and Broomfield parishes (labelled CB on the map) to become part of the same area, and
	this should be the unparished City centre.

Area BLA: The area proposed to become part of Broomfield parish from Little Waltham.

Area CB is currently split between Chignal and Broomfield. The proposal is that this becomes part of the unparished City Centre.

Area X4 is the new parish area, part of which is currently in Broomfield parish.

4.79. Governance arrangements

Electorate	4,525
Changes in electorate due to proposed boundary	- 793 in changes listed further
changes	in the report (due to the new garden village development) – 18 from the Hollow Lane
	area
	+ 44 from Petty Croft

informal	new major development in terms of alignment with the existing
consultation	historic parish identities, interests and governance.
Feedback from first	4 paper responses, of which one focussed on the unparished area
formal consultation	of the City; two advocated no change; and one felt a new parish
	area was needed to serve the new development.
	11 electronic responses, including a detailed submission from the
	parish council. These include several advocating the new
	development become a separate parish (although one, from a
	resident, suggesting it become part of Little Waltham).
	The submission from the parish council clearly expressed their
	view: "In relation to the prospective new Garden community which
	would predominantly within the Parish of Little Waltham, it is noted
	that this would be a substantial development, and also that the
	ethos of Garden Communities is that assets are owned by the
	Community as a whole. In the circumstances the Parish Council
	takes the view that the most feasible way forward would be for a
	new Parish Council to be set up to encompass that Garden
	Community rather than becoming part of an existing Parish."
	They also advocate for the boundary change between Broomfield
	parish and Little Waltham, proposed above.
	Finally, they suggest the whole of the Channels development
	should be part of Little Waltham parish.
Development	There are two major areas of development – the Beaulieu site, and
	the area to the north of Broomfield hospital (discussed above).
	() () () () () () () () () ()

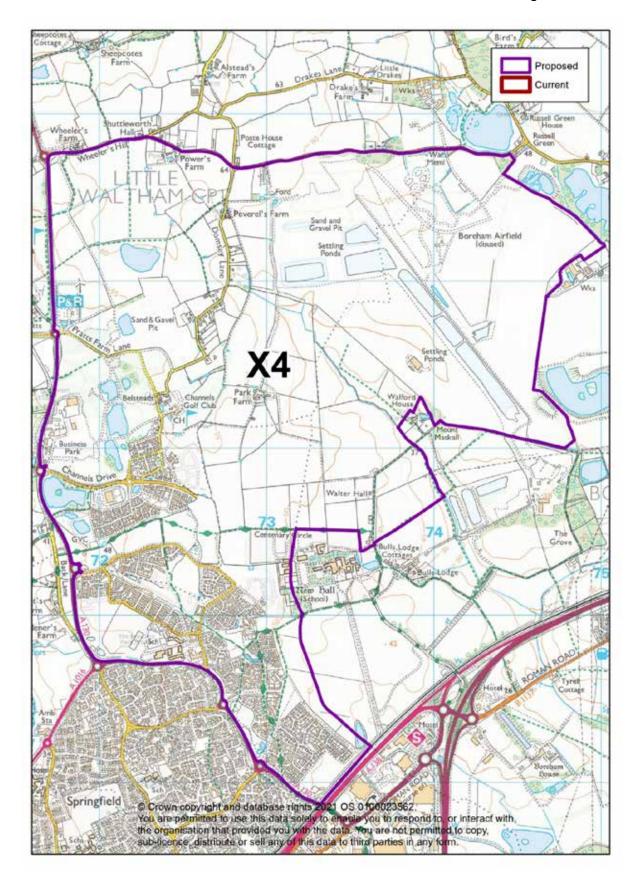

Parish area	Springfield
Parish wards	Chelmer Village & Beaulieu Park Ward
	North
Feedback from	Of the 15 responses, 10 felt changes were necessary whilst the
informal	remaining 5 did not.
consultation	The views expressed in the informal consultation were echoed in
	the first formal consultation – namely regarding the Beaulieu
	development and the area of 'old Springfield'.
Feedback from first	13 paper responses, and 61 electronic responses.
formal consultation	A small number advocated for abolishing parish councils. Most,
	however, supported the role of the parish council. There were
	three major areas raised in the submissions received:
	(1) The Beaulieu development. Most responses supported this
	being outside of Springfield parish, although a small
	number wished to include the entire development within
	Springfield. In their own submission, Springfield Parish
	Council suggested the Beaulieu development becoming a
	separate area and not part of the parish.
	(2) Chelmer Village and Chancellor Park area. A number of
	responses, including that of Springfield Parish Council, felt
	this should be a new separate parish area.
	(3) The historic parts of Springfield, currently within the
	unparished area. A number of respondents, including
	Springfield Parish Council and a small number of residents
	in the area, felt that Springfield parish should include the
	historic areas currently part of the unparished City centre.
	However, the majority of residents in this area have not

	been consulted on this suggestion and so not responded to it.	
Development	Aside from the Beaulieu development, no other major development is currently identified within the parish of Springfield.	

4.83. Beaulieu Development

- 4.84. There is scope to split the development into sections, and to place different parts in different parishes. However, this would not recognise the community interests and identities and would not lead to effective or convenient local government.
- 4.85. There are a wide range of possible options, some of which have been raised through the consultations. These include
 - (1) no change,
 - (2) creating a series of new parishes,
 - (3) creating a single new parish,
 - (4) splitting the developments between parish areas, and
 - (5) retaining them as a single community.
- 4.86. Some suggestions included the development site alone, whilst others considered taking a large part of existing parishes.
- 4.87. Whilst it is difficult to establish the community interests and identities of the as-yet unfinished development, it is likely (and has been seen in the Little Channels community) that the identities are distinct from the existing older parishes. It is preferable to include new developments together, rather than split them artificially, and that would lead to the most effective and convenient local governance arrangements. On that basis, it would appear the entire of the development be included be included as a single parish. In addition, given it is distinct from existing parishes, creating a new parish to cover this development would be preferable to allocating to any of the existing parishes.
- 4.88. With this in mind, and given this does ensure the local identities and interests are reflected within governance arrangement and allows for effective and convenient local governance, the question to be considered is exactly where to align the boundaries. This has been discussed and reviewed by the Working Group, with the following accepted as the proposed Draft Recommendation.
 - (1) The existing Channels development (Fairway Drive and surrounds) is in one parish, as well as combining the new development into one new parish. The western edge is clearly identifiable as the A130, with the proposed boundary running along the centre of the road. To the north, the boundary can run along the southern edge of properties on Wheelers Hill, and then along the southern edge of the properties on Cranham Road, taking in the Boreham airfield (new country park) area.

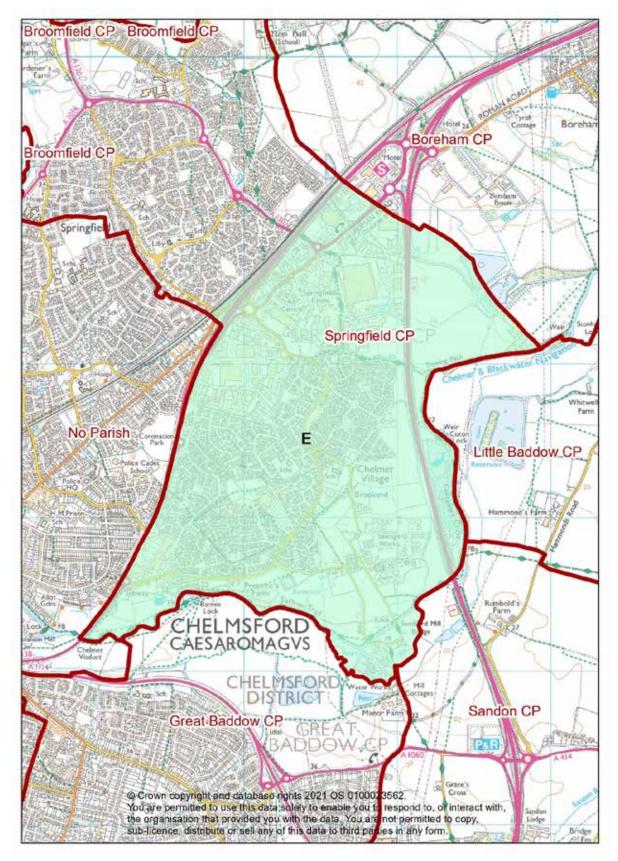

The southern edge follows the edge of the planned development in the current Boreham parish, then down the existing Springfield parish boundary down to the A130 White Hart Lane, then up the Essex Regiment Way. The Beaulieu Park area (currently in Springfield parish) is included in the new parish area.

- 4.89. Whilst this new garden village is currently known by a number of different names, Members at the Connectivity and Local Democracy Working Group felt the name of the new parish should be subject to consultation. As such, the two names to be offered in the consultation are recommended to be:
 - (1) Belsteads
 - (2) Chelmsford Garden Community

4.90. Chelmer Village and Chancellor Park

- 4.91. A number of respondents suggested that Chelmer village and Chancellor Park should be a new parish in their own right, separate from Springfield parish. This would be the entire of the current Chelmer Village and Beaulieu Park ward to the east of the A138, with the smaller area to the North West of the A138 remaining in Springfield parish. If this new parish were created, it would comprise around half of the current electorate of Springfield parish.
- 4.92. In terms of the two statutory tests, it is conceivable that this community has distinct interests and a different identity to the rest of the current Springfield parish, owing to the clear boundaries between this and other parts of the parish. In terms of effective and convenient local government, a new parish representing this area would also meet that need given it is of sufficient size both geographically and electorally.
- 4.93. Given the current parish council, and a small number of other respondents, support this idea it appears prudent to consider it, alongside the other proposed changes in this area. This area is shown as Area E in the map below.

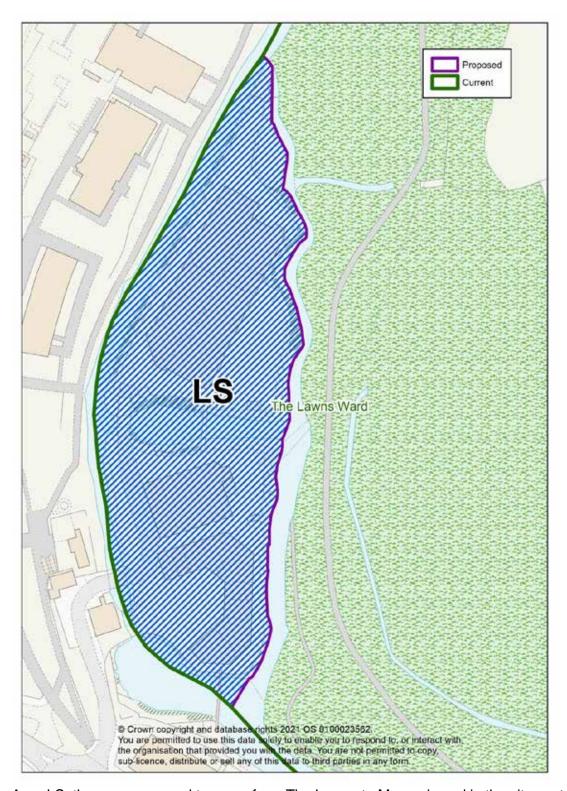

Area E: The proposed new parish of Chelmer Village.

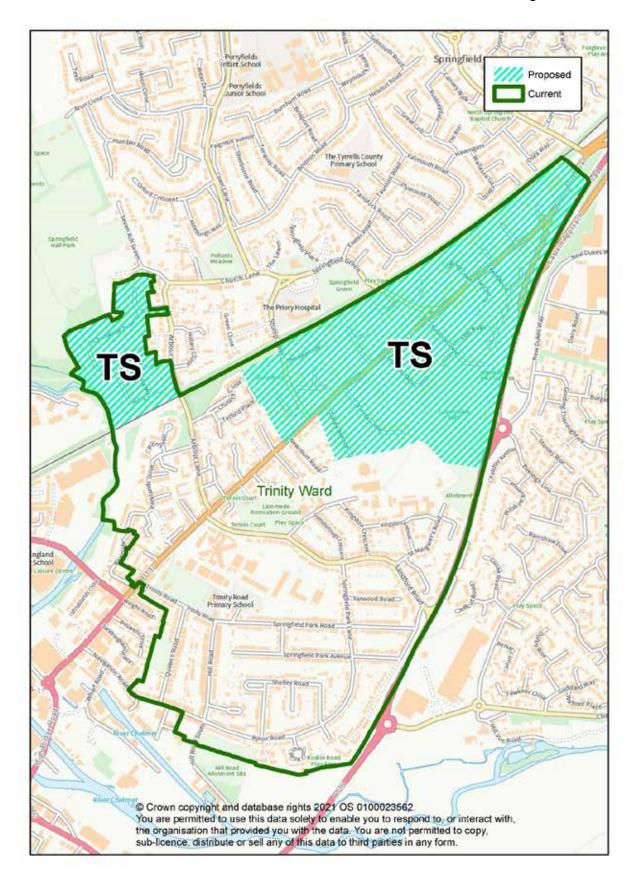

4.94. Historic Springfield

- 4.95. Within Springfield parish, a number of respondents noted that parts of the older historic community are not part of the parish but are part of the currently unparished area. There is, however, a question of exactly where the boundary of Springfield lies. Again, there are a number of options:
 - (1) Option 1

 No change to the southern Springfield parish boundary.
 - (2) Option 2
 Extend Springfield parish to include the area to the east of the A1016 (north of Anglia Ruskin campus), north of the River Chelmer (northern channel).
- 4.96. Members of the Connectivity and Local Democracy Working Group discussed the extent of the expansion of Springfield parish in some detail, taking consultation responses and local knowledge into account. The recommendation is that the entirety of The Lawns move to Springfield parish (with a slight adjustment at the southern boundary such that the development at Rivermead Industrial Estate is included in the unparished area, and not part of The Lawns within Springfield; this will be resolved by adjusting the boundary to follow to the north of this site (area LS on the map below).
- 4.97. In addition, consideration has been given to the extent of how far south within Trinity Ward local people identify more with Springfield than the urban City Centre. The proposed boundary therefore follows the southern edge of the allotments off Stump Lane, taking in Pearson Grove, then north along Springfield Road to the footpath between New Court Road and Oaklea Avenue, and then following the northern boundary around the Police Headquarters site. The area to the north of this line (marked TS on the map) is proposed to become part of Springfield parish; the area to the south remains in the currently unparished area. This was further discussed subsequently at Governance Committee and Chichester Drive and Hill View Road were added to the area proposed to move to Springfield Parish Council rather than remain within the unparished area.

Area LS, the area proposed to move from The Lawns to Marconi ward in the city centre.

Area TS, the area proposed to move from Trinity Ward (unparished city centre) to Springfield parish.

- 4.98. Overall, therefore, there are three changes proposed for Springfield parish. Given the extent of these changes, a targeted questionnaire to local residents should be circulated to households in these areas, explaining the proposal and the impact thereof, to allow them to make informed responses.
 - (1) Adjust the northern boundary such that the whole of the new development is in a new parish of its own.
 - (2) Amend the parish such that Chelmer Village and Beaulieu Park parish ward to the east of the A138 become a parish in their own right, with the area to the north west of the A138 joining the North ward of Springfield parish.
 - (3) Amend the parish such that The Lawns and Trinity wards become part of the parish of Springfield, with the southern edge adjusted as noted above.
- 4.99. There would, however, be two further matters that would need to be considered (and if confirmed can be discussed with the working group):
 - (1) The area in the North-West of this existing parish ward would become part of the current North ward of Springfield parish; consequential amendments would be requested to align the boundary change with the City Wards and County Divisions.
 - (2) Whilst the current parish of Springfield would continue in name, the boundaries would be altered considerably. As a result, it would be necessary to fully assess the assets of the current parish to ensure they were fairly and appropriately attributed to the new parish councils.

4.100. Governance arrangements

(1) Boreham

Electorate	2,818
Changes in electorate due to proposed boundary	0 (no electors currently in the
changes	area to be moved)
Proposed electorate	2,818
Current number of parish councillors	11
Ratio (electors per parish councillor, rounded)	256
NALC recommendation (1988 guidance)	11
Notes on recent elections	No recent contested election
	2 unfilled seats in 2019
Proposed number of parish councillors	11 – no change

(2) Little Waltham

Electorate	1,253
Changes in electorate due to proposed boundary	- 362 existing electors moving
changes	to new parish
	 44 electors moving to
	Broomfield (Petty Croft, noted
	above)
Proposed electorate	847

Current number of parish councillors	9
Ratio (electors per parish councillor, rounded)	139
NALC recommendation (1988 guidance)	7
Notes on recent elections	Contested election in 2007
	3 unfilled seats in 2019
Proposed number of parish councillors	7 – a reduction of 2 reflecting
	the reduction in the number of
	electors.

(3) Chelmer Village: New parish

Electorate	6,825
Changes in electorate due to proposed boundary	New parish
changes	
Proposed electorate	6,825
Current number of parish councillors	n/a
Ratio (electors per parish councillor, rounded)	n/a
NALC recommendation (1988 guidance)	15
Notes on recent elections	n/a
Proposed number of parish councillors	15 parish councillors for this
	new parish, based on NALC
	recommendations

(4) Springfield (following boundary changes above)

Electorate	North ward: 7,376 less 990 to new parish (giving 6,386)
	The Lawns 4,214
	Trinity 1,817
Changes in electorate due to proposed boundary	n/a
changes	
Proposed electorate	12,417
Current number of parish councillors	n/a
Ratio (electors per parish councillor, rounded)	n/a
NALC recommendation (1988 guidance)	n/a
Notes on recent elections	n/a
Proposed number of parish councillors	19, as follows:
	10 North
	3 Trinity
	6 The Lawns

(5) New parish (Belsteads / Chelmsford Garden Community)

Electorate	n/a (new parish)
Changes in electorate due to proposed boundary	1261 from Springfield
changes	(Chelmer Village and Beaulieu
	Park ward)

	990 from Springfield (North ward) 793 from Broomfield 362 from Little Waltham
Proposed electorate	3,406
Current number of parish councillors	n/a
Ratio (electors per parish councillor, rounded)	n/a
NALC recommendation (1988 guidance)	n/a
Notes on recent elections	n/a
Proposed number of parish councillors	7

4.101. Draft recommendations:

- (1) Changes to parish boundaries:
 - a. Create a new parish with 7 parish councillors. (Map area X4)
 - b. Create a new parish of Chelmer Village, comprising the existing parish ward less the north-west corner which will move to the new proposed parish. (Map area E)
 - c. Include parts of The Lawns (all except the southern boundary noted above) and Trinity as noted above within Springfield parish as new parish wards.
- (2) The parish names in this area would be:
 - a. Boreham (no change)
 - b. Little Waltham (no change)
 - c. Belsteads *or* Chelmsford Garden Community (new parish name subject to consultation)
 - d. Chelmer Village (new parish)
 - e. Springfield (substantially different parish boundary)
- (3) The number of parish councillors would be:
 - a. Boreham: 11 (no change)
 - b. Little Waltham: 9 (no change)
 - c. Belsteads or Chelmsford Garden Community: 9 initially (new parish)
 - d. Chelmer: 15 (new parish)
 - e. Springfield: 19 (substantially different parish boundary), warded as set out above

The currently unparished City Centre area

- 4.102. The currently unparished area of Chelmsford city comprises around 51,000 electors (although reduced to around 42,000 if parts of The Lawns and Trinity become part of Springfield parish as above). There are three options for this area, regardless of other changes discussed above.
 - (1) Option 1
 Leave the area unparished.
 - Option 2
 Create a single parish to cover the whole area, with wards reflecting the City wards (warding in this way is a legal requirement if a parish is created).
 - (3) Option 3
 Create a number of smaller parishes to cover some or all of the area.
- 4.103. Given the City is currently a single area, with many diverse and distinct communities, it is likely that the identities and interests of residents are broadly aligned. Splitting the area into smaller parish areas is therefore unlikely to improve representation, particularly as existing City wards do not follow community lines as such. Therefore, the question is whether the City should be parished or not.
- 4.104. If it is parished, it would be a large parish (42-51,000 electors) although not the largest (there are currently over 73,000 electors in Sutton Coldfield for example). With the parish wards put in place, this would not be unwieldy.
- 4.105. There are advantages and disadvantages to implementing a parish. From a community governance perspective, however, there are only two key questions namely, do the arrangements reflect the identities and interests of the local community (which we have concluded they do), and do they allow for effective and convenient local government. By this, we mean can decisions affecting local people be made effectively, can local residents have their views heard and represented, and can those arrangements work appropriately. The City council, in making decisions, must also have regard to any other arrangements already in place to allow for local residents to make their views heard and their concerns to be addressed.
- 4.106. Through the consultations to date, there have been a range of views expressed as to whether the unparished area should be parished or not. Some of these are from residents within the area, and some from people outside. However, most comments did not reflect issues of identity and interests, nor effectiveness or convenience of local governance arrangements.

Area	Unparished city centre	
Feedback from	68 responses supported the idea for a variety of reasons, 17	
informal	expressed opposition and 4 were unsure	
consultation		
Feedback from first	49 responses received on paper, and 238 electronically. Of these,	
formal consultation	some advocated creating a single new parish council to cover the	
	city centre, some advocating creating multiple parish councils, and	
	some advocated no change stating they felt adequately	

represented already and they felt no need for additional layers of governance. Some identified areas that could become part of existing neighbouring parishes or new small parish councils of their own:

- Old Moulsham, to allow for tree planting and use of local facilities; both of these are outside the remit of a CGR.
- Moving properties to Writtle on the basis of house prices;
 these are outside of the remit of a CGR.
- Changing arrangements for the 'Old Springfield' area, as discussed above.

In addition, a number of respondents advocated for new parish governance arrangements for the city centre, despite living outside of the area. Whilst these views are valid, they carry less weight than those of local residents directly affected by any proposed changes.

Of the 238 electronic responses, 57 did not want additional governance arrangements, and 175 said they felt the area would benefit from them. Of these 175, 134 said they would like an elected tier of government. There were a range of comments, both in favour and against creating a new tier of local government in the city centre. Some respondents felt unrepresented, whilst others felt they were adequately represented by existing arrangements.

- 4.107. In reality, an open consultation with no defined initial proposal will never be able to generate consensus. It is true that 134 respondents indicated they wanted an elected lower tier of government put in place, but this is 134 responses (some from outside the area) out of 51,000 local electors. It appears, therefore, that there is an absence of a groundswell of opinion demanding a parish council. In the absence of strong opinion, the default is to retain the status quo.
- 4.108. Further detailed analysis of responses received during the consultation are included in the box below.

As part of the consultation, respondents were asked:

"Do you think the area would benefit from an additional form of community governance?" (Yes / No / Unsure)

with a second question:

"What style of community governance do you think would work well in this area?" (With options for a range of different styles of community governance)

Of the 117 respondents who live within the currently unparished City Centre, who answered 'yes' to an additional form of community governance, and 'An elected tier of local government at parish, community or neighbourhood level' to the second question, a total of 107 were from residents, 8 from local councillors, and 2 from local organisations. These 107 residents are from a population of 51,000 electors (representing approximately 68,000 local residents).

Of those 107 residents, 29 live in The Lawns or Trinity wards, which are possibly becoming part of Springfield parish. That leaves 78 responses from local residents who indicated a support for a parish council in their area.

Of these 78 responses:

Cited representation (not necessarily that they feel under-	
represented)	46
Wants elected representatives, not officers, making decisions Cited City Council or County Council issues (highways, pavements	13
etc)	5
Has had previous experience of a parish council	5
Want a parish council for a specific area only	2
Wants a named contact to feed comments to	2
Wants things left "as is" with no parish council	1
Other (includes funding, local facilities, or no specific reason)	4

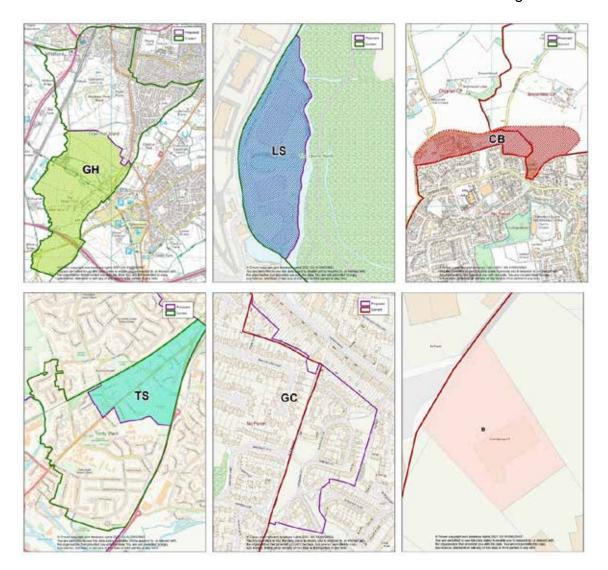

Respondents were also asked for their views on how boundaries could be drawn, and their reasons for those views. Those comments (from the 78 responses) included the following, which suggest the respondents may not have intended to suggest they wanted to have a parish council:

- "Can't see what is wrong with the current arrangement. Lacking explanation and reasoning."
- "Using existing council wards will be easier and more cost effective rather than setting up new areas."
- "The boundary should include the whole of the Central Area of Chelmsford, which is presently covered by a parish council."
- "The existing set up is fine, as long as it is adjusted to allow for new parishes."
- · "Leave things alone, not broke, so don't fix it."
- Too many different bodies responsible for different areas can be confusing (as with roads/ pavements/ grass verges and Essex County Council and Chelmsford City Council) Keep it simple in peoples' minds.
- 4.109. CGR guidance is clear that communities should be identified ahead and that the views of residents should be taken into account in making recommendations. In light of all the available evidence submitted through the consultation, the independent consultant and the Monitoring Officer advise that there is a lack of evidence to support a decision that the Draft Recommendation for the city centre to become parished (either one parish or multiple parishes).
- 4.110. Following discussion at the Working Group, it was agreed that the only Draft Recommendation that is supported by evidence is to make no further change to the City Centre (save for those noted previously in the report and outlined below). That is, there is no proposal to create a new parish council (or councils) to serve the city centre. As such, the Draft Recommendation is for no further change.

4.111. Draft recommendations:

- (1) **Change** the boundaries, such that the southern part of Goat Hall ward moves to Galleywood parish (area GH)
- (2) **Change** the boundaries, such that The Lawns move to Springfield, other than the southern-most area (area LS)
- (3) **Change** the boundaries, such that northern part of Trinity ward to move to Springfield (area TS)
- (4) **Change** the boundaries, such that the Hollow Lane area, currently in Chignal and Broomfield parishes, moves to the city centre (area CB)
- (5) Change the boundaries, such that 30 Petrel Way, Regal Close, Goodwin Close, Bawden Way and the entirety of Waterson Vale, move to the city centre (areas B and GC)

Agenda Item 6

Non-area specific submissions

- 4.112. In addition to area-specific comments, some respondents made submissions to the initial consultation that covered more than one area. These covered the following broad topics:
 - (1) Repeating representations made elsewhere, so already noted previously in this report.
 - (2) Commenting that parish councils should be abolished as a general principle.
 - (3) Commenting that parish councils are not currently listened to by other tiers of government.
 - (4) Submissions concerning matters outside of the remit of a CGR, such as Parliamentary Constituencies, City Wards, County Divisions and planning matters.

Consequential amendments

- 4.113. There are some draft recommendations that, if adopted, would require a consequential amendment to City ward and/or County Division boundaries to ensure ongoing co-terminosity. This ensures effective, convenient and transparent local governance.
- 4.114. Once the Draft Recommendations are accepted for consultation by Council, officers will contact the Local Government Boundary Commission for England (LGBCE) to discuss consequential amendments. The LGBCE are the body responsible for internal City and County boundaries. Their feedback will be brought back after the public consultation to allow Members to determine the final recommendations of this CGR.
- 4.115. The areas affected are:
 - (1) Great Baddow boundary change affecting City Ward and County Division boundaries
 - (2) Beaulieu parish (new parish) City Ward and County Division boundaries
 - (3) Chelmer parish (new parish, with adjusted boundary at the north-western corner)

 City Ward and County Division boundaries
 - (4) Trinity Ward City Ward and County Division boundaries, potentially
 - (5) The Lawns ward adjusting the southern boundary of the City Ward and County Division
 - (6) Goat Hall Ward City Ward and County Division boundaries, potentially
 - (7) The Hollows area City Ward and County Division boundaries
- 4.116. Note that the draft recommendation affecting Broomfield / Little Waltham does not affect any existing City Ward or County Division boundaries.

5. Summary of Draft Recommendations

- 5.1 The list below outlines the draft recommendations being taken forward to public consultation.
 - (1) Areas with no change to boundary or number of parish councillors:
 - a. East Hanningfield
 - b. Good Easter
 - c. Great Waltham
 - d. Highwood
 - e. Pleshey
 - f. South Hanningfield
 - g. South Woodham Ferrers
 - h. Stock
 - i. Woodham Ferrers and Bicknacre
 - (2) Areas with no change to boundary, but changes to the number of parish councillors:
 - a. Danbury reduce the number of parish councillors from 15 to 12
 - b. Little Baddow reduce the number of parish councillors from 9 to 8
 - c. Great and Little Leighs increase the number of parish councillors from 9 to 10
 - d. Margaretting reduce the number of parish councillors from 9 to 7
 - e. Roxwell reduce the number of parish councillors from 9 to 7
 - f. Sandon increase the number of parish councillors from 7 to 8
 - g. West Hanningfield reduce the number of parish councillors from 9 to 8

(3) Other areas:

- Mashbury (parish meeting) no changes to boundary or governance arrangements, but a targeted consultation of residents to take place regarding whether residents feel local community governance would be more effective and efficient by being part of Chignal parish.
- b. Runwell create a new parish ward for St Lukes, to be served by 2 parish councillors. East and West wards of Runwell to be served by 4 and 7 parish councillors respectively.
- c. Chignal Hollow Lane area to move to currently unparished city centre.
- d. Writtle adjust the parish ward boundary to follow the polling district boundary, and adjust the parish councillors by parish ward in the North and South wards to 7 and 8 respectively.
- e. Galleywood remove the parish wards, amend the parish boundary such that the southern part of Goat Hall ward becomes part of Galleywood (222 electors), and increase the number of parish councillors from 9 to 12.
- f. Great Baddow adjust the boundary such that 30 Petrel Way becomes part of the currently unparished city centre; adjust the boundary such that Regal Close moves from Baddow Road parish ward of Great Baddow to the currently unparished city centre; adjust the boundary such that Goodwin Close, Bawden Way and the balance of Waterson Vale move from Rothmans ward of Great Baddow to the currently unparished city centre
- g. Rettendon no changes, but a targeted consultation of residents to take place regarding a range of alternative options.

- h. Broomfield adjust the boundary such that Petty Croft becomes part of Broomfield; adjust the boundary such that the new development north of the hospital becomes part of Broomfield; adjust the boundary such that the Hollow Lane area moves to the currently unparished city centre; adjust the boundary in the east to accommodate the new Chelmsford Garden community.
- i. Boreham adjust the boundary to create the new parish (no electors are affected by this change).
- j. Little Waltham adjust the boundary to create the new parish; Petty Croft and the new development north of Broomfield hospital to move to Broomfield; reduce the number of parish councillors from 9 to 7.
- k. Create a new parish of Chelmer Village, from part of the current Chelmer Village and Beaulieu park parish ward of Springfield.
- I. Extend Springfield parish to include The Lawns ward (except the new development in the south-west corner, which will become part of Marconi ward) and the northern part of Trinity ward; part of Springfield moves to the new Chelmsford Garden community; part forms the new Chelmer Village. Springfield to be served by 19 parish councillors (10 for North ward, 3 Trinity, 6 The Lawns).
- m. Create the new Chelmsford Garden community, comprising parts of Broomfield, Little Waltham, Boreham and Springfield parish, and consult upon the name of the new parish (either Belsteads or Chelmsford Garden Community); to be served by 7 parish councillors initially.
- n. The remainder of the City Centre, other than the changes noted above (The Lawns, northern part of Trinity ward, southern part of Goat Hall ward) to remain unparished; Hollow Lane area of Chignal and Broomfield parishes to become part of the unparished city centre.

6. Next steps

- 6.1 Following agreement at Committee, Full Council will be asked to endorse the submissions and publish the Draft Recommendations. From there, a full public consultation will commence, including targeted consultations in the specific areas noted.
- 6.2 Following the close of the consultation, the submissions will be reviewed and Final Recommendations drawn up for discussion and subsequent agreement by the Working Group, Committee and Council.

List of appendices:

Annex 1: Terms of Reference for the Community Governance Review (as modified by Council 21st July 2021)

Annex 2: Redacted responses

Background papers:

The attached Annexes

Corporate Implications

Legal/Constitutional: These are set out in the report and Terms of Reference. There is a risk that failing to follow the CGR process as set out in legislation and guidance may lead to a legal challenge by way of Judicial Review. This would represent a significant legal, financial and reputational risk to the City Council.

Financial: Some additional costs in relation to the next stage of the consultation will arise, and approval has been granted for this.

Potential impact on climate change and the environment: None.

Contribution toward achieving a net zero carbon position by 2030: None.

Personnel: None.

Risk Management: There is a risk that failing to follow the CGR process as set out in legislation and guidance may lead to a legal challenge by way of Judicial Review. This would represent a significant financial and reputational risk to the City Council.

Equality and Diversity: Changing community governance boundaries and local governance arrangements has no impact on equality and diversity. A small number of electors may be affected if their property becomes part of a different electoral area as their polling station may change as a result. However, polling places are outside of the immediate scope of this review and are reviewed and approved by Council, taking into account accessibility for all electors. The method of communication and community engagement for the next stage of consultation will need to take equality, diversity and accessibility into account.

Health and Safety: None.

Digital: None.

Other: None.

Consultees:

A full public consultation has been carried out

Relevant Policies and Strategies:

Our Chelmsford Our Plan – Bringing people together, empowering local people and working in partnership to build community capacity, stronger communities through encouraging participation in local democracy, increasing representation of community interests to help people feel better represented at a local level and more involved in deciding how best the interests of their community can be met.

Annex 1: Terms Of Reference

1. Terms of Reference for a Community Governance Review

- 1.1 Chelmsford City Council has decided to undertake a Community Governance Review (CGR) under the provisions of the Local Government and Public Involvement in Health Act 2007 ("the 2007 Act").
- 1.2 The review will comply with the legislative and procedural requirements set out in the 2007 Act as well as any statutory guidance (this currently includes Joint Guidance produced in 2010 by the Department for Communities and Local Government and the Local Government Boundary Commission for England). It will follow the approach set out in the Terms of Reference, including the indicative timetable.
- 1.3 The review will initially consider the whole of the City of Chelmsford area but concentrate on those areas where issues to address are, or become, apparent. The City area currently has 27 parishes (25 parish councils, 1 Town Council and 1 parish meeting) and an area in the central part of the city which currently has no parishes. The area covered by the review is set out on the attached map in Section 3 below.
- 1.4 The review will consider whether community governance arrangements across the District area are suitable, taking account of areas where housing developments have occurred or are proposed, with a view to ensuring these remain fit for purpose for the future. The review will also consider whether it is appropriate to parish unparished wards, including whether to create new parish council(s) or make changes to existing parish arrangements.
- 1.5 The Council is keen to encourage all interested parties to engage in this important project and has already proactively undertaken early consultation, which secured over 220 responses from various bodies and interested parties.
- 1.6 The Council is developing an area on its website for the Community Governance Review. This area will be developed further to include maps and statistical information together with updates that will be published as the review progresses. A summary of the results of the early consultation will be included in this area. All relevant consultation responses, available evidence and legal considerations (including those referred to in paragraph 1.2 above) will be used to help inform the decisions made during this review.

2. Reasons why a Community Governance Review is being proposed at this stage

The benefits and timing of undertaking a community governance review are set out in Section 2 of the Joint guidance referred to in paragraph 1.2 of the Terms of Reference. It is good practice for the Council to consider undertaking a community governance review every 10-15 years. The Council has decided to exercise its discretion to undertake a community governance review so that it can determine whether it is appropriate to parish the unparished wards and whether changes are necessary as a result of housing developments (including proposed developments) in the area. The Council will also consider any other community governance related proposals that may arise during the review.

4. Next steps including an indicative timescale for the Chelmsford Community Governance Review 2020-2023

9 December 2020	Full Council to approve Terms of Reference for the Community Governance Review
Mid-January to end-March 2021	Formal initial Community Governance Review consultation
June-July 2021	Consideration of responses and preparation of draft recommendations (including any recommendations to the Local Government Boundary Commission for England) by Connectivity and Local Democracy Working Group
September 2021	Governance Committee consideration and Full Council approval of draft recommendations
September- November 2021	Further Public Consultation on draft recommendations
Winter 2021/22	Formulation of final recommendations (including any recommendations to the Local Government Boundary Commission for England) by Connectivity and Local Democracy Working Group and Governance Committee.
23 February 2022	Final recommendations to be considered by the Full Council
By Spring 2022	Approval of community governance orders and consequential matters in place by Spring 2022 for implementation 2023 local and parish cycle of elections (further time will be taken for implementation should it be necessary to consult/make recommendations to the Local Government Boundary Commission for England)
May 2023	Parish Council elections to be held under any new arrangements that may be decided

Annex 2 : Redacted responses

Responses covering local areas

Where a respondent did not give an answer, the question is not shown.

8	Respondent type: Local resident Do you think we should make changes to the warding arrangements within the parish? I don't know	Area: Great Baddow Do you think we should make any changes to the grouping status of the parish/town councils? I don't know	Would you like to keep a parish/town council in your area? Yes - I think the current arrangements are the best fit for my area What do you think should change regarding the grouping status?	Do you think we should make any changes to the current boundaries? No (they are fine as they are)	Do you think we should change the name of your parish council? No	Do you think we should change the number of councillors on the parish council? I don't know
ID: 9 ID: 9	Respondent type: Local resident Do you think we should make changes to the warding arrangements within the parish? No	Area: Chignal Do you think we should make any changes to the grouping status of the parish/town councils? No	Would you like to keep a parish/town council in your area? Yes - I think the current arrangements are the best fit for my area What do you think should change regarding the grouping status?	Chelmsford city area and out of the parish of Chignal. I smaller, mainly rural community. In our recent negotia	Do you think we should change the name of your parish council? No ty for Chelmsford to incorporate the so-called Little Holl value both having our excellent parish council which do tions with Persimmon and Essex Highways over the proten invaluable. It would be a great loss to me not to continuations.	es so many things for the community and being part of a racted road and landscaping works in front of our
10	Respondent type: Local resident Do you think we should make changes to the warding arrangements within the parish? No	Area: Great Waltham Do you think we should make any changes to the grouping status of the parish/town councils? I don't know	Would you like to keep a parish/town council in your area? Yes - I think the current arrangements are the best fit for my area What do you think should change regarding the grouping status?		Do you think we should change the name of your parish council? No rs are from across the villages/hamlets in the parish and fits the needs of the parish. Communication is good/ava	9
11	Respondent type: Local resident Do you think we should make changes to the warding arrangements within the parish?	Area: East Hanningfield Do you think we should make any changes to the grouping status of the parish/town councils?	Would you like to keep a parish/town council in your area? No - I don't think we should have anything What do you think should change regarding the grouping status?	Do you think we should make any changes to the current boundaries?	Do you think we should change the name of your parish council?	Do you think we should change the number of councillors on the parish council?
	Respondent type: Local resident	Area: East Hanningfield	Would you like to keep a parish/town council in your area? No - I don't think we should have anything What do you think we should have instead? We do not need 3 tiers. We should have a Mayor and Parish the current tiers are only required due to the tiers. We don't need the duplication of HR, IT, Legal etc and tension over resposibilities i.e. waste collection vs disposal. Parishes know local and the Government sets policy, the current 2 or 3 tiers are costly and self serving, they are required 'because' of	Do you think we should make any changes to the current boundaries? No (they are fine as they are)	Do you think we should change the name of your parish council? No	Do you think we should change the number of councillors on the parish council? Yes - there should be fewer What do you think should change regarding the number of parish councillors? Only pay parish councillors that are responsible and publically accountable and a clerk. Remove tier 2 and duplication between 1 and 3.
ID: 12	Do you think we should make changes to the warding arrangements within the parish? I don't know	Do you think we should make any changes to the grouping status of the parish/town councils? Yes What do you think should change regarding the grouping status? Group to align changes to removing tier 2 and reducing tier 1 bureaucracy needed to support	tiering. What do you think should change regarding the grouping status? Group to align changes to removing tier 2 and reducing tier 1 bureaucracy needed to support the local government process.	Other Comments: If tier 2 don't know what is needed locally that itself su occurring.	pports this suggestion. If any actions in tier 1 or 3 are no	t held to account, then you have to ask why they are
		the local government process.

	Respondent type: Local resident	Area: Runwell	Would you like to keep a parish/town council in your area? Yes - I think the current arrangements are the best fit for my area	Do you think we should make any changes to the current boundaries? No (they are fine as they are)	Do you think we should change the name of your parish council? No	Do you think we should change the number of councillors on the parish council? Yes - there should be more What do you think should change regarding the number of parish councillors? Increase the number of councillors specifically to allow greater representation for St Luke's park development. The new development has the potential to be a very pleasant area but is lacking in basic facilities such as bins, post box, dog waste etc. Additionally problems with parking etc are not addressed. A councillor responsible for the area would allow these matters and others to be represented at a parish level.
	Do you think we should make changes to the warding arrangements within the parish? Yes What do you think should change regarding the warding arrangements? Separate ward for St Luke's Park Development.	Do you think we should make any changes to the grouping status of the parish/town councils? Yes What do you think should change regarding the grouping status? Group Runwell with Rettendon	What do you think should change regarding the grouping status? Group Runwell with Rettendon

Do you think we should change the number of councillors on the parish council?

ID: 26	Do you think we should make changes to the warding arrangements within the parish?	Do you think we should make any changes to the grouping status of the parish/town councils?	What do you think should change regarding the grouping status? Do you think the area would benefit from an additional form of community governance? Yes	What style of community governance do you think would work well in this area? An elected tier of local government at parish, community or neighbourhood level Please explain your choice: I know from other areas that parish councillors are able to effect real change in local communities with regard to local issues like litter and local park administration. I feel that being non-parished means that the local issues we would like to be examined are not treated as a priority especially as Chelmsford City Council has so many pressures on its time and budget	How should we draw the boundaries to create a new electoral area? Other Please give more details about your suggestions for boundaries: Traditionally parishes would be based around villages and it would be nice if new parishes were located and named after the community it serves e.g. Chelmsford Town, Broomfield or Springfield (I know there is already a parish called Springfield but that covers the newer housing estates above pump lane and Chelmer Village and bizarrely excludes the village of Springfield). I think this would engender a greater sense of community in the local area.	
	Respondent type:	Area:	Would you like to keep a parish/town council in your area?	Do you think we should make any changes to the current boundaries?	Do you think we should change the name of your parish council?	Do you think we should change the number of councillors on the parish council?

	Respondent type: Local resident	Area: Chignal	Would you like to keep a parish/town council in your area? No - I think we should set up an alternative (such as area committees or neighbourhood management arrangements) What do you think we should have instead? We live in little hollows and I feel like we should be part of	Do you think we should make any changes to the current boundaries? Yes What do you think should change regarding the boundaries?		Do you think we should change the number of councillors on the parish council? I don't know
			newlands spring more than the chignals. I get a lot of information from our local parish council that isn't at all relevant to me. I would rather have a Newlands Spring community group for people in our area around the school and Morrison's.	I think little hollows should become part of newlands spring.		
	Do you think we should make changes to the warding arrangements within the parish? Yes	Do you think we should make any changes to the grouping status of the parish/town councils? I don't know	What do you think should change regarding the grouping status?			
	What do you think should change regarding the warding arrangements? I'm not sure exactly how it works but where we are for some very strange reason is not part of the chelmsford voting electorate but somewhere that has nothing to do with us! We would like to vote as part of chelmsford as that is where we live.					
ID: 43	Respondent type: Local resident	Area: Chignal	Would you like to keep a parish/town council in your area? Yes	Do you think we should change the name of your parish council? No	Do you think we should change the number of councillors on the parish council? Yes - there should be more
				What do you think should change regarding the boundaries? The TILE KILN ESTATE should come under the Galleywood Parish Council area. Geographically this would make more sense, as it is "out on a limb" at the moment. Presently Tile Kiln is part of the CENTRAL NON PARISHED AREA, but it is not part of the city center IN CHARACTER. It "feels" like it should be part of Galleywood, and looks like it should be part of Galleywood!	s.	What do you think should change regarding the number of parish councillors? If the boundary was to be increased to include Tile Kiln, the number of Councillors should be amended accordingly. There should be more female representation.
I D : 50	Do you think we should make changes to the warding arrangements within the parish? I don't know	Do you think we should make any changes to the grouping status of the parish/town councils? Yes - I think the current arrangements are the best fit for my area What do you think should change regarding the grouping status?	work well in this area? Community forums Please explain your choice: The unparished neighbourhoods have character and issues specific to them and it is not suitable for them to be represented without more dedicated local knowledge. For example. North Melbourne is not the same as the rest of Melbourne. The demographics are different, the housing stock is different and the issues are different. Do you think we should make any changes to the current boundaries? No (they are fine as they are) Other Comments:	sufficiently. LSOAs can be used as building blocks for each neighbourhood area that will encompass these	Other Comments: It is time to look at undoing some of the deep seated inequalities that the previous Conservative council has cemented into the way Chelmsford is run. Why should Springfield Road have a dedicated road sweeping vehicle to pick up only very small amounts of litter where myself and other north Melbourne residents have to do the litter picking for ourselves. The council tax £ per metre along our roads is far far higher than the council tax £ per metre along Springfield Road. It feels like we are subsidising wealthier areas to have better city council services. Do you think we should change the number of councillors on the parish council? No
ID: 62 ID: 62	Local resident	Area: Springfield Do you think we should make any changes to the grouping status of the parish/town councils? What do you think should change regarding the grouping status? Do you think the area would benefit from an additional form of community governance? Yes	What style of community governance do you think would work well in this area? Area committees Please explain your choice: I see an opportunity for Old Moulsham to form as an "Area Committee" - with our own high street, surrounding businesses and considerable number of people living within the area it feels as if it needs to be looked at as a community independent of the nearby City Centre. I believe that ECC/ CCC should still lead the charge and I feel there is something in having a central body to make decisions rather than bringing in additional forums and groups of people (additional opinions which can sometimes muddy the water) - the Old Moulsham area offers an important different feel to the City Centre it's also where the Chelmsford Museum resides - I feel it should be supported by the ECC/ CCC rather than an additional charge applied to the local residents.	How should we draw the boundaries to create a new electoral area? Based on existing electoral arrangements (such as council wards) Please give more details about your suggestions for boundaries: I believe Old Moulsham is already a Ward? It would make sense to split this in the same way.

ID: Respondent type: 121 Representative of Springfield Parish Council	Area: Springfield	Would you like to keep a parish/town council in your area? Yes - I think the current arrangements are the best fit for my area	Do you think we should make any changes to the current boundaries? Yes	Do you think we should change the name of your parish council? No	Do you think we should change the number of councillors on the parish council? No
			What do you think should change regarding the boundaries? Suggest that the parish boundary is reconfigured.		
ID: Do you think we should make changes to the 121 warding arrangements within the parish? Yes What do you think should change regarding the warding arrangements? The present warding is know as (1) Chelmer Village and Beaulieu Park (2) Springfield North Much of the Beaulieu Park Development falls within Springfield North the naming of the wards does not therefore correlate well with the actual location of the housing.	Do you think we should make any changes to the grouping status of the parish/town councils? Yes What do you think should change regarding the grouping status? Smaller less densely populated parishes would benefit from grouping status more widely than densely populated parishes. A larger densely populated parish experiences very different needs to a smaller more rural parish. Grouping of parishes, if considered appropriate, could perhaps be based on population, allowing a more compatible partnership i.e. more rural settings to group and more densely populated areas to group.	areas to group.	1 to create a new parished area for the Chancellor Park and Chelmer Village areas. 2 Housing and recent development to the north of Chelmsford known as "new Beaulieu" should be separated from the existing Springfield (A130 - white Hart Lane being the boundary). A new parish should be formed taking in new Beaulieu and to also take in parts of Broomfield and Little Waltham. 3 The present Springfield Parish boundary should be reconfigured to include the historic area known as Springfield Green and its surrounding area. Possibly the river Chelmer being the identifying boundary on the western side Other Comments:		
ID: Respondent type: 122 Local resident	Area: Broomfield	Would you like to keep a parish/town council in your area? Yes - I think the current arrangements are the best fit for my area	Do you think we should make any changes to the current boundaries? No (they are fine as they are)	Do you think we should change the name of your parish council? No	Do you think we should change the number of councillors on the parish council? Yes - there should be more
					What do you think should change regarding the number of parish councillors? An increase in councillors to get a broader input of the community, not many people attend Parish meetings, having more councillors may include more voices.
ID: Do you think we should make changes to the 122 warding arrangements within the parish? No	Do you think we should make any changes to the grouping status of the parish/town councils? Yes	What do you think should change regarding the grouping status? Parishes working together in communicating to local authority on development plans etc.

			extra Governance is required for those in the current	See Q10	
			un-parished area. We already have our MP, then		
			County and City Cllrs. This is more than sufficient and		
			the majority of residents probably don't even know		
			who their MP or Cllrs are. I have lived in an unparished area of Chelmsford my whole life and have never felt		
			the need for greater representation. I feel that there is		
			enough already and have always found my local city or		
			county Councillors, accessible enough and happy to		
			look into matters on behalf of their residents. For		
			example, all of the un-parished wards have either two		
			or three City Councillors already. Some of these wards		
			are relatively small on a geographical basis, despite		
			dense populations, but I've never heard of residents		
			asking for extra Councillors, or brand new Councillors		
			to cover a specific area of their ward.		
			The timing of Covid is obviously not ideal and I		
			understand that plans for a Community Governance		
			Review were probably started a while back. However,		
			really think the Council need to consider the current		
			climate and read the room as such. I'm sure a

What do you think should change regarding the grouping status?	What style of community governance do you think would work well in this area?	How should we draw the boundaries to create a new electoral area?	Other Comments: To provide a greater link to the history of the city, I
		Do you think the area would benefit from an additional form of community governance? Yes	An elected tier of local government at parish, community or neighbourhood level Please explain your choice: With the continued growth expansion of housing within the City Centre area, it is my strong belief that the Westlands estate continues to be left behind and the western sector of the City Centre area - namely Westlands, Beachenlea and Widford - are an afterthought. The western sector, broadly similar to the existing Waterhouse Farm/Waterhouse area, would strongly benefit from governance at Parish level. This would provide the area with greater self-reliance to solve local issues (of which there are a number which are not satisfactorily resolved), undertake works for the local good under its own steam and have greater influence with both Chelmsford City Council and Essex County Council. The area continues to suffer from issues relating to the quality and upkeep of highways (very poor particularly in parts of Westlands), poor street lighting in some areas, poor condition bus stops/bus services, a degree of neglect in respect of parks/green spaces, inconsiderate driving and 'vat running' through		would suggest a new parish council be either called Widford or incorporate the name Widford in some way.
ID: Respondent type: 157 Local resident	Area: Stock	Would you like to keep a parish/town council in your area? Area:	What do you think should change regarding the grouping status? Do you think the area would benefit from an additional form of community governance? Yes Would you like to keep a parish/town council in your area?	What style of community governance do you think would work well in this area? Area committees Please explain your choice: In the main I find Chelmsford Council provide a good level of service to the city centre area and would not consider there to be a benefit to having a separate parish council. More important to me would be to have represents of each area of the city centre at the table, so that the council receive local input to aid in their decision making. More over, I would like a similar idea to apply at Essex CC level where I feel local input would more greatly benefit the area - especially surrounding footpaths, cycle paths and highways which can be lacking, or change without local input. Do you think we should make any changes to the current	Do you think we should change the name of your parish	Do you think we should change the number of councillors

99 warding arrangements within the parish?	Do you think we should make any changes to the grouping status of the parish/town councils? No	What do you think should change regarding the grouping status?			
	Area: Danbury	Would you like to keep a parish/town council in your area? No - I don't think we should have anything	Do you think we should make any changes to the current boundaries? Yes	Do you think we should change the name of your parish council? Yes	Do you think we should change the number of councillors on the parish council? Yes - there should be fewer
		What do you think we should have instead? Over the 28 years we have lived in Danbury the Parish Council has discharged the responsibilities which are delegated to it at considerable cost to the village and yet with no tangible benefit other than when Dawson Field and other areas were maintained by the Parish groundsman. Now that the groundsman has retired it is our understanding that he has not (and will not) be replaced. His former duties being contracted in and quite possibly by Chelmsford anyway as they have on occasion in the past. Hence there is no reason why this aspect of maintenance and improvement work in the village should not pass to Chelmsford full time and thereby	What do you think should change regarding the boundaries? Danbury and Little Baddow are cheek by jowl and share many similarities. If Danbury Parish Council were to remain then it is suggested that it should amalgamate with Little Baddow Parish Council to become Danbury and Little Baddow Parish Council. It is suggested that this would bring more real democracy to Parish Council elections which would be contested	What do you think should change regarding the name(s)? Join together with Little Baddow to become Danbury and Little Baddow Parish Council.	What do you think should change regarding the number oparish councillors? Reduce the figure to a level which always brings a contested election, possibly no more than 8-10.
200 warding arrangements within the parish?	Do you think we should make any changes to the grouping status of the parish/town councils?	neutralise the added cost of the Parish Council. A good deal of Parish Council money has been spent in the recent past on Danbury Parish Plan, The Danbury Planning Framework and more recently a Danbury Neighbourhood survey from which we as a household have never seen any results or conclusion. None of the documents mentioned have ever benefited Danbury from a village expressed will point of view despite the Danbury Parish Plan having a staggeringly high return rate to the original village consultation of around 52%. The Danbury Planning Framework which sprang out of it was endorsed and supported by Chelmsford but its requirements have always have innoved by the Drincipal Local Authority when they was they was they was the property of the Parish Local Authority when they was See comment above under 11 & 13 on amalgamation with Little Baddow Parish Council.	Overall it would be better for Danbury if it was fully adr	ministered by Chelmsford but under a binding guaranter relmsford and with no urbanisation permitted along the	e to respect and maintain its separate and unique identit A414 corridor.
warding arrangements? It might help democracy if Parish Councillors were to be elected by specific areas (wards)	What do you think should change regarding the grouping status? See comment above under 11 & 13 on amalgamation with Little Baddow Parish Council.

Yes	Do you think we should change the name of your parish council? No	Do you think we should change the number of councillors on the parish council? No
			What do you think should change regarding the boundaries? Belstead Farm Lane was the original Parish boundary in that area however, that road has been replaced by Channels Drive which follows a slightly different route, which has led to anomalies which do need to be rectified. It acts as a divide between areas of the Channels development. The Parish Council takes the view that Parish boundaries should encompass communities as opposed to dividing them. The section of the new development known as 'Channels' has been built as a self-contained area and many of the residents have expressed to the Parish Council a wish that Channels should be wholly within the Parish of Little Waltham. The Parish Council thus considers that the boundary is amended so that the Channels development is within the Parish of Little Waltham. In relation to the prospective new Garden community which would predominantly within the Parish of Little Waltham, it is noted that this would be a substantial development, and also that the ethos of Garden Communities is that assets are owned by the Community as a whole. In the circumstances the Parish Council takes the view that the most feasible way forward would be for a new Parish Council to be

Having local voices to speak up for the local community. Do you think we should make any changes to the current boundaries? What style of community governance do you think would work well in this area? An elected tier of local government at parish, community or neighbourhood level Please explain your choice: I don't feel represented at a local level and don't feel Chelmsford City Council would represent my concerns because they have a large area to worry about. Might also encourage more people to engage with politics.	Do you think we should change the name of your parish council? How should we draw the boundaries to create a new electoral area? I don't know Do you think we should change the name of your parish council? How should we draw the boundaries to create a new electoral area? Based on existing electoral arrangements (such as council wards) Please give more details about your suggestions for boundaries: By using existing ward boundaries, it would help people understand that their local ward is in essence their local community with common concerns. It would help avoid confusion when it came to voting at city Council elections.	on the parish council? Do you think we should change the number of councillors on the parish council?

ID: Do you think we should make changes to the warding arrangements within the parish?	Do you think we should make any changes to the grouping status of the parish/town councils?	What do you think should change regarding the grouping status?	Other Comments: All is fine as it is		
ID: Respondent type: 238 Local resident	Area: Roxwell	Would you like to keep a parish/town council in your area? Yes - I think the current arrangements are the best fit for my area	Do you think we should make any changes to the current boundaries? Yes	Do you think we should change the name of your parish council? No	Do you think we should change the number of councillors on the parish council? No
			What do you think should change regarding the boundaries? The A414 is now a much more major road and severs the communities either side. In my view the Roxwell Parish boundary should be extended up to the A414 in the vicinity of Radley Green and Cooksmill Green, so there is a more cohesive and logical community identity either side of the main road.

D: Respondent type: 107 Galleywood Parish Council	Area: Galleywood	Would you like to keep a parish/town council in your area? Yes - I think the current arrangements are the best fit for my area	Do you think we should make any changes to the current boundaries? Yes	Do you think we should change the name of your parish council? No	Do you think we should change the number of councillor on the parish council? Yes - there should be more
		area	What do you think should change regarding the boundaries? It should cover a larger area - part of Goat Hall Ward. All unparished areas should be parished. Parishing will give a community a sense of place. A structure to be deployed if further devolution occurs from central government and a local set of eyes, ears and hands to act in accordance with local need. Part of the Goat Hall area nestles alongside parts of Galleywood. There does not appear to be any clear reason why this City ward is unparished. The sense of community for Goat Hall residents would be enhanced by being part of a parish structure. A larger footprint would extend the number of Councillors for Galleywood. If there cannot be an amalgamation, then Goat Hall should have its own Parish Council.		Yes - there should be more What do you think should change regarding the number parish councillors? Galleywood has quite a high number of residents proparish councillor (638). Of the Parish Councils surrounding Galleywood, only Great Baddow has must be written without absorbing all or part of Goat Hall. we fee that another two Parish Councillors would be reasonable, increasing the number form 9 to 11.
Do you think we should make changes to the warding arrangements within the parish? Yes What do you think should change regarding the warding arrangements? No need for East and West wards - just 1 ward for Galleywood	grouping status of the parish/town councils? No	What do you think should change regarding the grouping status?	Goat Hall, with 5786 residents has a very similar size por and would need a minimum of 9 Councillors. It would s would be sensible for the area to be shared by adjoinin The question what function doe wards within Parish Cc designations and often we have parish elections in only	opulation as Galleywood's 5898 residents. It would seem to make sense that Goat Hall has its own Parish Co ig parishes, with a commensurate increase in the numbe ouncil serves? who decides when they exist or not? an ey half of Galleywood as either East of West wards are un is 1 Galleywood, this review should justify the divergence.	uncil. If, however, that option is not available, it perha er of Parish Councillors in those parishes. xample is Galleywood has East and West ward contested as we don't have or just have enough

			I believe that the wards closest to Chelmsford City	boundaries:	
			Centre which are unparished need a Town Council to	Nothing to add to my answer to question 9	
			represent their interests and to coordinate action to		
			make the city centre as good as it can be for the		
			benefit of the residents, visitors and employees in the centre and the wider Chelmsford area. This will be		
			particularly important if there are future changes to		
			upper tiers of local government which curtail the role		
			currently undertaken by the City Council. It would be		
			both more effective and more efficient for this to be a		
			single large Town Council area and not sub-divided to		
			match existing wards. Specifically I think The Lawns ward where I live ("Old Springfield") would fit better		
			within this central Town Council rather than being		
			merged into the existing Springfield parish, but either		
			way a Town Council for the city centre is needed.

ID: Do you think we should make changes to the 584 warding arrangements within the parish?	Do you think we should make any changes to the grouping status of the parish/town councils? No	What do you think should change regarding the grouping status?	· · · · · · · · · · · · · · · · · · ·	I feel strongly that this should not be changed for the sal the existing parish councils, or the residents they already	
ID: Respondent type: 585 Local resident	Area: Unparished area	Would you like to keep a parish/town council in your area?	Do you think we should make any changes to the current boundaries?	Do you think we should change the name of your parish council?	Do you think we should change the number of councillors on the parish council?
ID: Do you think we should make changes to the warding arrangements within the parish?	Do you think we should make any changes to the grouping status of the parish/town councils?	What do you think should change regarding the grouping status? Do you think the area would benefit from an additional form of community governance? Yes	What style of community governance do you think would work well in this area? I don't know	How should we draw the boundaries to create a new electoral area? I don't know	Other Comments: I've not studied the proposals fully, but appreciate there needs to be representation at a local level for those residents outside any parish.
ID: Respondent type: 586 Local resident	Area:	Would you like to keep a parish/town council in your area?	Do you think we should make any changes to the current	Do you think we should change the name of your parish	Do you think we should change the number of councillors

ID: Do you think we should make changes to the 586 warding arrangements within the parish?	Do you think we should make any changes to the grouping status of the parish/town councils?	What do you think should change regarding the grouping status? Do you think the area would benefit from an additional form of community governance? Yes	What style of community governance do you think would work well in this area? Area committees Please explain your choice: St. Andrew's ward, where I live is made up of a varied type of property of private rented, council rented and freehold ownership. I think it should be sub-divided into smaller areas and represented by community, residents or tenants associations. Each association to vote for perhaps 2/3 representatives to represent their interests on an area committee. This would hopefully avoid cliques or pressure groups taking effective control of the committee and supporting projects in its area. An elected Councillor could chair/facilitate the associations and area committee.		Other Comments: I think this will give people a voice on "grassroots" issues.
ID: Respondent type: 587 Local resident	Area: Unparished area	Would you like to keep a parish/town council in your area?	Do you think we should make any changes to the current boundaries?	Do you think we should change the name of your parish council?	Do you think we should change the number of councillors on the parish council?

Do you think the area would benefit from an additional form of community governance? Yes	What style of community governance do you think would work well in this area? An elected tier of local government at parish, community or neighbourhood level Please explain your choice: Traditional system for tier 1	How should we draw the boundaries to create a new electoral area? Other Please give more details about your suggestions for boundaries: Please see comments below	Other Comments: The current Community Governance System in Chelmsford is broken with nearly 40% of residents having no say on local issues, this equates to over \$1,000 citizens. We also see issues with some city councillors sitting as parish councillors . As the leaflet states, Parish Councillors "operate entirely separate from the city council" Traditionally All Saints Church and Old Springfield were part of the Springfield Parish, now they are unparished and their residents have no local say on local issues that affect them. There also needs to be more interaction between the parish councillors and the people of their Parish, and a means of informing the public what parish they are in or if they remain unparished. Thus we need a new parish of 'Old Springfield' . Suggested boundaries are : Brackenden Drive, Pump Lane Springfield Road down to Victoria Road Victoria Road to the River Chelmer The river to Chelmer Valley Road Chelmer valley road to Brackenden Drive The Parish of North Springfield could keep the name of Springfield Parish.

Do you think we should change the name of your parish council?	Do you think we should change the number of councillors on the parish council?
ID: Do you think we should make changes to the 632 warding arrangements within the parish?	Do you think we should make any changes to the grouping status of the parish/town councils?	What do you think should change regarding the grouping status? Do you think the area would benefit from an additional form of community governance? No	What style of community governance do you think would work well in this area? Community associations Please explain your choice: I am concerned about having a Parish Council for Chelmsford City Centre as our council tax is currently lower than areas that have a PC and I would prefer to keep it that way as I am on a low income. There have been occasions where the CCC website directs you to the PC which is when I realised there was not one for this area.	How should we draw the boundaries to create a new electoral area? One large area containing the whole of the currently unparished area Please give more details about your suggestions for boundaries: Although in Broomfield Road/Kings Road, this area is directly impacted by plans relating to the city centre, such as the recent roadworks/cycle provision and developments at the Girls High School (CCHS).	Other Comments: There are too many levels to the current council, too many committees and I think a lot of money is wasted. Things should be kept as simple as possible so it is clear who is responsible - often it feels as if you're passed between ECC and CCC.
ID: Respondent type: 633 Local resident	Area: Unparished area	Would you like to keep a parish/town council in your area?	Do you think we should make any changes to the current boundaries? Respondent type: Local resident	Area: Writtle	Would you like to keep a parish/town council in your area? Yes - I think the current arrangements are the best fit for my area	Do you think we should make any changes to the current boundaries? No (they are fine as they are)	Do you think we should change the name of your parish council? No	Do you think we should change the number of councillors on the parish council? Yes - there should be more What do you think should change regarding the number of parish councillors? There is likely to be a lot of building in the parish. When fully occupied the number of residents will dramatically increase. The increase in PC business will probably necessitate an increase in the number of people who are charged to carry out the duties of the PC.
Do you think we should make changes to the warding arrangements within the parish? Yes What do you think should change regarding the warding arrangements? I don't know if we do have wards or not but if we do, of course there will need to be changes if 800 dwellings are created in one, uninhabited part of the village. A village population increase of over 1,000 people will lead to a great many changes. Not a problem if it is properly planned so that there are road improvements, more school places, another doctors' surgery etc etc. I am far from convinced, however, that this is the case, unfortunately.	grouping status of the parish/town councils? I don't know	What do you think should change regarding the grouping status?	Other Comments: No idea but I think Writtle PC works very well and I'm r	not aware of any impetus locally for change.

				What do you think should change regarding the boundaries? I do not think that Writtle should be responsible for the area North of the Roxwell Road as we do not seem to have had any useful input into the number or areas affected by the new development and it is unfair to expect Writtle council, or the participants of Writtle to support any of the new comers to this area. We are a intact village and I think we should stay that way.

			community governance? Yes	There are and have been attempts to plug some of the gap - eg with Neighbourhood Watch groups - but these only cover specific areas of interest. We have our local City Councillors, of course, but their focus is, as it should be, Chelmsford-wide matters and I imagine they have limited time to devote to purely local issues.	Boundaries might best follow local areas of which Old Moulsham is one. It could also include Moulsham Lodge and Tile Kiln, for example.	
				Within Old Moulsham there are, of course, some City- wide facilities, like the museum, which would fall outside scope but that still leaves plenty for a parish council to be involved in for the benefit of local residents and businesses.

			What do you think should change regarding the		
			boundaries?		
			Once the Warren Farm development is built out the		
			boundary should be reviewed and it should fall into the	e	
			adjoining parish - I think this is Chignal. This seals the		
			effective extension of the urban area of Chelmsford City of which Chignal parish is a part. Left within		
			Writtle it may open up the remainder of the northern		
			part of the parish to encroaching development from		
			the rest of Warren Farm or, in the future, from		
			development proposals arising from WUC. As it is the		
			new residents will lean much more to facilities in		
			Melbourne. Chelmsford etc than in Writtle and hence		
			parish councillors there can look after their needs

What do you think should change regarding the grouping status? Do you think the area would benefit from an additional form of community governance? Yes	What style of community governance do you think would work well in this area? I don't know	How should we draw the boundaries to create a new electoral area? One large area containing the whole of the currently unparished area Please give more details about your suggestions for boundaries: I have made the assumption that the existing structure of Parish Councils etc is working satisfactorily, and considering the financial constraints that all public services are experiencing because of the pandemic, it would seem unacceptable to spend money changing a system that is working. The city centre area may well be too large for a Parish Council, perhaps another structure for local representation would be better, but the most important point is that under current arrangements, residents in the city centre are disenfranchised compared to other local residents.

What do you think should change regarding the grouping status? Do you think the area would benefit from an additional form of community governance? Yes	What style of community governance do you think would work well in this area? An elected tier of local government at parish, community or neighbourhood level Please explain your choice: Chignal estate had little input into Warren farm, in comparison to Writtle, even though the estate is bearing the brunt of the impact of Warren farm	How should we draw the boundaries to create a new electoral area? Based on existing electoral arrangements (such as council wards) Please give more details about your suggestions for boundaries: Either a new parish for the area or extend existing boundaries	Other Comments: During the Warren farm consultation it was clear the chignal road and chignal estate/St Andrews ward were woefully under represented. Writtle parish council had effectively carte blanche to impose their demands on the developer and the chignal residents who, only for a late rally by local residents and Lib Dem councillors, would have suffered untold damage. The new development is within 100 yards of the chignal area, yet residents living over 1.5 miles away were calling the
					shots. Utterly unfair.

Other Comments: Writtle PC functions effectively & professionally in all a work on a very village specific level.	spects of our community business. I firmly believe the b	ooundary should remain unaltered and PC to continue to
ID: Respondent type: 768 Local resident	Area: Broomfield	Would you like to keep a parish/town council in your area? No - I don't think we should have anything What do you think we should have instead? I think the councillors should actually do their job and be answerable to their residents. Ours are very lazy,when you suggest they do something they send you a link saying how to do it yourself. If I ask a councillor to do something such as dea with a tree that has fallen down I expect them to contact the appropriate department and let me know when it's done. I reported some drug dealing and they told me they would get the hedge cut, I expected them to speak to the neighborhood police team and let me know what was happening. There are e-scooters using the cycle path by the avenues endangering residents which once again they have done nothing about despite several requests. They never walk the area and know what needs fixing and ignore peoples requests. Replace the councillors not the system and make them accountable when people tell them things.		Do you think we should change the name of your parish council? No	Do you think we should change the number of councillors on the parish council? Yes - there should be fewer What do you think should change regarding the number of parish councillors? We do not need multiple tiers of local government just councillors who work for their residents rather than themselves.

No (they are fine as they are)	Do you think we should change the name of your parish council? No	Do you think we should change the number of councillors on the parish council?
		What do you think we should have instead? Nothing. ECC and CCC provide enough politicians and bureaucracy. Parish councils cost a lot of money, the bulk of it on bureaucracy. Unparished parts of Chelmsford cost (Banc D CCC) £212.67 p.a. Springfield costs £50.22 MORE. Danbury costs £79.02 MORE; Great Baddow costs £55.35 MORE. Doing away with parish and town councils would save local council taxpayers money. Only LibDems want more politicians and more bureaucracy.

ID: Do you think we should make changes to the 811 warding arrangements within the parish?	Do you think we should make any changes to the grouping status of the parish/town councils?	What do you think should change regarding the grouping status? Do you think the area would benefit from an additional form of community governance? No	What style of community governance do you think would work well in this area? I don't know	How should we draw the boundaries to create a new electoral area? I don't know	Other Comments: Chelmsford Labour Party believe this expansion of parish councils is unnecessary. Parish councils can provide a valuable service, but under current Conservative cuts local authorities are not able to adequately perform their role, and parish councils provide another layer of costs, including possible tax rises for local residents, without improving democratic representation. Parish councillors are not always known by their constituents, and are notoriously difficult to remove if they are not well performing. When we have canvassed the electorate before, it was clear they felt parish councillors would only cost more and felt well represented already by the City Council. We do not believe expanding the unparished area will be beneficial and call on council to reject this motion.

No (they are fine as they are)	Do you think we should change the name of your parish council? No	Do you think we should change the number of councillors on the parish council? Yes - there should be more
					What do you think should change regarding the number of parish councillors? There has been a great increase in the amount of work done by our Parish in the last 10 years or so. With most people having to work until 67, the amount of time each councillor can give to Parish Council is less than previously. I believe the number should be increased to compensate for this and the extra work due to Localisation. Localisation is a good thing and must be continued and expanded therefore needing more Parish Councillors

ose escarresació	Spg.icia	area	Yes	No	No
			What do you think should change regarding the		
			boundaries? I have always lived in Chelmsford and most of that time		
			in Springfield. I currently live in Chelmer Village which		
			is in the Springfield Parish area, but I once lived in an		
			area (Old Court Road) that I considered part of		
			Springfield but is not in the Springfield parish. I would		
			consider that Springfield should include an area going		
			down to at least Arbour Lane and Sandford Road. At		
			present, even All Saints Church Springfield and		
			Springfield Green are not in the Springfield parish. I		
			believe that surrounding areas such as Springfield and		
			Moulsham originally extended down to the rivers in the town centre before Chelmsford was established.		
			You will also have to consider the new Beaulieu and		
			Channels developments, which will soon be large		
			enough to be a parish in their own right.

ID: Respondent type: 880 Local resident	Area: Writtle	Would you like to keep a parish/town council in your area? Yes - I think the current arrangements are the best fit for my area	Do you think we should make any changes to the current boundaries? Yes	Do you think we should change the name of your parish council? No	Do you think we should change the number of councillors on the parish council? I don't know
			What do you think should change regarding the boundaries?		
			The boundaries were changed some years ago and whereas we had been part of Chelmsford (that is		
			within walking distance and is our local area for shopping, banking, socialising, etc), we suddenly		
			became part of Saffron Walden (somewhere miles away that we never go to and have no interest in) for		
			voting purposes, a ludicrous situation. Our local MP,		
			who knew and understood all matters relating to our local area - Chelmsford - was suddenly replaced by the		
			MP for Saffron Walden, who knows nothing about the area we live in and therefore cannot represent us.

ID: Do you think we should make changes to the warding arrangements within the parish? No Do you think we should make any changes to the what do you think should change regarding the grouping status of the parish/town councils? No			Our rural parish needs its individual council with councilors who live in our parish and understand our concerns and priorities; people we can talk to & relate to .Our parish is unlike the other Hanningfields and has different concerns to the others. likewise the community of Stock is completely different. Our lack of local facilities and struggle to get improvements funded is always made worse when city councillors put their own parish first as has happened over the Old A130 cycle path funding. We struggle to get any amenities such as gas, broadband and decent roads as our roads are a rat run to and between Stock, Maldon & Wickford. Planning concerns must be dealt with locally not imposed from aboveI was chair of our Village Design Statement Committee and produced an excellent VDS in which the whole parish became involved. As an ex-parish councillor I know people value the chance to be represented by people theylive with and have access to.

ID: Do you think we should make changes to the warding arrangements within the parish? ID: Respondent type: 898 Local resident	Do you think we should make any changes to the grouping status of the parish/town councils? Area: Unparished area	What do you think should change regarding the grouping status? Do you think the area would benefit from an additional form of community governance? Yes Would you like to keep a parish/town council in your area?	What style of community governance do you think would work well in this area? An elected tier of local government at parish, community or neighbourhood level Please explain your choice: In Chelmsford, decisions (say) about allotments or play areas in Melbourne or Waterhouse Lane can currently be made by councillors from South Woodham or Great Leighs. But they have a parish council to make those decisions for their own area. When developers pay over infrastructure contributions, the parish council gets 15% of the total for neighbourhood improvements. For central Chelmsford that amounts (so far) to £1.5 million. How to spend that can be decided by councillors from Stock or Boreham, not those representing the urban centre. Do you think we should make any changes to the current boundaries?	suggest that the Lawns ward and the northern part of Trinity ward should be in Springfield parish, and the rest of the currently unparished area should also be parished. There are a number of possible ways to create new parishes for the urban area, and it is important to involve residents in these discussions over the coming months.	Other Comments: Due to housing development over the years, residents as mentioned below should be consulted on possible changes:- As a ward councillor for St. Andrew's ward and county clir for Patching Hall, these two developments affect the area I represent: 1) Chignals / Broomfield and unparished The 248 new homes in Hollow Lane may fit more naturally in the unparished area - St. Andrews. The ones that will be built in Broomfield cannot access the rest of Broomfield by car without going through Chignals and the unparished area. 2) Broomfield and unparished The 135 new homes in and around Emberson Croft may fit more naturally in the unparished area - Patching Hall. The following are also apparent and need to be consulted upon: 3) Great Baddow and unparished a)Regal Close was built fairly recently as "infill". It is only accessible from Wallace Crescent but is in Great Baddow. Should it move to unparished area - Moulsham & Central? Do you think we should change the number of councillors on the parish council?
ID: Do you think we should make changes to the warding arrangements within the parish?	Do you think we should make any changes to the grouping status of the parish/town councils?	What do you think should change regarding the grouping status? Do you think the area would benefit from an additional form of community governance? Yes	What style of community governance do you think would work well in this area? An elected tier of local government at parish, community or neighbourhood level Please explain your choice: Only an elected local government body will have sufficient power to address the concerns of residents.	How should we draw the boundaries to create a new electoral area? Based on existing electoral arrangements (such as council wards) Please give more details about your suggestions for boundaries: As ward categories already exist, they seem the most	Other Comments: I am pleased to see the City Council promoting this issue. Political apathy is dangerous to the well being of our City, County and Country

Annex 2A - Online responses for individual areas

Do you think we should make changes to the warding arrangements within the parish?	Do you think we should make any changes to the grouping status of the parish/town councils?	What do you think should change regarding the grouping status? Do you think the area would benefit from an additional form of community governance? Yes	What style of community governance do you think would work well in this area? An elected tier of local government at parish, community or neighbourhood level Please explain your choice: the parish has elected officials representing local issues with specific powers and there is allocated funding to support this.	How should we draw the boundaries to create a new electoral area? I don't know	Other Comments: I don't mind how it's divided but i think it's important for our area (Waterhouse Farm) to have local representation with specific power, funding and responsibilies for the community
Respondent type: Local resident	Area: Unparished area	Would you like to keep a parish/town council in your area?	Do you think we should make any changes to the current boundaries?	Do you think we should change the name of your parish council?	Do you think we should change the number of councillors on the parish council?
Do you think we should make changes to the warding arrangements within the parish?	Do you think we should make any changes to the grouping status of the parish/town councils?	What do you think should change regarding the grouping status? Do you think the area would benefit from an additional form of community governance? Yes	What style of community governance do you think would work well in this area? Area committees Please explain your choice: There are some poor areas around where I live and little sense of community. A smaller, localised area that can work together and directly see the benefits of their input would benefit so many aspects of people's lives. But I do think it will need the overseeing of a local authority to mobilise, even if just to get things started.		Other Comments: For me the other side of Waterhouse Lane is a separate to an area I associate with, as is the other side of admirals park. landmarks and roads make a big difference in dividing up an area. I think a village approach makes more sense.
Respondent type: Local resident	Area: Unparished area	Would you like to keep a parish/town council in your area?	Do you think we should make any changes to the current boundaries?	Do you think we should change the name of your parish council?	Do you think we should change the number of councillors on the parish council?

ID Respondent type	What areas are you referring to?	What changes do you think should be made to the current boundaries?	Please give more details about your suggestions for boundary changes	Why do you think these changes are needed?	What changes should we make to other community governance arrangements?	Please detail what you think should change and why	Any other comments or feedback
15 Local resident	Why isn't Good Easter on here? It has a Parish Council?????	The existing parishes should be kept, but the boundaries redrawn	We should never have been taken out of Chelmsford for Parliamentary elections. We are 7 miles from Chelmsford and maybe 50 minutes from Uttlesford Council (admittedly only 1/2 a mile from the Council boundary)	The current arrangements could be improved	We should consider grouping parish councils;	The City Council doesn't take any notice of Parish Council views at the moment so maybe if we represented bigger areas the City Council might start listening.	
77 Local resident	Parishes North of Chelmsford and City Centre	The existing parishes should be kept, but the boundaries redrawn	1. Review smaller Parishes such as Mashbury which only has a parish meeting currently. Perhaps some of these areas could be merged with a neighbouring parish e.g. Good Easter, Chignall, Great Waltham & Pleshey. This would be more cost effective than creating a new Parish Council. 2. Areas such as Beaulieu and Boreham which have seen a rapid growth in housing may also need to be reviewed. It maybe that existing parish boundaries are altered to reflect this, but it might be more beneficial financially to incorporate some areas into the City area rather than a new parish. Once again this would avoid the extra costs involved with setting up new Parish Councils. 3. Regarding the current wards in the central area of Chelmsford. No financial information has been provided to give an indication of how these would be initially financed if changed into parishes. On the surface whilst this sounds like a nice idea, there would be a huge cost to set each parish up. Each parish would then need to raise finance for projects and maintenance via the precept so residents could see large increases in council tax. At this moment in time given the lack of information I cannot see how making these areas into parishes (or similar) can give best value for money for the City Council or the residents.		We should consider grouping parish councils; We should review the number of councillors;	If boundaries are changed, review the number of councillors required. For example, if it becomes a larger area another councillor maybe required. Reviews should be based on the number of councillors per population and the size of area they cover.	•
95 Local resident	Broomfield and Little Waltham	The existing parishes should be kept, but the boundaries redrawn	For example, we are part of the Channels Development so believe we should be in Little Waltham parish, however, it is my understanding that some of the development falls under Broomfield parish. It should be the same parish for all of the development. Little Waltham.	The current arrangements could be improved	We should consider creating wards within these parish/town council areas;	To ensure better representation of residents	
101 Local resident	All	I don't think any boundary changes are needed			We should consider alternatives to parish/town councils;	Working in local groups to do with local projects, it has become clear that the Councillors aren't being heard by Council employees. The employees aren't elected and so democracy isn't working. I propose that there are panels of residents, like the former CCC Citizen Pane, where residents can hold the Council/Councillors to task realtime. Meetings should be in the evening when people aren't working and could be virtual for accessibility. This should be with both ECC and CCC. Members should be able to comment on all parts of the Council and not have to select a specific areas eg planning or highways. At the moment there isn't accountability and so there is considerable financial waste.	

ID Respondent type 104 Local resident	What areas are you referring to? Chelmsford town	What changes do you think should be made to the current boundaries? I don't think any boundary changes are needed	Please give more details about your suggestions for boundary changes	Why do you think these changes are needed?	What changes should we make to other community governance arrangements? We should consider grouping parish councils; We should consider alternatives to parish/town councils;	Please detail what you think should change and why Excessive bureaucracy, amalgamate parish councils together. If the parishes all deal with the same elements why does it need to be done at that level? Parishes are an old way of looking a things which should be modernised	Any other comments or feedback
108 Local resident	Parished and Unparished	A new council should be created	One boundary for efficiency. Time to cut out bureaucracy and waste.	The current arrangements could be improved	We should review the number of councillors; We should consider grouping parish councils; We should change the names of these councils; We should consider creating wards within these parish/town council areas; We should consider alternatives to parish/town councils;		Time to forward plan - C19 proves we can do things differently and more efficiently, parishes are so so old fashioned - there to keep the local cllr have some sort of power - but it is ineffective. Online involvement if it is needed. Ditch all you can and save the public money.
115 Local resident	Springfield	The existing parishes should be kept, but the boundaries redrawn	Old Beaulieu is in Springfield. New Beaulieu is split between different parishes. It would seem logical to re draw the boundaries to keep New Beaulieu in one area.	There is a new housing development	We should consider grouping parish councils;	New Beaulieu already has two active community facebook groups and activity centred on the community centre. It would make sense for New Beaulieu to be under one council. Enlarging the existing Springfield or an alternative council rather than creating a new one may be sufficient.	
126 Local Councillor	Unparished, Springfield, Boreham, Broomfield and Little Waltham	A new council should be created	A new parish should be created for the new developments of Beaulieu, Channels and the future Garden Community. The boundary should be Essex Regiment Way to the West and White Hart Lane to the South. These developments are a distinct community, very different to the existing villages of Little Waltham and Broomfield that have different needs. Chelmer Village should be a parish its own right separate from Springfield. The current arrangement is a bit artificial. There is an existing community centre in Chelmer Village with other existing community facilities. A new parish should be created for the unparished areas, Chelmsford Town Council. This would allow for better local representation particularly at a time when a new unitary authority could be created removing 'Chelmsford' as a distinct local authority. Much of the original ecclesiastical parish of Springfield is in the unparished area. Many of the people from 'The Lawns' ward would say that they live in Springfield. It would make sense that they become part of a revised Springfield parish. Similarly the northern end of 'Trinity' ward is far from the city centre and it would make sense that that too becomes part of Springfield.	could be improved	We should consider creating wards within these parish/town council areas;	A new ward should be created for the new developments. The existing Trinity ward should extend down to the river and include the Waterside developments.	

ID Respondent type	What areas are you referring to?	What changes do you think should be made to the current boundaries?	Please give more details about your suggestions for boundary changes	Why do you think these changes are needed?	What changes should we make to other community governance arrangements?	Please detail what you think should change and why	Any other comments or feedback
130 Local resident	Channels	A new council should be created	The Channels development, just north of Chelmsford, has various development parcels that are split across Little Waltham and Broomfield parishes. At the very least, we would like to see this unified such that all of Channels (not just some of it) is linked with Little Waltham. However, the preferred route would be for a Channels Parish to be created, so as to better serve this new community, especially given how the land upon which it is built is largely funded by private contributions and will require different management to those areas that are council owned.		I don't know;	Not applicable as I did not answer the previous question.	Please reach out to the 'Channels Residents Community Group' (CRCG) to engage with active stakeholders. Feel free to ask me for an introduction.
158 Local Councillor	Great Waltham Parish and Chelmsford Unparished areas	I don't think any boundary changes are needed			We should consider alternatives to parish/town councils;	I don't think that Unparished central Chelmsford needs to be parished	I think the unparished central Chemsford areas do not need to be parished.
177 Local resident	chelmsford	I don't think any boundary changes are needed			We should review the number of councillors;	There are too many councillors for each area.	Cost implications should be a priority.
180 Local resident	all	A new council should be created		There is a new housing development	We should review the number of councillors; I don't know;	i dont now	
185 Local resident	Woodham Road SS11 7QW	I don't think any boundary changes are needed			I don't know;	We need speed bumps	
189 Local resident	Pavements	I don't think any boundary changes are needed			to parish/town councils;	More local accountability is necessary, and with this accountability should come authority to implement change as necessary.	I believe that, on the whole, the current Authorty is doing a reasonable job, but more speed to implement matters needs to be injected.
205 Local resident	Despite living within short walking distance of Springfield All Saints for over 50 years, being a supporters of All Saints Church [REDACTED PERSONAL DETAILS] we have no way of contributing to decisions made about this parish. We do not figure in the Parish Pump magazine.	0	Please see answers to number 7 We have no local body to turn to about local concerns eg concerning Springfield Hall Park. These are items of local interest not Chelmsford Town/City	There is not enough representation	·	representation on matters of local concern	
248 Local resident	Unparished area and local parishes	The existing parishes should be kept, but the boundaries redrawn	Interest in local governance is largely the domain of the retired elderly. Change is needed to attract younger people and make it more dynamic and engaging, the aim should be to achieve more energetic community involvement, reduce parochialism and achieve synergies.	The area has changed since the last review	of councillors ;We should consider grouping parish councils;We should consider	Decision making is best served by reduced numbers. Already there are affinities and common interests between parishes that could be capitalised upon by reducing parochialism, combining funding to more meaningful levels, achieving communication/people/cost synergies.	Boundaries should reflect the new populations of the area and should follow other boundaries such as judicial, policing, planning, health, diocesan etc, not creating further disparity in governance. Potential for Sandon with Danbury, Galleywood with Great Baddow etc etc The non parished area needs to be reduced for example the anomalous southern boundary joined with Stock and Margaretting. A smaller urban focus with appropriate representation is needed to pursue the changes now necessary to reflect changing lifestyles.

ID Respondent type	What areas are you referring to?	What changes do you think should be made to the current boundaries?	Please give more details about your suggestions for boundary changes	Why do you think these changes are needed?	What changes should we make to other community governance arrangements?	Please detail what you think should change and why Any other comments or feedback
259 Local resident	rural parish	The existing parishes should be kept, but the boundaries redrawn	Combine Parish Councils into bigger areas with slightly fewer councillors but ensuring we have local representation. Parish Meetings need to be cancelled and replaced with a Parish Council so that there is accountability. Mashbury is unparished and the Parish Meetings does not happen but CCC does nothing about it. The area needs to be made part of Pleshey, Great waltham or Chignal. Local representation needs to improve by having fewer seats available so there is more competition for them. The seats should be based on the number of electors. To take an arbitrary number in rural areas there should be one Parish Councillor per 100 electors. This can then be scaled up in to large and combined Parish Councils but still keeping to the representation of electors.	representation	of councillors ;We should consider grouping parish	There are too many Parish Councils with vacancies on. Consolidate these Parish Councils with neighbouring councils. This will increase their buying power and improve the governance with fewer councillors overall so that there is enough representation to have full councils rethare than several partial councils.
264 Local resident	Springfield and the new estates in Beaulieu Park and Boreham.	I don't think any boundary changes are needed			We should consider creating wards within these parish/town council areas;	I think the present arrangements are working fine and they THEY DON'T NEED CHANGING. However size in population and no more new in the next review or when the new Beaulieu council seat should be created other than Railway Station is built along with most of the new Beaulieu parish if the residents want one. estate, a separate parish could be created for Beaulieu Park including all the new estates to the east of White Hart Lane and line of the Boreham Parish area might need changing to accommodate.
286 Local Councillor	Broomfield & Litle Waltham	A new council should be created	I am a resident of the Channels development, where we are the only parcel which is in Broomfield parish, the rest of our development falling into Little Waltham. In addition, the new Beaulieu development is split between the Springfield North and Broomfield parishes. Channels and the new Beaulieu developments are 2 of the most significant developments within Chelmsford in recent years. With the plans for the Garden Village to the north of Channels, it would make sense to revisit the current boundaries. In view of the management company structure and the service charge residents of Beaulieu and Channels have to pay in addition to council tax, I feel it would be sensible to create a new council for the whole of this area. Whilst the way the management company operates differs between the developments (and it is expected that the approach taken for the new Garden Village may be different again) the principle of having communal spaces which requires input from the community, an annual financial contribution from residents in additional to council tax towards ongoing maintenance and the need to engage with a management company structure, lends itself to creating a new area which encompasses all of these developments as one.	development	of councillors ;	The areas of Springfield North, Broomfield and Little Waltham are growing at a disproportionate rate when compared to other areas and it makes sense to create a new area and increase the number of councillors to support this.
291 Local resident	Mashbury - but it is not listed on your list of Parishes - why not!	I don't think any boundary changes are needed			We should consider grouping parish councils;	Mashbury has been too small to support a Parish meeting for some years. Although a previous attempt to combine with Chignal Parish was overturned a few years ago, there is still not the population to support independent governance and residents are suffering from this, particularly in a time of national crisis.

ID Respondent type	What areas are you referring to?	What changes do you think should be made to the current boundaries?	Please give more details about your suggestions for boundary changes	Why do you think these changes are needed?	What changes should we make to other community governance arrangements?	Please detail what you think should change and why	Any other comments or feedback
361 Local resident	Need to save duplication and save money	A new council should be created	The abolition of all Councils in Essex with a maximum of 4 new Councils created.	The current arrangements could be improved	We should review the number of councillors; We should consider grouping parish councils; We should change the names of these councils; We should consider alternatives to parish/town councils;	Essex County Council, the 2 Unitary Councils and the Boroughs etc to be merged and formed into a maximum of 4 Councils for the whole area	no
366 Local resident	Widford and Danbury	I don't think any boundary changes are needed			We should review the number of councillors;	To ensure that all areas and people in Essex are properly represented	Clearer communication about public meetings
539 Local resident	Westlands	I don't think any boundary changes are needed			We should review the number of councillors; We should consider grouping parish councils; We should consider alternatives to parish/town councils;	Merge the parishes to.save money	Dont add more parishes as it adds to the council tax precept. It's a recession in a pandemic!
544 Local resident	Newlands Spring and all Chelmsford district	A new council should be created	All citizens within the Chelmsford council should have equal representation	There is not enough representation	We should consider grouping parish councils;	As per answer 9 - the current level of representation is not equal for all citizens	
566 Local resident	Springfield / Broomfield / Chelmsford town centre	A new council should be created	local areas should have a greater say in how council rax generated in that area is spent	There is not enough representation	We should review the number of councillors; We should consider creating wards within these parish/town council areas; We should consider alternatives to parish/town councils;	reduce councillors at a higher level and have more at local area.	
577 Local resident	Chelmsford and Great Baddow	I don't think any boundary changes are needed			We should consider alternatives to parish/town councils;	Parish Council's should be abolished. They are an out dated arrangement that does not have any strategic thinking. The same level of service / community facilities should be provided across the Borough and shouldn't be left to a small number of local individuals to make decisions. I.E. Community facilities, inc Bus Shelters, Benches, Play Grounds, Community Centres should be provided evenly and strategically by the City Council, this would be a much farer system. Living in an area currently not covered by a Parish Council, but living close to the boundary of the Great Baddow Parish area, I am not impressed as to the level of services / facilities provided in this area and I do not want to pay an increase in Council Tax for not seeing an improved service. Great Baddow Parish Councillors did nothing to along with Chelmsford City Councillors did nothing to challenge Essex County Council to provide a replacement to the 51 bus route that has been substantially withdrawn by First and leaves large areas of the Parish with no useful bus service. I would much rather see a more strategic central thinking / planning and allocation of resources.	
592 Local resident	Central Chelmsford and greater area	The existing parishes should be kept, but the boundaries redrawn	I would like to see more equal representation by population concentration. The central area is very large, and would be better split up.	The current arrangements could be improved	We should review the number of councillors; We should consider creating wards within these parish/town council areas;	Communities in and around Chelmsford have distinct identities and interests; they should be represented more clearly by the administration.	

ID Respondent type	What areas are you referring to?	made to the current boundaries?	Please give more details about your suggestions for boundary changes	Why do you think these changes are needed?	What changes should we make to other community governance arrangements?	Please detail what you think should change and why	Any other comments or feedback
627 Local resident	Broomfield, Chignal, Roxwell	The existing parishes should be kept, but the boundaries redrawn	Areas have become larger more densely populated. This requires a redrawn on areas.	There is a new housing development	We should review the number of councillors;	Diversity is key to any decisions	
641 Local resident	Chignal, Writtle	I don't think any boundary changes are needed			We should review the number of councillors;	Too many councillors	
668 Countryside Zest (Beaulieu Park) LLP	The Beaulieu Neighbourhood, Channels and the proposed Garden Community	A new council should be created	Please see letter attached to email sent sent to [electoral services] on 10/03/2021. Subject title 'Community Governance Review Consultation - 18 January to 18 March 2021'	There is a new housing development	We should consider alternatives to parish/town councils;	Please see letter attached to email sent sent to [electoral services] on 10/03/2021. Subject title 'Community Governance Review Consultation - 18 January to 18 March 2021'	Please see letter attached to email sent sent to [electoral services] on 10/03/2021. Subject title 'Community Governance Review Consultation - 18 January to 18 March 2021'
797 Local resident	All parishes.	A new council should be created	Get rid of parishes altogether. Unparished areas work well enough. There are already County and City councillors. Why have another tier of bureaucracy? Have Area/Community Forums or Community Associations.	The current arrangements could be improved	We should review the number of councillors ;We should consider alternatives to parish/town councils;	See response to question 9	
838 Local Councillor	All parishes Covered in the ECC Division of Broomfield & Writtle i.e Broomfield, Gt Waltham, Lt Waltham, Gt& Lt Leighs, Chignal ,Pleshey, Highwood, Roxwell, GoodEaster Mashbury and Writtle.				We should review the number of councillors;	it would be beneficial. However, Most of Chelmsford's urban areas already feel they are more than well served by the City Council and feel any change to being unparished would be detrimental and add to the council tax burden.	The questions do not allow for variations. For example some parish could be expanded to cover wider areas and or lose certain small areas on the extremities of their borders. However, there is a need to draw a clear distinction between rural and urban areas that have different aspirations and agendas (e.g. street lighting) The manuscript document circulated to all homes makes no allowance for any nuancing and for many who may wish to comment they cannot do so as they do not have internet access Lastly the questionnaire cannot be copied which means that comments made cannot
							be recorded. Any decision based on this public response would be misleading and insufficient to make major changes

ID Respondent type	What areas are you referring to?	What changes do you think should be made to the current boundaries?	Please give more details about your suggestions for boundary changes	Why do you think these changes are needed?	What changes should we make to other community governance arrangements?	Please detail what you think should change and why	Any other comments or feedback
840 Local resident	The urban as well as the rural areas of Chelmsford.	I don't think any boundary changes are needed			We should review the number of councillors;	Parish Councils should be retained as there is much local knowledge and experience of the particular localities, to the benefit of those living within those areas, that has been accumulated over many years. However, where there are developments planned, the membership of those councils should be increased to draw their new residents in to take advantage of this, for they have chosen the area to live in for its access to an existing rural community. For the town area, it would be good to see a new tier of representation to give more immediate local urban views, but there would need to be boundaries within the town to group like areas together to make that	work for me and for 10 I would have appreciated the option for shouldn't change as well as should. I believe it a good idea to see representation for the
870 Local resident	Parish and town areas.	I don't think any boundary changes are needed			We should consider grouping parish councils;	if the Parish councils are very small, with little local support, then they should be able to group together.	I don't think we need any more local Councils, Town areas have their Ward Councillors, so do not need another unnecessary layer.
881 Local resident	unparished, Springfield & Broomfield	The existing parishes should be kept, but the boundaries redrawn	There needs to be a rethink of boundaries of the city & Broomfield & Springfield where new housing & roads have made existing boundaries illogical. Springfield where lused to live over 40 years ago is now very large & should be split into several parishes - Springfield including original parish area, Chelmer Village & Beaulieu. the Channels development which is partly in Broomfield & Lt Waltham as well could be either a new parish or be part of Lt Waltham. The proposed development north of Woodhouse Lane, Broomfield is mainly in Lt Waltham so either it should remain split & clearly marked on the ground or the whole site should be in Lt Waltham. The unparished areas of Chelmsford should be parished as at the moment section 106 or CIL developer money is either given to the parishes or the city council & having a parish will enable local people to have more say about developments in their area.	the last review	e We should change the names of these councils;	to either village or community councils as many	· · ·
894 Local Councillor	Writtle (as Writtle South Parish Councillor) and Waterhouse Farm	The existing parishes should be kept, but the boundaries redrawn	Writtle needs to be made bigger in order to include Warren Farm development. Waterhouse Farm has no Parish council and one should be created.	There is a new housing development	We should review the number of councillors ;	Writtle Parish council needs more councillors to cover Warren Farm and other future developments. Waterhouse Farm needs a Parish Council to run it to take the pressure and work load off the City Council.	More information should be provided regarding Parish Councils everywhere, so residents can get involved and be proactive in their community and the local decisions that are being made.

Explain

If applicable, please explain in more detail what you think should change and why. (This review cannot cover the operations of existing parish councils. Comments about individuals will be disregarded.)

I think that Parish Councils would benefit from forming of group with neighbouring P.C.s and Neighbourhaid Community Groups as much of the record of future building characterists developments one often cestricle parish boundaries. The increase in households or in frostru chare require superision by Parish Councils and thus there is a need for more pansh councillors.

Whose it neves the change necessary. To lump out thisse it neves the change necessary. To lump out our individuals will be disregarded.)

I have it neves to change necessary. To lump out our individuals with a lugar community would disting out individuals into a lugar community would disting out individuals. A small brillage with a number of priorities from a council with a young actual entry of the needs of a minority group would be lost to the peaks. requirements of the meganity.

we need this to make sure we are receiving engagement from all areas across Chelmsford.

²e.g. Parish Council, Community Council, Neighbourhood Council, Town Council, Village Council.

Do you have any suggestions as to how the boundaries of the new areas could be drawn? e.g. based on city wards

Wickford should become one local council.

4. Explain

If applicable, please explain in more detail what you think should change and why. (This review cannot cover the operations of existing parish councils. Comments about individuals will be disregarded.)

Because Wickford is a growing town & should now have greater representation of all its growing, diverse groups at County Level.

[If necessary, please continue answers on an additional sheet of paper]

communities on the boundary of little winter are more like snow towns, & I den't him that 'Prish' is either a good description or appropriate for them. I don't believe we would be good for her and vice versa.

4. Explain

If applicable, please explain in more detail what you think should change and why. (This review cannot cover the operations of existing parish councils. Comments about individuals will be disregarded.)

I trink it a good idea for committed parter that reignsor each other to committee and collaborate. I also trink that individual parishes have the Ser interests of Cocal people at hear. They are more in touch with the littles than people from ordinale. This is an important part of belonging in a committy.

In a post lavia world we chould combine recovers, become more efficient and cut costs. I believe the Parish cance of Bickman & woulden Ferress should be combined with their of Danbury. In the post loyers bounce Tax for Be with his increased by 240/0 where is the Precopt hus usen by 48%!! By combining we would get a direct forward benefit and stop the unacceptable duplication of resources. The heaviles of Parish Coucillors world be drastically reduced with no negative drawbacks

Post could took puyon are under threat and use heart do everythin possible to between the burden of took imposed by councils chatever personation

4. Explain

disgraceful state of the footpaths (especially Moulsham Street alongside Oaklands Park for one), dog along with many other issues where we need more investigation. A merger of parishes surely would resources are needed, i.e. the increasing litter problem which is not being identified as urgent, the identified to cover a larger area, enabling results. The number of councillors could be reduced to benefit the expenses budget, therefore increasing budgets that would benefit areas where more fouling which has increased as we take daily walks. Who currently is responsible for these issues It would seem far more beneficial to reduce the number of Parishes so that problems could be improve things instead of the current NIMBY which seems to be the problem now.

COMMUNITY GOVERNANCE REVIEW MY: COMMENTS

Springfield with a population of 20,000 does not include much of what many people would regard as SPRINGFIELD i.e. All Saints' Church and surrounds. Instead it is included in the non Parished area with the City Centre.

Would it not be possible to bring some of the old Springfield into our Parish? This would result in a considerable increase in the of the number of residents so, it maybe appropriate to consider splitting the Parish North/South i.e. North Springfield and Chelmer Village.

Now thinking about the new development at Beaulieu to the north of Springfield, it seems a new Parish would be in order.

Chelmsford's Community Governance Review

During this
period, whilst the majority of the Epping Forest District Council area had parish
or town councils, the areas of Buckhurst Hill, Loughton and Chigwell had no
representation of their own at the lowest level council administration. With
the possibility of Epping Forest DC and Harlow DC being amalgamated into a
unitary authority the three areas without representation at the local level saw
that they would be missing out.
to form three new councils in Buckhurst Hill,
Loughton and Chigwell. It has therefore meant that the whole of the Epping
Forest DC is now represented at a local level and the three councils have been
very successful.
Chelmsford Borough Council were also looking
into the possibility of parishing the central Chelmsford area
AND THE RESIDENCE OF THE PROPERTY OF THE PROPE
Unfortunately no further action was taken and the centre of Chelmsford has remained without representation at a local area.
In my opinion the centre of Chelmsford should be split into a number of areas

In my opinion the centre of Chelmsford should be split into a number of areas and those areas given responsibility for various areas of administration in the same way as the parishes of Broomfield, Writtle, Great Baddow and Springfield.

Not long ago a resident in Park Avenue started a local group known as the Admirals Park Association. It did not have any powers or any legal authority and has since faded away. If the area represented had been larger and did have some statutary powers it could have succeeded and been of assistance in the administration of affairs in this area.

PLANNING FOR SWF NORTH IS UNDERWAY - WHEN THIS IS STARTED, WE SHOULD HAVE A NORTH & SOUTH COUNCIL WHICH WORK TOGETHER UNDER SWF TOWN COUNCIL UMBRELLA, THIS WILL INITIATE A NEW NAME, AND REQUIRE MORE COUNCILLORS. ON THIS NOTE WE NEED A MORE DIVERSE TOWN COUNCIL. MOST OF OUR COUNCELLORS ARE OFF SIMILAR AGE REBACK-GROUND, THE COUNCIL (CURRENT TOWN COUNCIL) NEED TO DO MORE FOR THE TOWN AND HAVE A LARGER PRESENCE WITHIN THE TOWN, I AM ONLY AWARE OF ONE, AND THAT'S THANKS TO FACEBOOK. THE TOWN IS BECOMING ENCIREASINGLY POPULAR WITH YOUNG FAMILIES

[If necessary, please continue answers on an additional sheet of paper]

AND THE COUNCILCES (AND THEIR ROLE WITHIN THE COMMUNITY) SHOULD REFLECT THIS .

If applicable, please explain in more detail what you think should change and why. (This review cannot cover the operations of existing parish councils. Comments about individuals will be disregarded.)

Since property development is the single issue which massively impacts on local communities, Parish Councils should have the power to reject Planning Applications. The Warten Farm development is a good example of how the quality of life for thousands is set to be devestated for ever by mindless use of Power vested in the City Council.

² e.g. Parish Council, Community Council, Neighbourhood Council, Town Council, Village Council.

Do you have any suggestions as to how the boundaries of the new areas could be drawn? e.g. based on city wards

Suggest a ward for Chelmer Village as now such a large area.

4. Explain

If applicable, please explain in more detail what you think should change and why. (This review cannot cover the operations of existing parish councils. Comments about individuals will be disregarded.)

Reason being we core presently under Bonngheld Panch, which is also a very large area, both North T South.

A chelmer village peensh may provide for better localised services, c/village is based around a plethora of allowards, a local persh may ensure they are regularly cleaned T malhaned.

Freepost Democratic Services

I am in receipt of the Chelmsford City Council Community Governance Review. I am taking the opportunity to respond.

Question 1: On the issue of Parish Councils I do not believe Chelmer Village or Springfield should be Parished. We already have six city councillors to represent local residents. However, if Chelmer Village is to remain a parish it should stand alone and separated from Springfield.

Question 2: It is unnecessary to create more Parish Councils especially those Wards in the City Centre area with additional council tax costs for residents. If my memory is correct there are at least four City Council Wards in the centre of the city, therefore these Wards would have up to twelve City Councillors. However, if they were parished you would create an additional twenty or thirty parish councillors, and how long will it take before we see a campaign to pay parish councillors for the time spent attending meetings.

Question 3: This is a good question. We now have 57 City Councillors and in my view is too many. I am assuming we have one councillor for 3,000 residents. I would increase that number to 5,000 residents for each member thereby reducing the number of councillors from 57 to below 36. Reducing the number of members would, at a stroke, save £172,000 and over the course of a year would save almost £700,000. If you add councillor's special allowances and expenses that figure would increase dramatically. There would also be additional savings as you would not need so many staff.

It should not be difficult to create or introduce new boundaries if you reduce the number of Wards. For example, Beaulieu Park and the new development at Beaulieu Heath plus the development at Channels Golf Club could, in my view, join up with Boreham creating a new Ward

You may think these suggestions are revolutionary, however, they are long overdue. As for the alternatives 1 - 6 in your community review I do not think they are necessary although they may be useful in villages or hamlets.

Question 4: I have already explained what the City Council should do in question 3, i.e. do not increase the number of Parish Councils and reduce the number of City Councillors and Wards. Some councillors are totally irrelevant whether they be City or Parish and leaders of the political parties can readily identify them. I understand there are approximately 244 District Councils throughout England and Wales and if my proposals were adopted not only would councils be more efficient the savings in monetary terms would be substantial.

The Coronavirus Pandemic encourage the City Council to make changes after life gets back to normal. As the Council now meets remotely, according to my information, there is a 100% attendance whereas when meetings have taken place before the pandemic in the Council Chamber the level of attendance falls below that figure. Therefore, Chelmsford City Council should recognize the urgent need for change instead of increasing the number of Parish Councils.

Community Governance Review - Survey

Your name (optional)

No

4. Explain

If applicable, please explain in more detail what you think should change and why. (This review cannot cover the operations of existing parish councils. Comments about individuals will be disregarded.)

Having wous ideaed that Mools have warrants own Parish Council, as an urban area.

Elso newly formed fo would evealt high like newly formed for would evealt high bunding. Hence I have now devided.

bunding thence I have now devided is a focus poculy elbal what we need is a focus poculy elbal what we need is a focus poculy specific amade address to make specific amade address to make specific amade address to the lee bins, which get thought and I surpered on need of the subway and a Paskway!

We hand to thought is urpered on need of the hand is urpered on need of the hand to thought sheet of paper!

Responses from members of the public will be published as part of the review, but your personal information will only be used for internal purposes. Where a response has been submitted by an organisation, the name of the organisation will be public. You can view our privacy policy at chelmsford.gov.uk/your-council/about-our-website

What happens next?

CCC will consider the results of the consultation and a report will be put before the Council's Full Council in July 2021, to decide upon the next stage of the review process.

All completed responses must be received no later than Thursday 18 March 2021.

COMMUNITY GOVERNANCE REVIEW (CGR)

RESPONSE BY BROOMFIELD PARISH COUNCIL ('the Council')

MARCH 2021

This response follows the format of the CGR online form from Q.7 onwards.

7. Would you like to keep a parish/town council in your area?

Yes.

8. Some of our boundaries are old and do not take into account new housing developments and community identities. Do you think we should make any changes to the current boundaries?

Yes. The following changes should be considered. Please see the map attached where these changes are all indicated.

a) Broomfield Parish east of the A130.

This area has now been developed. The northern section is part of the Channels development and the southern section is part of 'Greater Beaulieu Park'. The current boundaries between Broomfield, Little Waltham, Springfield and Boreham make no sense as they split up real communities 'on the ground' according to historic boundaries. We support the creation of a new parish or parishes (Channels, Beaulieu Park) to strengthen and build upon the actual communities that are emerging.

b) Springfield Parish, north-west of the A130/A1016

This area contains few dwellings, as it falls within the Chelmer Green Wedge and flood plain. We believe it would be more logical now for the boundary between Broomfield and Springfield to follow the major roads (A130 and A1016) rather than the River Chelmer. In terms of landscape character, this area belongs to the Chelmer Valley. Most of adjacent parts are within Broomfield Parish, so we believe this section of Springfield should be added to Broomfield.

We stress that this suggestion is purely to create a more coherent and logical arrangement on the ground. There is no financial incentive for Broomfield to 'acquire' this piece of the Chelmer Valley, as development and consequent CIL receipts are ruled out by the Green Wedge policy.

For the same reasons, the tiny extreme south-east corner of Broomfield should be transferred to Springfield, so that the boundary follows the A1016, rather than the previous course of the River Chelmer (we think the river was diverted slightly when the current A1016 was built).

c) North of Copperfield Road

Most of this NCAAP development lies in Chignal Parish. If a new parish were to be set up based on the Newlands Spring neighbourhood centre, the Council would be sympathetic to this section of Broomfield Parish being detached to join the new parish. However, this would also require the agreement of Chignal Parish Council. There would be no point in putting the Broomfield part of 'north of Copperfield Road' into a new parish without the Chignal part doing the same.

d) 'North of Broomfield' (Bloor Homes) development SGS8 and 'North of Hospital Approach'

'North of Hospital Approach' is a NCAAP development that is almost complete – most of the dwellings being in Broomfield Parish. 'North of Broomfield' is a Local Plan site, which is masterplanned and currently the subject of an outline planning application. Based on the masterplan, it's likely that most of the dwellings will be in Broomfield, as a large part of the Little Waltham portion has been designated as green space.

The Council believes that both developments should be in Broomfield, for the following reasons:

- Both form part of a continuous settlement area with Broomfield. There is a clear settlement gap between these developments and Little Waltham village
- Both developments are focused around Broomfield Hospital, which lies within Broomfield Parish
- Topographically, these developments lie on the gravel terrace between the Chelmer Valley and the Pleshey Farmland Plateau, as does the rest of Broomfield. Little Waltham village falls within the Chelmer River Valley landscape area
- Day to day service delivery will be provided by both Broomfield and Little Waltham villages.
 Primary school places will be provided by both village schools; secondary school places will be entirely provided within Broomfield (at Chelmer Valley High School), except where parents specifically choose otherwise. Day to day retail services will likely be provided mostly by facilities within the Broomfield Hospital campus. On balance, this suggests a greater affinity with Broomfield
- The direction of travel for residents of these developments will be southwards, as evidenced by the TTHC Transport Report commissioned by local parish councils in connection with the Local Plan, and subsequently updated by the Council (update attached) in connection with the current Bloor Homes planning application. In particular, para.s 18 – 35 describe the impact of traffic from the new development on Broomfield Parish.
- Therefore, the provision of new travel infrastructure for these homes will need to be funded by, or at the instigation of, Broomfield Parish Council particularly the provision of new cycle routes into the City Centre as part of the Broomfield Neighbourhood Plan. CIL receipts from the developments will be needed to part fund this infrastructure
- By contrast, where residents of the new developments do access services in Little Waltham, such services are not particularly related to the parish share of CIL. This is because the services are generally either private sector (e.g. pubs, shops) or non-parish public sector (e.g. primary school, health services). These new developments may positively affect the sustainability of local services in Little Waltham, which is to be welcomed, but there is little reason why Little Waltham Parish Council would need additional CIL receipts for this purpose. In contrast, there is a pressing need for Broomfield Parish Council to contribute to investment in transport infrastructure along the 'Broomfield Road corridor'.

The Council therefore believes that the parish boundary should be moved northwards to follow the edge of the Bloor development to the north and the B1008 to the east.

The Council would be willing for the parish boundary north of Woodhouse Lane to remain as it is for a trial period of 10-15 years, until the next review. This would enable further study of service delivery, transport and wider community patterns once the Bloor Homes development has been built out. However, the Council is strongly opposed to the boundary being moved southwards as part of the current Review, for the reasons stated above.

9. Do you think we should change the name of your parish council?

If the eastern part of the Parish (east of the A130) is detached and made part of a new parish(es) of Channels and Beaulieu Park, Broomfield Parish would be much more focused on the Village itself.

In this case, we would consider the case for renaming the Council to 'Village Council' or 'Community Council'. However, we have no definite view at the moment and would want to consult residents before reaching a view.

Also, this question would only arise if the boundaries were to change, focusing the Parish more clearly on the Village. If the Parish boundaries remain largely as they are now, we would want it to remain as 'Broomfield Parish Council', to emphasise that the Parish is more than just the Village.

10. Do you think we should change the number of councillors on the parish council?

No. The Council is currently 13 strong and has no vacancies. It rarely has more than a couple at any one time. We need a reasonable number of councillors to carry the burden of work in this large parish with an expanding population, without the Council becoming too large and unwieldy.

11. Do you think we should make changes to the warding arrangements within the parish?

No. We have no wards at present and do not need them. Having ward arrangements could make it more difficult to achieve a full quorum of councillors.

12. Do you think we should make any changes to the grouping status of the parish/town councils?

Not in relation to Broomfield.

13. Other comments/feedback

When we began our neighbourhood plan (NP) in 2016, we were advised by the City Council to include the whole parish in the neighbourhood area, even though we could foresee the possibility of the eastern section (east of the A130) being detached in 2023.

Our draft NP is nearing completion and we expect it to be adopted in 2022. If parts of the parish/neighbourhood area are detached in 2023, will the NP continue to apply to those areas or not?

M21003 LAND NORTH OF WOODHOUSE LANE, BROOMFIELD TRANSPORT REVIEW NOTE

JANUARY 2021

Introduction

- TTHC Ltd have prepared this Technical Note on behalf of Broomfield Parish Council, in relation to the "Land North of Woodhouse Lane" planning application (Chelmsford City Council ref 20/02064/OUT). The site is at the north end of Broomfield, and immediately north of Broomfield Hospital.
- 2. Broomfield Hospital includes an A&E department and serves an extensive area to the north of Chelmsford, including Braintree and the surrounding villages.
- 3. TTHC previously carried out an independent review of this allocation during the Chelmsford Local Plan consultation. In the 2020 adopted Local Plan, the site is now allocated as *Strategic Growth Site Policy 8*, to provide 450 dwellings.
- 4. The application includes a Transport Assessment (TA) by Mayer Brown, which in turn forms Volume 3 of the Environmental Statement (ES) by Barton Willmore.

Changes from the Allocation

- 5. The allocation is for 450 dwellings, but the live application is for 550 dwellings. This will result in additional vehicle movements compared to the Local Plan assessed position.
- 6. The adopted Local Plan lists the following principles under "Movement and Access":
 - Main vehicular access to the site will be from Blasford Hill (B1008)
 - Provide a new vehicular access road to serve the development and provide access to Broomfield Hospital and Farleigh Hospice
 - Provide pedestrian and cycle connections
 - Provide a well-connected internal road layout which allows for bus priority

7. And in relation to Broomfield Hospital:

7.292 The development will provide a new vehicular access road into Broomfield Hospital campus. This will help serve Broomfield Hospital, Farleigh Hospice and King

the Traffic, Transport & Highway Consultancy

Edward VI Grammar School playing fields. In addition, the new link road will facilitate a reduction of traffic on the rural lane network with a view to downgrading Woodhouse Lane and North Court Road to routes for local access only. It will also help to ease wider congestion on the Main Road, Broomfield corridor. The delivery of the new access road into Broomfield Hospital is a strategic objective of the Local Plan. Site developers should work in partnership with the Mid-Essex Hospital Trust to facilitate this proposed new vehicular access road to the Hospital.

- 8. Modelling for the Local Plan assumed that the access road into Broomfield Hospital from the north would be 'multipurpose' and thus open to all motor traffic, including hospital patients. However, the TA (para 1.6) states that the link road would be restricted to hospital staff, deliveries, buses and ambulances.
- 9. The adopted Local Plan also lists under "Site infrastructure requirements":
 - Appropriate improvements to the local and strategic road network as required by the Local Highways Authority
 - Appropriate measures to promote and enhance sustainable modes of transport
 - New and enhanced cycle routes, footpaths, Public Rights of Way and bridleways where appropriate [...]
 - Financial contributions to delivery of the Chelmsford North East Bypass

Review of Transport Assessment

- 10. For consistency with previous work, TTHC have used vehicle trip rates from the industry standard TRICS database, rather the Local Plan generic rates which were used for urban and rural sites across the City of Chelmsford.
- 11. The TA Appendices are provided as low-resolution scans and so it was not possible to validate the trip distribution data.
- 12. TTHC's previous assessment showed that the proposed development would increase traffic on the B1008 through Broomfield village by 8-10%, relative to 2036 Base traffic flows

13. The application includes 22% more dwellings than the allocation and so the traffic increase on the B1008 would now be **10-12%**. These trips are shown on the local road network in **Appendix A**.

Hospital Approach and Link Road

- 14. As set out in the Local Plan, the link road would allow some Hospital traffic to/from the north to divert through the application site, and avoid the B1008/Hospital Approach roundabout. With the proposed restrictions to usage of the link road, it is unlikely that more than one third of the Hospital traffic would divert in this manner. This diversion is also shown in the attached diagrams.
- 15. If the proposed restriction is a physical gate, at peak times there would be a queue of idling vehicles through the application site to enter the Hospital and vice versa, with adverse noise and air quality impacts locally.
- 16. A more sophisticated system would use 'free flow' camera technology, as used at other hospitals. This would allow patients from the north of Chelmsford to use the new access route, reducing congestion at the B1008/Hospital Approach roundabout. Patients could provide vehicle registration details within the Hospital buildings, and enforcement action could be taken against non-permitted use.
- 17. Although the Local Plan identified a committed improvement scheme for the B1008 / Hospital Approach roundabout, this has not been delivered so far. If the link road allowed a wider range of users, the need for this improvement scheme could be reexamined.

Broomfield Village

- 18. Regardless of the final form of the link road, there would still be a net increase on the B1008 corridor through Broomfield, between Hospital Approach and the city centre.
- 19. As shown in **Appendix A**, the majority of development traffic will route to and from the south on the B1008 corridor through Broomfield. The B1008 (Main Road) through Broomfield is a key bus corridor, with around 10 buses per hour in each direction. It is

also the emergency vehicle route between central Chelmsford and Broomfield Hospital.

- 20. At the B1008 Main Road/School Lane junction, the impact of the development has not been tested adequately in the TA (para 7.5). The TA refers to the capacity assessment from the Local Plan, which only tested the impact of 450 dwellings, and found that the junction would be above capacity in 2036.
- 21. By failing to include this assessment, the application fails to "address the potential impacts of development on transport networks" as required in the National Planning Policy Framework (NPPF para 102).
- 22. The TA (para 7.28) does not propose capacity improvement, but instead proposes 'Smarter Choices' measures to encourage modal shift. While this is welcome and aligns with the Local Plan allocation, the TA assumptions may be too ambitious.
- 23. Appendix B presents Census data for Chelmsford 001 MSOA which covers the application site. This shows that 72% of people currently travel to work by car, and 15% travel by public transport. These levels reflect the site's location on the edge of the Chelmsford urban area.
- 24. The TA claims that vehicle trips could be reduced by 7-8% by encouraging modal shift, but does not provide any evidence for this claim beyond a vague reference to 'DfT pilot studies'.
- 25. The B1008 corridor will therefore remain over capacity with the development in place. This is of particular concern as the B1008 forms the emergency route between central Chelmsford and Broomfield Hospital.
- 26. Returning to the potential for modal shift, there are no physical measures proposed along the B1008 corridor by the applicant (or any other body) which would improve general traffic capacity, or bus journey time reliability.
- 27. There is scope to introduce traffic light signals at the B1008 Main Road / School Lane junction, including a short flare on for vehicles turning right into School Lane. The pedestrian crossing further south could be relocated into this junction.

- 28. Although a signals arrangement would require a small amount of land from the village green to the west, this could be mitigated by stopping up the 'slip road' alongside Madelayne Court, and incorporating that land into a larger village green. As this is a registered village green, this would require the consent of the Parish Council and may need to follow a legal process.
- 29. The applicant should explore this option further. It would both reduce the forecast congestion at this junction, and improve bus journey times between the site and central Chelmsford.
- 30. The applicant could also contribute towards the scheme of cycle routes proposed by Broomfield Parish Council via the Neighbourhood Plan process. These routes would enable easier cycling between Broomfield and central Chelmsford. Although routes exist between central Chelmsford and the Valley Bridge area, there is no cycle path, nor a funded proposal for one between Valley Bridge and Broomfield.
- 31. It should also be noted that the Local Plan relies heavily on completion of the Chelmsford North Eastern Bypass. However, there is still uncertainty over the delivery of this scheme. In any case, the Bypass would not affect the local distribution of the development traffic on the B1008 corridor through Broomfield.

Recommendations

- 32. The proposed link road to Broomfield Hospital would be most beneficial as a multipurpose route. However, if this is not possible, the access to the Hospital site should at least allow patients from north of Chelmsford to access the Hospital, with suitable access control.
- 33. The application should include an updated capacity assessment for the B1008 Main Road / School Lane priority junction. It should also investigate fully whether capacity mitigation can be provided at this junction, which would benefit bus and cycle movements as well as general traffic.
- 34. Additionally, the applicant could contribute towards the cycle routes proposed in the Broomfield Neighbourhood Plan.

35. These changes would provide more effective mitigation for the impacts of the development, as identified by the criteria for the Chelmsford Local Plan allocation, and as the National Planning Policy Framework requires.

Dear Sir or Madam,

RE: COMMUITY GOVERNANCE REVIEW CONSULTATION

We act on behalf of Countryside Zest (Beaulieu Park) LLP ('CZ') the landowners and developers of the Beaulieu new Neighbourhood in North-East Chelmsford. We write with regard to the current Consultation being carried out on the 'Community Governance Review' section of the Chelmsford City Council (CCC) website and provide the following comments (website link: https://www.chelmsford.gov.uk/voting-and-elections/community-governance-review/). CZ have also filled out the online survey, however due to limited response options this letter provides a more detailed response.

It is noted from the outset that whilst this letter has numerous references to the Channels development in Chelmsford, no consultation with the Channels developers or the public has been undertaken at this stage.

Context

.

The Beaulieu Neighbourhood was granted Outline Planning Permission (Ref. 09/01314/EIA) for up to 3,600 homes as well as employment floorspace, education, health and community facilities in March 2014. The neighbourhood is currently under construction and already has thriving community with a New Neighbourhood Centre at Beaulieu Square including a Community Centre, schools, shops and nursery. The Beaulieu neighbourhood currently sits across three different Parishes (Broomfield, Boreham and Springfield).

Adjacent to the north-west of Beaulieu is the largely constructed Channels development which comprises up to 750 homes (Planning Ref. 10/01976/OUT). The neighbourhood currently sits across two different Parishes (Broomfield and Little Waltham). Both Channels and the Beaulieu Neighbourhood were planned together as part of the 'North East Chelmsford' location for future development growth within Part 3 of the North Chelmsford Area Action Plan DPD (July 2011) (NCAAP).

Further to the north of Both Beaulieu and Channels is land allocated within the Local Plan as 'Strategic Growth Site – North East Chelmsford' (Policy 6). This land is allocated for a new sustainable 'Garden Community' that will provide a significant amount of new housing (around 3,000 with a further 2,500 potentially in a later phase as part of a Local Plan review) and employment development (45,000 sqm). The proposed neighbourhood currently sits across three different Parishes (Little Waltham, Boreham and Springfield).

Together all three applications will form part of the 'Chelmsford Garden Community', as shown in the redline on the Chelmsford Garden Community 'Headline Information' sheet prepared by CCC (see enclosed document). This community will in total provide around 10,000 new homes, 46 hectares of employment space, 19.5 hectares of retail and commercial space, 5 new schools, 5 new healthcare / community facilities and 7 new district / local centres.

Proposed Tier 1 Area

As identified within the Chelmsford Consultation, "many villages and housing developments have grown. Many of these have crossed parish boundaries or have created new communities with their own local identity." It is considered that Beaulieu and Channels meet these criteria and have a unique identity as new build communities planned together through the NCAAP, separate from the parishes in which they overlap. This new identity and parish overlap will also be the case for the proposed Chelmsford Garden Village.

It is therefore considered by CZ that these new neighbourhoods, forming the Chelmsford Garden Community, would significantly benefit from an overarching and independent Tier 1 governance structure such as a new parish council. This would enable locals who live within the community to take a more active role in the governance of their area.

The holistic approach already being taken by the Council on these developments is clear on the Council's 'Chelmsford Garden Village' website which gives regard to the wider 10,000 home 'community' and opposed to each individual area (available: https://www.chelmsford.gov.uk/planning-and-building-control/developments-and-improvements-in-chelmsford/chelmsford-garden-village/).

Housing and Infrastructure

Whilst the geographical area of the current Beaulieu and Channels development is relatively small, the total population is already significant and will grow rapidly in the coming years.

Based on the 'Parish Profiles' section of the Chelmsford website, the nearby local parishes have households numbers of 8,093 (Springfield), 1,850 (Broomfield), 918 (Great Waltham), 539 (Little Waltham) and 1,487 (Boreham). If Beaulieu alone, at 3,600 households, were to become an independent parish council it would become the second biggest parish in the immediate locality. Further to this, the Chelmsford Garden Community (alongside Beaulieu and Channels) would cumulatively have up to 10,000 homes and would be considered one of the larger parishes within Chelmsford.

Regarding other infrastructure, the Beaulieu neighbourhood has a community hall which acts as the heart of the development and facilitates numerous local group meetings. The hall is run by the Community Trust which is formed of representatives from Beaulieu Church, Springfield Parish Council and local residents. This, alongside other features within Channels and the future neighbourhood to the north, will provide a foundation for a community governance structure to establish and grow.

The Land Trust

Critical to the success of Beaulieu has been the involvement of the 'Land Trust'. This is a charitable organisation which manages and maintains the parks and open spaces that are provided across the scheme. As the development progresses, Beaulieu's variety of green open spaces will be managed and maintained by Beaulieu Estate Management Ltd, a wholly owned subsidiary of the Land Trust. They

are funded by service charge fees and will take care of the estate parkland indefinitely on behalf of, and in partnership with, the Beaulieu residents and wider local community.

Given the significant role that the Land Trust play in the Beaulieu Area, CZ would propose that further proposals for a Parish Council could follow a similar model for community engagement and stewardship. Such proposals could involve a partnership between Countryside Zest, the new Parish Council and an organisation such as The Land Trust.

Summary

CZ support the amendments that the Council are proposing through this consultation and consider that the re-organisation of the Tier 1 Governance boundaries to encompass the Chelmsford Garden Community would further support the development and success of the new area of the City.

CZ wish to be actively involved in this process and ask that, as a significant landowner, they are involved in dialogue wherever possible on the potential for a new Tier 1 structure for Beaulieu, Channels and the Land North East of Chelmsford.

Yours faithfully,

Barry Murphy

BY EMAIL

17th March 2021

Dear Sir or Madam,

RE: COMMUNITY GOVERNANCE REVIEW CONSULTATION

We write in our role as Promoter and Managing Agent of the Channels development and as a member of the development Consortium bringing forward the emerging Chelmsford Garden Community. We write with regard to the current Consultation being carried out on the 'Community Governance Review' section of the Chelmsford City Council (CCC) website and provide the following comments (website link: https://www.chelmsford.gov.uk/voting-and-elections/community-governance-review/). Ptarmigan has also filled out the online survey, however due to limited response options this letter provides a more detailed response.

Background & Context

The Channels development was granted Outline Planning Permission (Ref. 10/01976/OUT) for up to 750 homes as well as substantial open space and the first section of the Radial Distributor Road from Essex Regiment Way in October 2012. The neighbourhood is currently under construction with a number of phases either built and fully occupied, partially occupied or under construction. The Channels land currently sits across two different Parishes of Broomfield and Little Waltham and on its eastern boundary is directly adjacent to Springfield.

To the south of Channels is the Beaulieu Park development which will eventually see delivery of 3,600 new homes that are currently being built out by Countryside and other developer partners. Both Channels and the Beaulieu Neighbourhood were planned together as part of the 'North East Chelmsford' location for future development growth within Part 3 of the North Chelmsford Area Action Plan DPD (July 2011) (NCAAP). Ptarmigan has liaised with Countryside Zest regarding these representations to ensure a broad consistency of message from both parties.

Further to the north of both Beaulieu and Channels is land allocated within the current Local Plan as 'Strategic Growth Site — North East Chelmsford' (Policy 6)'. This land is allocated for a new sustainable 'Garden Community' that will provide a significant amount of new housing (around 3,000 with a further 2,500 potentially in a later phase as part of a Local Plan review) and employment development (45,000 sqm). The proposed neighbourhood currently sits across three different Parishes (Little Waltham, Boreham and Springfield).

Together all three areas will form part of the 'Chelmsford Garden Community', that will in total provide around 10,000 new homes, 46 hectares of employment space, 19.5 hectares of retail and commercial space, 5 new schools, 5 new healthcare / community facilities and 7 new district / local centres. Proposed Tier 1 Area

As identified within the Chelmsford Consultation, "many villages and housing developments have grown. Many of these have crossed parish boundaries or have created new communities with their own local identity." It is considered that Channels and Beaulieu meet these criteria and have a unique identity as new build communities planned together through the NCAAP, separate from the parishes in which they overlap. This new identity and parish overlap will also be the case for the further extension to the Chelmsford Garden Community allocated within the current Chelmsford Local Plan.

It is therefore considered by Ptarmigan that these new neighbourhoods, forming the Chelmsford Garden Community, would significantly benefit from an overarching and independent Tier 1 governance structure such as a new parish council. This would enable locals who live within the community to take a more active role in the governance of their area.

The holistic approach already being taken by the Council on these developments is clear on the Council's 'Chelmsford Garden Village' website which gives regard to the wider 10,000 home 'community' as opposed to each individual area (available: https://www.chelmsford.gov.uk/planning-and-building-control/developments-and-improvements-in-chelmsford/chelmsford-garden-village/)

Housing and Infrastructure

Whilst the geographical area of the current Beaulieu and Channels development is relatively small, the total population is already significant and will grow rapidly in the coming years. Based on the 'Parish Profiles' section of the Chelmsford website, the nearby local parishes have household numbers of 8,093 (Springfield), 1,850 (Broomfield), 918 (Great Waltham), 539 (Little Waltham) and 1,487 (Boreham). If Beaulieu and Channels alone, at 4,350 households, were to become an independent parish council it would become the second biggest parish in the immediate locality. Further to this, the Chelmsford Garden Community (alongside Beaulieu and Channels) would cumulatively have up to 10,000 homes and would be considered one of the larger parishes within Chelmsford and may even warrant the badge of a Town Council such will be its size.

Across the existing and future developments there will be a range of community hubs being delivered including facilities such as community halls. The existing community hall at Beaulieu is run by the Community Trust which is formed of representatives from Beaulieu Church, Springfield Parish Council and local residents and is very successful. This, alongside other features within Channels and the future neighbourhood to the north, will provide a foundation for a community governance structure to establish and grow.

Critical to the success of any future governance is ensuring there is a framework in place to ensure the highest quality management of parks and open spaces across the new developments in the area. At Channels the Council are aware of the initial problems relating to appointment of individual management companies who did not perform to the level required by the landowners. As a result, Ptarmigan has stepped in and assumed the role as manager of the site wide public open space areas and have recently applied to convert the Channels Management Company Ltd into a Community Interest Company ("CIC"). The CIC is designed to give all residents greater ownership and involvement in the management of open space and community facilities as each individual homeowner is entitled to become a member of the company.

The primary purpose of the CIC is to ensure that the communal facilities are managed and maintained to an agreed standard and are funded by those who benefit. CIC's are designed as a 'not-for-profit' enterprise; that is, they want to use their assets and any resulting profits for the members benefit and combine the pursuit of a social purpose with commercial activities so are well suited to the growth of large new communities. Importantly, under the CIC route, the communal facilities, both existing and emerging, can be transferred into the CIC in phases as they are completed and will continue to be funded by service charge fees.

Membership is open to all resident homeowners with those who are in rented or shared ownership homes also able to attend meetings and have a voice. The services that will be delivered under the CIC will be undertaken by a managing agent, which for now is Ptarmigan, but in the future may change following consultation and agreement by members. As the CIC moves forward, regular meetings of members and stakeholders in the CIC will take place for decision making purposes and to review ongoing performance, projects and initiatives and also discuss budgeting and accounts.

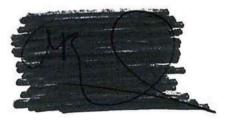

We believe the CIC model allows for excellent community engagement and involvement and such models should be encouraged by the Council as part of their proposals for future community governance across the Chelmsford area.

Summary

Ptarmigan support the amendments that the Council are proposing through this consultation and consider that the re-organisation of the Tier 1 Governance boundaries to encompass the Chelmsford Garden Community and therefore establish a new Parish/Town Council would further support the development and success of the new area of the City.

Ptarmigan wish to be actively involved in this process and ask that, as a significant partner acting on behalf of landowners that we are involved in dialogue wherever possible on the potential for a new Tier 1 structure for Beaulieu, Channels and the Land at North East Chelmsford.

Yours sincerely,

Olly Buck Director For and on behalf of The Ptarmigan Group

Part of the Little Waltham Parish Council representation on the CGR is missing from the report at Item 6 on the agenda owing to formatting problems. The full response is as follows:

Little Waltham PC - Community Governance Review - initial consultation response

"Belstead Farm Lane was the original Parish boundary in that area however, that road has been replaced by Channels Drive which follows a slightly different route, which has led to anomalies which do need to be rectified. It acts as a divide between areas of the Channels development. The Parish Council takes the view that Parish boundaries should encompass communities as opposed to dividing them. The section of the new development known as 'Channels' has been built as a self-contained area and many of the residents have expressed to the Parish Council a wish that Channels should be wholly within the Parish of Little Waltham. The Parish Council thus considers that the boundary is amended so that the Channels development is within the Parish of Little Waltham.

In relation to the prospective new Garden community which would predominantly within the Parish of Little Waltham, it is noted that this would be a substantial development, and also that the ethos of Garden Communities is that assets are owned by the Community as a whole. In the circumstances the Parish Council takes the view that the most feasible way forward would be for a new Parish Council to be set up to encompass that Garden Community rather than becoming part of an existing Parish.

At Blasford Hill Bloor Homes has submitted a planning application to develop an area of land and a masterplan has been approved for that area. About 60% of the land is currently within the Parish of Little Waltham with the remaining land within the Parish of Broomfield. The Parish Council takes the view that Parish boundary lines should encompass communities and as the majority of the impact of the new development will be upon the residents of Little Waltham (the developers refer to the local school, GP surgery and village facilities to serve the development) the Parish Council consider that the Parish boundary line should be moved so that all of the new houses are within the Parish of Little Waltham."

Chelmsford City Council 22 September 2021

Authorised Absence of Councillor Shepherd

Report by: Leader of the Council

Officer contacts: Brian Mayfield, Democratic Services Manager. Tel: 01245 606923. Email: brian.mayfield@chelmsford.gov.uk

Purpose

To authorise the absence of Councillor R Shepherd under Section 85(1) of the Local Government Act 1972.

Recommendations:

That the absence of Councillor R Shepherd be authorised under Section 85(1) of the Local Government Act 1972.

Non-attendance at meetings for a period of six months automatically results in a member's seat becoming vacant unless the Council approves such absence before the six-month period expires. Such approval may be given under Section 85(1) of the Local Government Act 1972.

Councillor Bob Shepherd has suffered a number of medical problems lately but hopes to resume his Council duties in due course. However, there is no certainty that he will be able to do so before 13 October, when it will be six months since he last attended a meeting.

This is the last meeting of the Council before December at which his absence can be authorised, hence the need for its urgent consideration.

It is therefore proposed that Councillor Shepherd's continued absence until the Council meeting on 23 February 2022 be approved under Section 85(1) of the Local Government Act 1972.
