### Officer Contact:

Elizabeth Brooks, Audit Services Manager [elizabeth.brooks@chelmsford.gov.uk](mailto:elizabeth.brooks@chelmsford.gov.uk)

---

### Purpose

This report summarises the current position for the Council's Principal Risks and outlines recent risk management activity.

### Recommendations

Audit and Risk Committee are requested to note the contents of this report.

---

## 1. Background

- 1.1. It is the Council's policy to proactively identify, understand and manage the risks inherent in its services and associated with its plans and strategies, so as to encourage responsible, informed risk taking within its risk appetite and reduce exposure to a tolerable level using a justifiable level of resources.
- 1.2. An effective risk management framework should:
  - provide risk information to support decision-making and resource allocation
  - improve compliance with policies, procedures, laws and regulations and stakeholder expectations; and
  - provide assurance to internal and external stakeholders that the Council is well-managed.

- 1.3. The corporate risk management function assists the Council to identify, understand and manage its strategic risks. The function reports twice a year to the Audit and Risk Committee to enable the Committee to monitor the effective development and operation of strategic risk management in the Council.

## 2. Risk management activity

- 2.1. To provide a cost-effective and resilient response to corporate risk management following the restructure of the Risk and Insurance Manager role at the start of 2025, strategic responsibility for the function moved to the Audit Services Manager, with the Risk Manager role outsourced to Basildon Council, who have the dedicated resources, capacity, and skills for this purpose.
- 2.2. The main activities completed to date during 2025 have included:
  - Update of the Council's Principal Risk Register (see section 3 and Appendix 1)
  - Development of new Risk Management Strategy (see Appendix 2)
  - Updated and refreshed Risk Management Framework.
  - Early development of the Council's Local Government Reorganisation Risk Register
  - Exploring options for the future of the Council's Risk System

## 3. Principal Risk Summary

- 3.1. The Principal Risk Register is central to the risk management framework, owned by Management Team and covers the Council's strategic risks which require regular oversight at senior level to ensure that, where necessary, action is taken to further mitigate risks outside the Council's indicative risk appetite.
- 3.2. Corporate Risk Management liaise with nominated Risk Owners, Service Managers and Directors to update each Principal Risk, and report bi-annually to Management Team and Audit and Risk Committee to facilitate their monitoring and oversight.
- 3.3. A full detailed update of the Principal Risk Register was undertaken during Summer 2025 to ensure it is up to date and reflects the current risk profile and risk appetite. The summary and heatmap is at Appendix 1 below.
- 3.4. The Risk Management process is a subjective management tool and is designed to assist the strategic direction, and operational running of the Council and ensure key issues are highlighted and resources allocated appropriately. It is essential to consider that:
  - Some risks may be heavily influenced by external factors outside the Council's control.
  - Where inherent risk is increasing, additional work may have been undertaken to maintain the same current risk level.
  - Risks are constantly changing.

## 4. Conclusion

- 4.1. The Principal Risk Summary and Risk Management Strategy 2025 is attached for Audit & Risk Committee to note.

### Corporate Implications

**Legal/Constitutional:** The Council has a legal duty to ensure that it has a sound system of internal control, which includes effective arrangements for the management of risk (Regulation 3 (Part 2) of the Audit and Accounts Regulations 2015). The risk management framework encourages risk owners to consider the potential legal and regulatory consequences, should a risk event occur.

**Financial:** The risk management framework encourages risk owners to consider the potential financial consequences, should a risk event occur.

**Potential impact on climate change and the environment/ Contribution toward achieving a net zero carbon position by 2030:** Reputational consequences set out within the risk management framework encourage risk owners to consider environmental aspects of their activities.

**Personnel:** The corporate risk management framework is being implemented within existing staff budgets.

**Risk Management:** Effective risk management is an essential part of good governance, providing assurance to internal and external stakeholders that the Council is well-managed. This report is intended to enable the Committee to fulfil its role in overseeing the effective operation and development of risk management at the Council.

**Equality and Diversity:** Equalities implications of Council activities are considered at initiative level.

**Health and Safety:** The risk management framework encourages risk owners to consider the potential safety, health and wellbeing implications for staff and/or service users, should a risk event occur.

**Digital:** Risks relating to cyber security are considered within the risk management framework

**Other:** None

**Consultees:** Management Team noted the Risk Management Report in August 2025

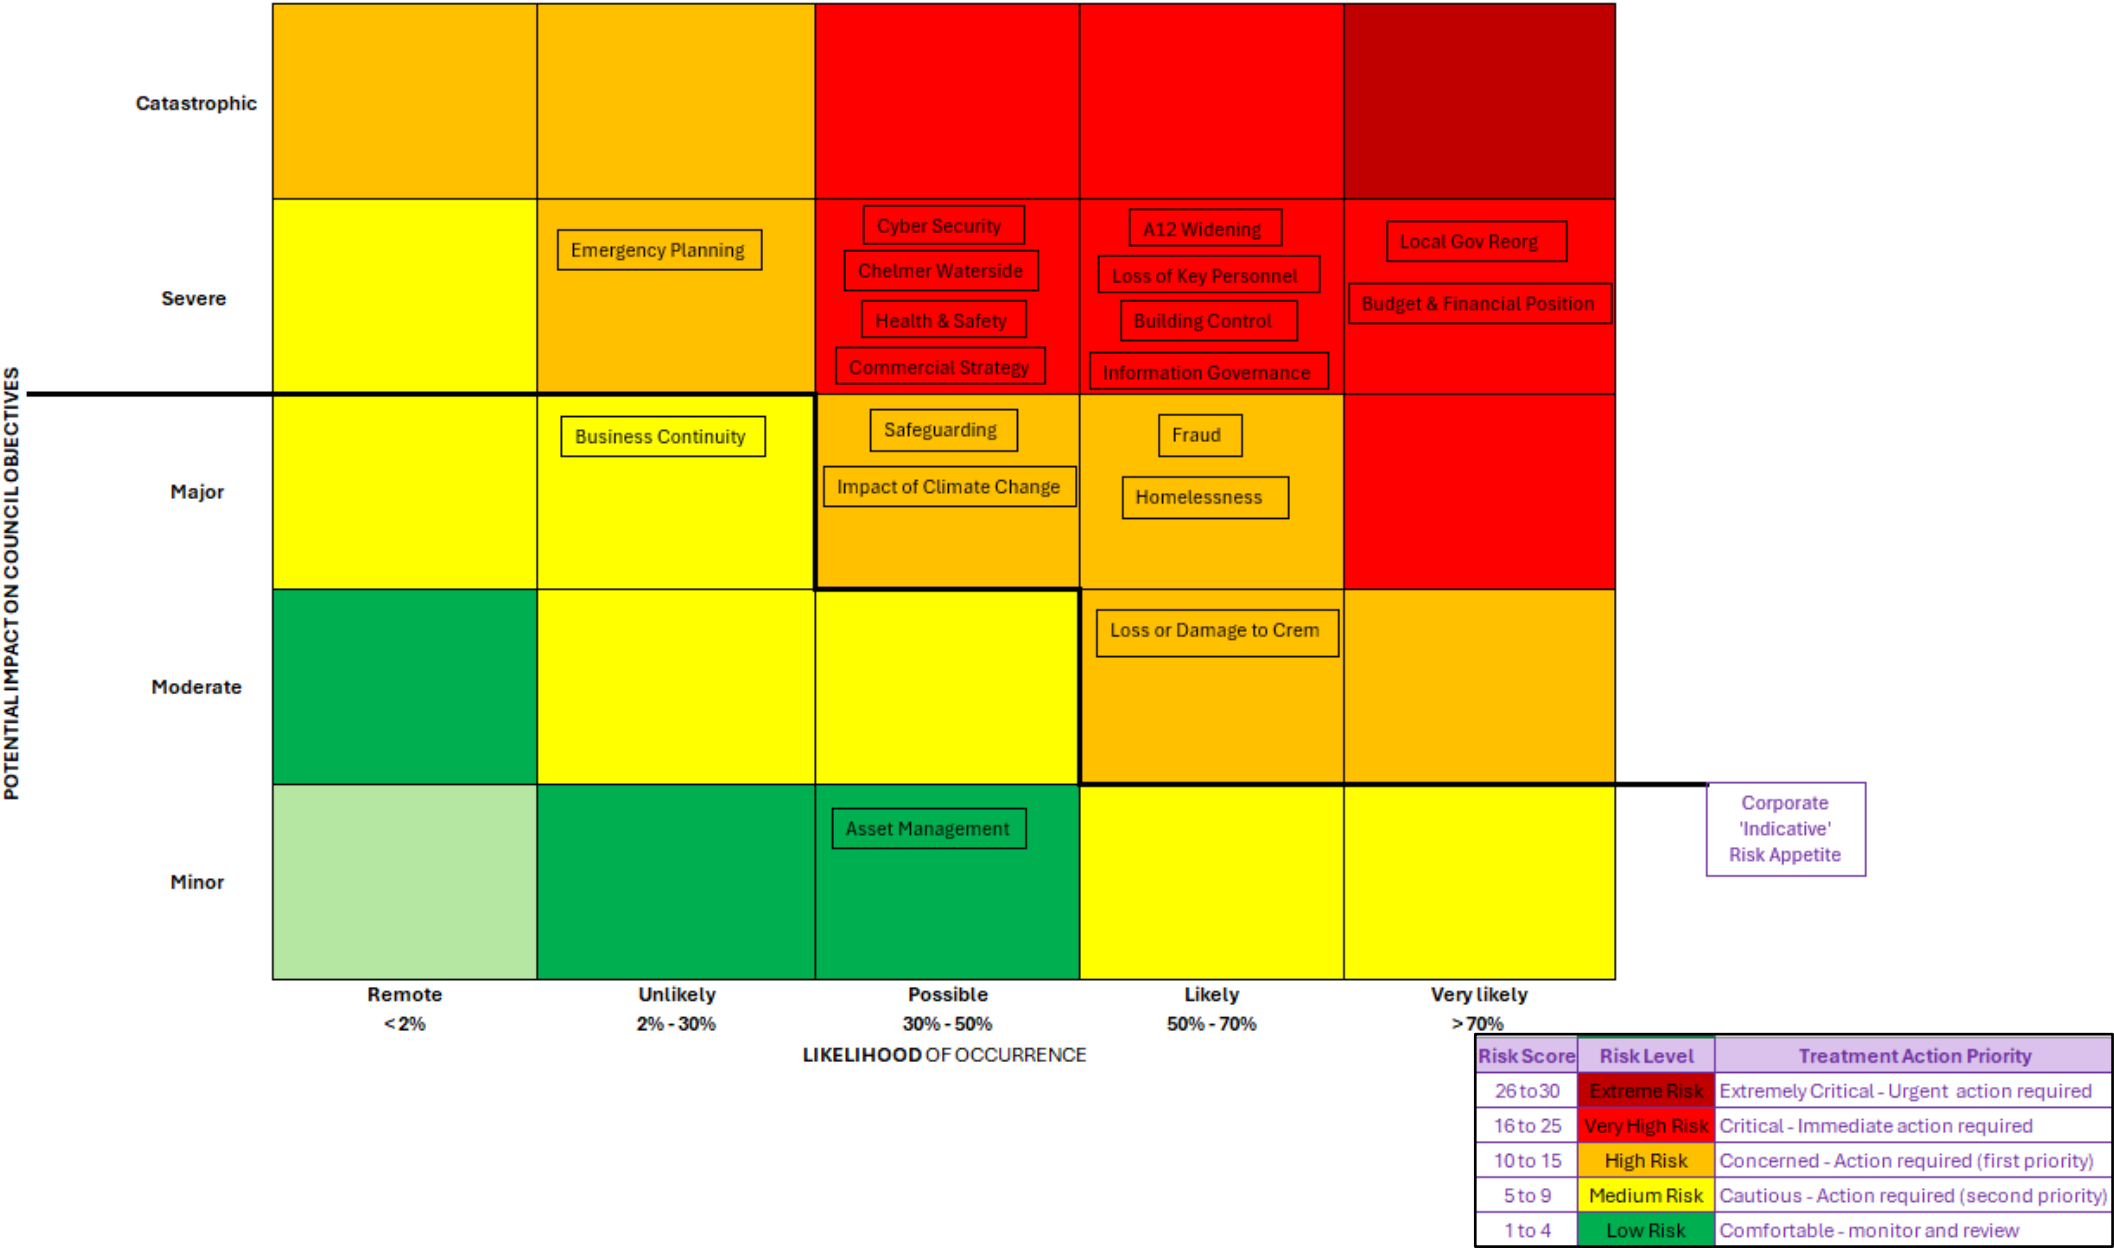

**Relevant Policies and Strategies:** None

Minimal effect on project budget/cost or quality	Low Priority recommendations (Substantial to Moderate Assurance)

## Risk Management Strategy 2025-26

**Vision: To embed a systematic approach to the identification, assessment, and mitigation of potential threats, empowering Chelmsford City Council to create a fairer, greener and more connected community through the application of the following risk management principles:**

<b>Proportionate</b> <i>Measures to identify, treat, monitor and report on risks should be proportionate to the risks faced by the Council.</i>	<b>Aligned</b> <i>Risk management cannot take place in isolation and must be aligned to existing business activities (including strategic planning and performance) to be effective.</i>	<b>Comprehensive</b> <i>Arrangements should capture the broad spectrum of risks faced by the Council, but be flexible enough to do this efficiently, without leading to 'risk overkill'</i>
<b>Embedded</b> <i>Arrangements should be clearly communicated, integrated into existing management structures and activities, and enforced.</i>		<b>Dynamic</b> <i>Risk information must be current to enable timely and effective decision-making</i>

### Strategic Risk Management Objectives

#### Corporate Risk Management

- Develop the Dynamics Risk Management System to automate risk reporting as far as possible and facilitate self-service for risk owners, where appropriate.
- Ensure all existing (and any new) subsidiary risk registers are made available to risk owners through Dynamics Risk Management System.
- Through Dynamics Risk Management System, develop the use of 'target risk' to help refine the Council's indicative risk appetite and improve consistency in the way that risks are treated.
- Enable improved risk identification and management through liaison with the Council's insurance programme.

#### Compliance

- Rollout the Dynamics Risk Management System compliance function, establishing real-time reporting to Service Managers and Directors on outstanding Health & Safety and Fire Risk actions and report bi-annually to Management Team by the Specialist Risk Teams (i.e. Health and Safety and Building Services).

#### Training and Awareness

- Review and develop the Council's risk protocols and staff training and awareness on the risk framework.
- Roll out further training and guidance to Service Managers and staff on technical operations of Dynamics Risk Management System.
- Champion using Dynamics Risk Management System to enable services to identify, analyse and treat operational risks in a practical and efficient way.
